Gallipoli Peninsula Also Cleared of Invaders Except at Two Points, Constantinople Avers—Capture of Towns Denied.

Advance of Land Forces into Interior Asserted by Anglo-French—Moslems Repulsed Artillery and Infantry Disembark at Smyrna.

CONSTANTINOPLE, May 6. All Allied troops landed on the Asiatic shore of the Dardanelles have been driven off, the Turkish War Office announced today, and the Gallipoli peninsula almost cleared of foes.

Reports that the towns of Gallipoli and Nagara had been captured by the Allies were officially denied. It was stated that only at two points on the peninsula, Avl Burnu and Sed-el-Bahr, had hostile troops succeeded in holding their positions.

The unfavorable situation of the enemy at Dardanelles is unchanged. Reports from Athens and Mytilene regarding the occupation of Gallipoli and Nagara by landing troops of the Allies are untrue. Gallipoli peninsula is entirely at our disposal for military movements.

The Asiatic shore has been cleared of the enemy. Turkish officers who arrived here today reported that ten towns had been burned. Maiden has been almost completely destroyed and fire is raging in three different sections of Gallipoli.

LONDON, May 6. Reports received today from various sources stated that the Allies have launched new and violent attacks on the Dardanelles and at Smyrna. At the same time, however, the British and French forces have had to face fierce counter attacks by the Turks.

A whole Turkish regiment was wiped out by the accurate fire of the Allies' guns. It was admitted by Turkish prisoners at Tenedos.

Turkish forces on the Gallipoli Peninsula, advancing from Maghran, attacked the Allies' position near Kithia, but were repulsed, losing 150 in killed, says a dispatch from Mytilene. This attack was delivered on Tuesday after the Turkish troops at Maghran had been reinforced.

The same advices state that the allied troops on the Gallipoli peninsula have resumed their advance into the interior, occupying positions of high strategic importance. Artillery is being landed southeast of Smyrna from French transports to support the infantry columns that will try to move against the Smyrna forts from the land side.

GERMAN WARSHIPS SUPPORT RAID ON BALTIC PROVINCES

Cruisers Off Libau—Invasion Halted, However, Slavs Say. PETROGRAD, May 6.

Cruisers and smaller warcraft are supporting the German invasion of the Baltic provinces, the War Office admits. In Kovno Province, at Rossien, the Czar's forces are making a steady advance toward East Prussia.

The demonstration in Northwest Russia doubtless is intended to detain large Russian forces available for the battle between Cracow and the Carpathians.

This German move has completely failed. It was turned back Monday from a point south of the line from Libau to Mitau, abandoning a number of light guns.

GERMANS GAIN Foothold ON HILL 60, BRITISH ADMIT

Allies Forced to Fall Back Toward Ypres by New Attacks. LONDON, May 6.

Aided by the smashing fire of their big guns which have battered the British entanglements to pieces, the Germans are slowly advancing in Belgium. Late advices from the front say that the British have ceded certain of their outer line of trenches "to straighten out their line."

The losses on both sides are enormous, although the Germans far outnumber those of the Allies. The Germans continue their use of poisonous gases. They are bringing up enormous forces in an effort to retake Hill 60 south of Ypres, but so far have succeeded only in maintaining a foothold on the easterly approaches to it.

While the Germans continue their main attacks on the British positions in an effort to take Ypres, the French and Belgian forces are violently attacking their right wing and have made gains between Pypergaale and Hetasas.

AUSTRIANS DEMAND NEW PRICE FOR LAND CESSIONS TO ITALY

Offer Reported Made Through Count Goluchowski, as Special Envoy, for Strengthening of Triple Alliance. ROME, May 6.

Austria has increased its offers of territorial compensation in return for continued Italian neutrality. Count Goluchowski, formerly Austrian Foreign Minister, is expected to arrive in Rome today. He is the bearer of a special message from the Vienna Government and will be at once received by King Victor Emmanuel and Baron Sonnino.

It is believed here that he brings the reply of the dual monarchy to Italy's demand, made through Prince von Buelow, that Austria make a clear statement of her intentions. According to reliable information Austria is now prepared to make any territorial and political sacrifices to prevent war with Italy.

The Vienna Government, however, insists that Italy enter into a new and stronger Triple Alliance. Italy is not ready to do. Those in the confidence of high Government officials here believe that the Cabinet council yesterday discussed precisely this point and that it was decided to set a short time limit to the Italo-Austrian negotiations.

It is said to have been on this account that the King decided not to go to Genoa, as in the case of intervention the monarchy is constitutionally bound to make the declaration of war, hence his presence and that of all the Ministers at Rome is indispensable. Baron Sonnino was in continual conference with the King yesterday.

It is feared that this action will force the closing of many collieries and that thousands of miners will be thrown out of work.

Submarines Raid North Sea and Irish Coast, Sinking Many Vessels. LONDON, May 6.

German submarines in the North Sea and off the Irish Coast are continuing to raid shipping, while in the Baltic Sea the auxiliary cruiser Silvana is raiding merchantmen. The British schooner Earl of Lathom was sunk by a German submarine eight miles off Kinale Head, Ireland, Wednesday.

The Danish steamship Cathay, a vessel of 403 tons gross, has been sunk in the North Sea, either by a mine or a German submarine. The Cathay had a number of passengers on board. These as well as the members of the crew were landed at Ramsgate today.

The Swedish steamship Vanadis, from Blyth, coal laden, has been torpedoed and sunk in the Baltic by the German auxiliary cruiser Silvana, according to a Copenhagen dispatch, which stated that the Vanadis was torpedoed by the Silvana because the steamship refused to stop when signaled.

Owners of the British steamship Cherbury were notified today that that ship was torpedoed and sunk by a German submarine in the Atlantic Ocean off the west coast of Ireland on April 23. All members of the crew were saved and landed in an isolated Irish village, where the captain found it difficult to get into communication with Glasgow.

SWOBODA AN AMERICAN, SAYS PARISIAN PAPER

Life Story of Alleged Spy Shows Him to Be Soldier of Fortune. PARIS, May 6.—What purports to be the life story of Raymond Swoboda, the mysterious prisoner who claims to be an American citizen, but whom the French authorities declare to be a German spy, was published today by the Petit Parisien. It shows that Swoboda is really an American, and that he has lived the life of a soldier of fortune.

Swoboda, the account states, "was born in San Francisco, five years after his mother quarreled with her husband, fled and took the two children with her. In Switzerland she met and fell in love with a man named Schwind. Swoboda went to school in Switzerland, and then to Heidelberg, from which he graduated in 1877.

"He was employed in Hong Kong, Canton, Tien-Tsin and Shanghai. At Tien-Tsin Swoboda was employed by American interests to investigate local conditions with a view to opening up an oil field in that region.

"In 1900, Swoboda again served under the German flag, taking part in the operations against the Boxers. He had been successful in passing an examination to be a reserve officer, but when the uprising was put down, Swoboda again left the service and returned to Europe.

"The following year again found Swoboda in the Orient, this time in the employ of the Russo-Chinese bank at Shanghai. He was arrested there, charged with espionage and sent to prison, but escaped. When recaptured he was sentenced to a long term in a German fortress. Good behavior reduced his term and he was released in 1904.

"Swoboda lived in Paris about ten years, making big sums of money as a stockbroker. When the war broke Swoboda, seeing a chance to make money, took up negotiations for the sale of equipment.
