

COLLEGIATE ATHLETIC NOTES-YALE AND CORNELL PREPARE FOR REGATTA-FISHING

COLLEGES OF U. S. NEED REGATTA STYLED AFTER ENGLISH HENLEY

Spirit of Competition at Princeton-Penn-Columbia Meet Boosts Suggestion of Evening Ledger for Week's Rowing Carnival.

The suggestion advanced in these columns some time ago that the time was ripe for the promotion of a week of college rowing, a regatta planned on the lines of the famous English Henley, is taking root.

Now this suggestion presents itself: Why should not the recently formed American College Rowing Association promote a rowing carnival on Lake Carnegie, or some other suitable course, to last a week or at least three days?

Such a regatta need not interfere with either the Poughkeepsie or the New London races, for it could be held early in May before the big universities begin serious work for their four-mile distances.

Yale's swimming authorities are to be congratulated in receding from their earlier advertised intention to insist that Pennsylvania and Columbia should either swim off the second tie that resulted in this sport or forfeit the championship.

In deciding to settle future ties on the basis of the number of points scored by the individual championships the association makes a suggestion which is worth trying out as a substitute for settling this matter by a series of dual meets.

This is the only fair method to award this title. Had this suggestion been favorably acted upon earlier, Yale would have been this year's champion.

New Swimming Rule Will Aid Sport

Yale's swimming authorities are to be congratulated in receding from their earlier advertised intention to insist that Pennsylvania and Columbia should either swim off the second tie that resulted in this sport or forfeit the championship.

In deciding to settle future ties on the basis of the number of points scored by the individual championships the association makes a suggestion which is worth trying out as a substitute for settling this matter by a series of dual meets.

Slip-Up in Yale-Princeton Shot Events

The Yale and Princeton track authorities, together with Referee Gustavus T. Kirby, somewhat disregarded the rules of the Intercollegiate A. A. A. in their dual meet last week.

Referee Kirby allowed them to compromise by contesting the events with both kinds of missiles. The rules of the I. C. A. A. A. were plainly disregarded, for they provide that all members of the association must conduct their meets in accordance with the I. C. A. A. A. rules.

A College Crew That Has Overcome Great Handicap

All indications are that the Easterners will have another chance to see how Pacific coast collegians swing their oars at the Poughkeepsie regatta in June.

It may sound like fiction, but the champions of the Pacific coast have to ride eight miles on a train and then walk nearly a mile to get to their practice waters.

The coach has declared that the eight of 1912 rowed the Poughkeepsie course in practice in better time than the winners of the big race showed.

The Question of Gate Receipts

"Gate receipts are not the object of intercollegiate athletics," continues Doctor Eider. "They are essential, for without them there would be no intercollegiate athletics.

"Another fallacy is that 'intramural' sports, for all students, will flourish if intercollegiate sports are cut out. This is founded on two ideas, both of which are fallacious.

"The elimination of intercollegiate sports will automatically cut off the income from those sports, and there will be no funds therefore to devote to intramural sports except as students are taxed, or the college appropriates cash from its regular funds, or endowment is provided by generous alumni or others.

"That intercollegiate and intramural athletics are not mutually exclusive of each other is shown by the fact that sports for all students are most highly developed in those colleges and universities where there is the broadest development of intercollegiate sport—notably Harvard, Yale, Princeton, Michigan, Wisconsin, and others.

FIGHTERS WITH PUNCH SHOW AT QUAKER CITY

Costello Meets Hauber and Holt Tackles Bratto Tonight. Mack May Meet O'Donnell.

A quartet of hard-hitting fighters will be the feature of the weekly Quaker City show arranged by Matchmaker John Glasgow tonight.

First bout—Kid Friel, North Penn, vs. Jack Brown, Rosehill Social, North Penn, vs. Joe Hastings, Hunting Social, vs. Young Scudder, Newtown.

Matchmaker Taylor succeeds in convincing Joe O'Donnell with Willie Mack at the Broadway Club next week.

Herman Hindin announced this morning that he matched Eddie Revolve, of the 14th Ward, to meet Jackie Clarke, of the 15th Ward, in a 10-round bout at the Metropolitan tomorrow night.

After a fortnight of diligent training, Joe Hirst announces that he will enter the ring against Joe Hefferman in prime shape at the Olympia next Monday night.

A report comes flitting Philadelphia that Abe Attell is showing in vaudeville in the West, and that he was not a fighter who was outpointed in 39 bouts by Mark McCoy.

YALE AND CORNELL READY FOR REGATTA

Elis Take Trial Spin on Lake Carnegie for Big Races Tomorrow.

PRINCETON, May 14.—The Yale crews with their English equipment arrived here yesterday and took a trial spin over Lake Carnegie as inspiration for the race on Saturday with Cornell and Princeton.

It was after 5 o'clock when Coach Guy Nickalls bled his men, varsity and freshmen, and took them down the lake to the dam at Kingston and back in all about six miles.

Doctor Spaeth had the Princeton crew out for an easy paddle with several racing starts thrown in for practice.

Ithaca, May 14.—The Cornell varsity and freshman crews left for Princeton last night to take part in the Carnegie Lake regatta on Friday.

The varsity is now believed to be in fair shape for the first contest. The men have shown a lot of improvement in the last few days, and Courtney appears to have weighed a typical Cornell eight.

Postponed Polo for Today Treacherous footing which a rain-soaked field made for the Blue Club polo team scheduled to play yesterday afternoon at Bryn Mawr.

AND IT IS SOME RUT, TOO

TIDES table with columns for date, time, and tide level for Atlantic City.

Salt Water News

From reports along the Atlantic coast the fish have begun to arrive in large numbers in the bays and inside waters.

At Ship John Light, Delaware Bay, many croakers were taken. Tautog or blackfish have made their appearance outside, and this week should see many fishermen journeying to Angelsea, Grassy Sound, Somers Point and elsewhere along the Jersey coast.

A few strippers were taken in Delaware Bay by the fishermen, and large catches were made by the net fishermen.

Mr. J. Warren, of Point Pleasant, N. J., reports that the striped bass are in the surf. Five already have been taken at that point.

Ern Brautigan, Bert Godall and Joe Bins are motoring tomorrow to Fortescue, Delaware Bay, to spend the weekend angling for strippers.

Doctor Righter and Doctor Reynolds, of Philadelphia, will journey to Surf City, this week-end, to cast for striped bass.

Surf Fishing

An association of surf angling clubs was formed in New York city last week at a dinner given by the members of the Asbury Park Fishing Club.

The National Association of Scientific Angling Clubs sent as its delegate the past president, Dr. J. E. Held, of New York.

The conference was held at the initial suggestion of Dr. Carlton Simons, present holder of the world's record for surf casting, and sponsored by the Asbury Park Fishing Club.

The pier at Ocean City, which is being built for the exclusive use of members of the Ocean City Fishing Club, is now 400 feet out from the approach.

Dr. W. I. Klefer, of Philadelphia, and Doctor Lewering, of Stroudsburg, have just returned with a most successful trip up to Bushkill, Monroe County, where they were angling for brook trout along Saw Creek.

Fresh Water Fishing

The trout season for Pennsylvania has been rather slow, because of the cold snap and the low conditions of the streams.

Northampton County should prove popular to the fishermen not caring to journey far from the city, as fair catches were reported earlier in the season when conditions were not as favorable as might be expected.

Bucks, Montgomery and Chester Counties also have their trout streams that the average angler is not aware of and are well worth looking up.

Dr. W. I. Klefer, of Philadelphia, and Doctor Lewering, of Stroudsburg, have just returned with a most successful trip up to Bushkill, Monroe County, where they were angling for brook trout along Saw Creek.

CADET NEYLAND, ARMY, IS RATED BEST TWIRLER IN COLLEGE RANKS

Texan in Box Has Pitched Team to Twenty Straight Victories. Sammy Strang Gets Credit for Developing Giant Athlete.

Cadet Robert R. Neyland, of Texas, who is making a name for himself in college baseball circles this year, pitched his 20th straight victory over Washington and Lee University at West Point last Saturday.

During his first year (1912) Cadet Neyland had no chance to show his hand, for the class with which he came did not report until June, and the Army's baseball season was over at that time.

Next year Neyland's best games were against Fordham, Colgate and Navy. He was at bat 45 times, made 14 hits and scored eight runs.

Public Ledger Sports Magazine The Week's Summary of Sports

Brimful of live, chatty reports and programs of late doings in the sporting world. You'll like its highly interesting stories, not only for their accuracy, but also because you get the biggest, most complete sports supplement published by any newspaper.

What Is a Knockout? By WM. H. ROCAP

The ever-present opening for disputes under Marquis of Queensbury rules is closed by America's Hoyle of boxing. An intelligent, final finish for pugilism's hairsplitters.

Long-Distance Swimming By CHAS. B. DURBOROW

Philadelphia's champion long-distance swimmer reduces the sport to an exact science by telling how to map out a plan and take advantage of every little thing that happens.

The First Qualification of a Baseball Manager By H. PERRY LEWIS

Probing deep into human natures on the team is the big thing, says Clark Griffith. Gleaned from a heart-to-heart conference with the successful pilot of the Washington Americans.

Clothes and the Golfer By WM. H. EVANS

Dress won't make golfers, BUT the old adage about fine feathers doesn't hold good on the course. Wm. H. Evans tells of the part played by personal appearance in golf ethics and efficiency.

How Ball Players Fool Themselves By GEO. E. McLINN

Some reasons why ball players appear to have certain eccentricities on the field. Perhaps you've wondered what's back of some peculiar diamond stunts.

The Young Woman Who Learned Billiards By FREDERICK S. HOVEY

A previous article by this writer-expert shows why men can be better players than women. Here's an exception—a Philadelphia woman who learned to be a good shot.

Tennis Tutoring By PAUL W. GIBBONS

Do you know that there are practically no expert, professional tennis teachers in America? Paul W. Gibbons has collected a wealth of information on the why and wherefore.

Water Basketball Trapshooting By FRANK T. McCRACKEN By SAMUEL WESLEY LONG

Interesting possibilities and late accounts of this infant sport. A humorous tale of why clay pigeons and not clay pigeons.

Chess Players' Corner By DAVID A. MITCHELL

"A Cure for Carelessness" tells of a sure way to avoid mistakes. Shows you how to play a well-balanced, heady game.
