### GENERAL ASSEMBLY **DIVIDED ON STATUS** OF UNION SEMINARY

Attitude of Committee Expected to Provoke Acrid **Discussion Between Pres**byterian Conservative and Radicals.

ROCHESTER, N. Y., May 22.-Two problems potential of acrid discussion are before the Presbyterian General Assembly today, and the commissioners are somewhat split, conservatives seeming to have the strength to roughride the radicals. Whether Union Theological Seminary, of New York, is to be cast out as heretical or tolerated if its propaganda is modified is one rock on which there is a split. There is no doubt that the conservatives are in a majority on the com

mittee and in the assembly against Union. Indications point that the report which will be filed at t o'clock will be against Union Another difficult problem is the charac-

terization by the executive commission of the Rev. Charits L. Stelzle as a quasi-socialist. The Rev. Mr. Stelzle has got the matter before a special committee. The Rev. Dr. Maltland Alexander, the retiring moderator, presented the report of the special committee on Christian life and work. On the question of divorce.

the committee reported as follows: "What is needed is not so much theory or additional legislation, but action to create public opinion favoring the posi-ion taken by most of the Protestant Churches in favor of sanctity of martage by a reduction in number of causes or divorce.

The budget for this year is larger than ast, subdivided as follows:

ducation ublication and Sunday school work. 150,000 200,000 120,000 175,000 inisterial relief and sustentation.... 'olleges ... 

D., a former president of Princeton Uni-versity, delivered the only address. He

sald: "If you are honest, then, you take the New Testament in totality. You do not cut out a little here and there, omitting the epistles and holding Matthew, Mark and Luke, and saying that in them you have the human Jesus. A good code of ethics. When you take the New Testament in its totality you have something and must estimate it at its face value, if you want to know what the early Chris-

tians thought about Christianity. "The modern minister of the Gospel takes a few tablets of doctrine, dissolves them in a gallon or two of the rosewater of sentimentality, puts a little in an atomizer and sprays the congregation to an accompaniment of the sweetness of Christianity and the fragrance of a benevolent life.

Referring to the Roman Catholic hurch, Dr. Patton said: "There she stands, immovable with her strong body of dogmatic faith, her deep

onviction that she has the right to speak nder guidance of the Holy Ghost; and with all her faults I am bound to say I idmire her organization." The decision of the General Synod of the Reformed Church in the United States

not to unite with the Presbyterian under a plan formulated in 1913 was accepted by the General Assembly. The report of the committee stated that this action has left no disagreeable feeling as to church

and friends of the Central Branch will be held in the north parlor on Wednes-day, at 9:15, with H. G. Buckelew as leader. Mr. Buckelew is the head of the boys' division of the branch. In the matter of the World Conference on Faith and Order, the committee report called attention to the fact that of the 47 VANDERBILTS ABANDON HOPE denominations represented in the confer-Death Notice of Lusitania Victim Pubwithdrawn from the body because of the war.
