

MEATS AT HIGHEST PRICES RECORDED IN MANY YEARS Advance Has Been Marked and Continuous for Weeks and Is Chargeable to Vast Shipments to Europe.

Bluefish Arriving in Abundant Quantity and Will Replace Shad Next Week—Vegetables and Strawberries in Good Supply.

Thrifty housewives are much chagrined over the continual advance of meat prices, which within the last week have taken another leap, bringing the figures up to the highest records in many years.

John T. Strickland, of the South Street Market, declared today that he had never known beef so high in price before in his 50 years experience.

A feature of the meat market this week is the appearance of spring lamb which is coming in plentifully and is, therefore, expected to relieve the stringency in that commodity.

Prices at three of the leading markets of the city are as follows: MEATS. BEEF. Leading Ridge South Terminal Avenue Market.

harbor floated a great ship, and on the deck a small boat was drawn up.

But, most wonderful of all, a number of white men like himself were moving about between the beach and his cabin.

Tarzan saw that in many ways they were like the men of his picture books.

The report of the weapon, the first that Tarzan had ever heard, filled him with wonderment.

The conduct of the white strangers it was that caused him the greatest perturbation.

When they had clambered aboard, Tarzan dropped to earth behind a great tree and crept to his cabin, keeping it always between himself and the ship.

Slipping in at the door he found that everything had been ransacked.

As he saw what had been done a great wave of anger surged through him.

Quickly he ran to the cupboard and searched in the far recess of the lower shelves.

NEBRASKAN'S CAPTAIN GOT TRAINING HERE Took Seaman's Course at Girard College, Where Rudiments of Navigation Were Taught.

The will of Stephen Girard was the first link in a chain of circumstances which made John S. Green, of this city, captain of the American ship Nebraska.

When the famous philanthropist's provision for Girard College was put into effect, it was found that navigation was one of the "various branches of a sound education" which his will declared should be taught.
