State to "Rest His Case" With Third Plea This Afternoon.

WASHINGTON, June 11 .- Serene in his elf-assumed position of leader of the self-assumed position of leader of the American peace party, former Secretary of State Bryan was working today on a plan to secure concerted action on a method to end all wars. His first step was taken last night when he issued a statement explaining his belief that the United States should lead the way to substitution of persuasion for force in settling international disputes. His second will be taken, probably late today, when he will issue an appeal to German-Americans to work along lines which in conciliatory and the desire of this Gov-ernment is to be absolutely fair in press-ing its demands for freedom of the seas and safety of its citizens. He will try to have his arbitration plan substituted for any drastic action President Wilson may con-sider necessary and will work from now until the German reply is received to con-Continued on Page Six.
