L'ATTACCO A TOLMINO. Gli italiani hanno eseguito un terribpe combardamento di giorno e di notte con loro grossi cannoni d'assedio contro i forti di Santa Lucia e di Santa Meria che difendono l'importante posizione nemica di Tolmino. Nel frattempo gli austriaci schierati lungo l'isonzo ricevono nuovi rinferzi dal fronte della Galista.

L'arciduca Eugento e' giunto da Laibach al fronte dell'Isonzo. Il Ministero della Guerra ha pubblicato in comunicate per smentire l'affermazione austro-tedesca che sulla cupola di San Marco e sol campanile di Venezia sono stati collocati cannoni contro gli aeropiani. Evidentemente gli austriaci si preparavano a bombardare la famosa cattedrale e volevano giuetificare questo atto di vandallemo.

Nel settore pin' settentrionale del fronte di battaglia gli italiani hanno cacciato gli austriaci dalle loro posizioni di Monte Croce ed nanno occupato il Passo Freiko-fel dopo tre giorni di battaglia. Gli pustiriaci opposero una disperata resistenza, sapendo bene quale importanza visio. triaci opposero una disperata resistenza, sapendo bene quale importanza vitule aveva la loro posizione, e si lanciar ono contro gli italiani in un disperato tentativo di riguadagnare quello che avevano perduto, ma senza riuscirvi. In questi tre giorni di combattimenti corpo a corpo l'artiglieria ebbe poco da fare, giacche' negli stretti defiles italiani ed aiatriaci non si davano quartiere, e gli ultimi, incuranti delle enormi perdite che subivano, resistevano riparandosi dietro le roccie.

Ad un certo punto critico giunse sulla inea di combattimento un reggimento di ruppe fresche austriache, che fu subito lanciato contro gli Italiani. Gli Alphu furono dapprima ricacciati indictro, ma subito dopo si riordinarono, presero una violenta controffensiva e ripresero il terreno perduto. Gli austriaci attaccareno di nuovo, ma andarono ad urtare contro una selva fortissima di baionette contro la quale la loro offensiva si infranse. Intanto sii italiani avevano avute un no di tanto gli italiani avevano avuto un po di tempo per scavare qualche trincea, e quando gli austriaci ricevettero smoora rinforzi i loro attacchi furono respinti,

Il successo ottenuto dagli italiani nella

A few selfish people might profit by a war, in the opinion of Mr. Lewis, but the country as a whole could gain in no way, nor does the sentiment of the majority indicate that there is any feeling for war.

I have sufficient confidence in the Presint's sound judgment to say that I do not believe that a war with Germany is within the range of possibility. While there are a great many selfish people who would profit by a war with Germany or with any other country.
