SANITORIUM INMATES PRAISE DR. S. G. DIXON

Patients in Cresson Home Urge His Selection as "Greatest Pennsylvanian."

More than 300 patients at the State Sanatorium for Tuberculosis, at Cresson. Pa., have signed and sent to the EVEN-ING LEDGER two petitions urging the selection of Samuel G. Dixon, State Commissioner of Health, as the greatest living Pennsylvanian. One of the petitions is signed by the adult patients and the other by children. The former reads as follows:

"We, the patients of Cresson Sana-torium, present to Governor Brumbaugh the name of Samuel G. Dixon, the Health Commissioner of Pennsylvania, as that of the most distinguished citizen of the Keystone State.

"His wonderful work in science and in clearing our State of disease entitles him o the gratitude of every resident of Pennsylvania.

"We who unfortunately suffer from a malady as terrible in its ravages through-out the modern world as was leprosy in the middle ages, feel that no other in this State is closer to our hearts than the gentleman who has devoted so much energy to bringing us back to health and protecting future generations from the white plague. Thanks to Dector Dixon, consumption is losing its grip on the people of Pennsylvania. That this is true can be seen from the fact that the death rate from this disease has decreased greatly in the last decade and that tuberculosis no more leads as death's agent in Pennsylvania."

Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

MANY persons confound Prohibition with Temperance.
As a matter of fact the temperate man is never a Prohibitionist; and the Prohibitionist is seldom temperate.

DROHIBITION stands not only for repression but oppression. It forbids-and by forbidding invades personal rights and usurps man's privileges.
