117 MARINAI PERITI CON L' AMALFI E 567 SALVATI DALLA MORTE

Lo Sperone di Podgora Dominante la Testa di Ponte di Gorizia E' in Possesso delle Forze del Generale Cadorna.

ogni un ufficiale addetto al Ministero Marina ha dichiarato che 117 anquando l'incrociatore italiano "Anula" fu silurato e colato a fondo da an accomarino austriaco nella mattina el I corrente nell'alto Adriatico. Il reste dell'equipaggio, cloe 567 uomini, turono salvati dalle navi che accorsero

squite in alute dell'increciatore, PODGORA OCCUPATA. Un plegramma da Chlasso dice che dopo una violenta battaglia durata per tuta intera una giornata le truppe essiane al sono impadronite delle posizioni di l'odgora, un sobborgo di Gorizia dal quale si domina il ponte che attraversa il

nume Isonzo appunto a Gorizia. Sui fianchi dei Monte Calvario gli austriaci avevano costruito una serie di solidissime trincee, completandone la difesa con fitti ed estesi reticolati. Infatti lo sperone di Podgora, che e' alto meno di 800 piedi, era stato trasformato in una vera e propria fortezza che difendeva Gorizla dall'ovest e proteggeva la testa di ponte sulla destra dell'isonzo. La fanteria itallana aveva ripetutamente attaccato queste posisioni, ma sensa alcun risultato utile, perche' le difesi erano troppo formidabili perche' potezzero facilmente cedere agli stucchi della fanteria. Ultimamente invece l'azione delle truppe di fanteria fu preceduta da una intensa azione delle sniglierie di grosso e medio calibro, silme che duro per tutto un pomeriggio e le secuita subito dall'attacco della fanura. L'azione dell'artiglieria fu ripresa la mattina seguente, ed a mezzogiorno la

fasteria era di nuovo lanciata all'attacco felle posizioni di Podgora, si impegno' allora una battaglia vioat appears anora una battaglia vio-lentenima, che duro' sino al calar del sola La resistenza degli austriaci, che fu remanete accanitissima, era pero' vinta. Il semico era messo in fuga verso la ne di Podgora, anche numerosi prigiri ed una quantita' di bottino.

LA BATTAGLIA SUL CARSO. Notifie giunte qui dal fronte dicono che entinua con in medesima intensita' la lattarlia del Carso e nel tempo medesimo continua la lenta avanzata degli italiani. questi devono superare enormi difficolta', farche' il terreno sul quale operano si presta meravignosamente alla difesa. Le itterie italiane devono essere in conmua incessante azione, e dopo aver messo nori combattimento una batteria ausrisca sono costrette spesso a battere neora la medesima posizione prima che fanteria possa procedere all'attacco e ciare il nemico dalle sue trinces. occupazione dello sperone di Pod-a segna un passo assai importante

operazioni contro la fortezza di ia. Dallo sperone di Podgora sino onte Fortin, che e' piu a sud, e' un seguito di formidabili trinceraenti austriaci, che in certi rispetti sono temibili, perche meno in vista, delle Eszloni permanenti.

Estene lenta, pero'. l'avanzata degli ilani continua, e le operazioni contro ferezza di Gorizia vanno sempre piu alan continua

POLA SALTERA' IN ARIA? El apprende che tutti gli stabilimenti svali di Pola sono stati minati e che austriaci che difendono quella base pronti a farli saltare in aria al attacco concertato della flotta e forze di terra italiane. Nel fratsmo il grosso delle forze navali gustria-ca e stato trasferito ad altri punti della osta dalmata, e specialmente a Cattaro. A Pola e stata insciata una fiottiglia di extona e stata inscitata una nottigia di extomarini ed altre siluranti, e cio' perche' si teme che gli italiani riusciranno al livestire la fortezza con truppe di tema e con le forze di mare. La guar-latone di Pola e' stata tranferita ora a labach e ad altri punti, lasciando cosi' casi inilifesa la costa adriatica.

RINFORZI PER L'AUSTRIA. I apprende che gli austriaci stanno Grand Consected on Finoral alia foro pre operanti sul fronte dell'Isongo, Franco questi rinforzi dal fronte della dita: Gli austriaci intendono eviden-mie di difendere meglio che possono linea Tolimino Goricia, Montaleone linea Tolmino-Gorizia-Monfalco rinora la maggior parte del rinforzi riali dall'Austria al fronte italiano stato stati presi pure dalle truppe che sevano combattuto contro la Russia e

A sa pure che gli austriati vanno am-mazando grandi quantita di artiglierie detre la linea dell'Isonzo, sull'altopiano del Carso, per opporsi alla ulteriore svaluta degli italiani nel caso che questi dovessero forzare il passaggio del flume e cetringere il nemico a protare piu' in-ditro la sua linea di difesa.

fulle Alpi della Carinzia e del Tirolo sono in corso violenti duelli di artiglieria Un dispaccio da Bologna, rove e' il untiere generale italiano, dice che due smpagnie di soldati siavoni si sono ar-tes agli Alpini italiani sul fronte della mia. Su questo fronte le truppe alpine llans avanzano continuamente nono-cità i tramendi ostacoli che devono grazza

BOSS OF POSTMASTERS Daniel C. Roper, First Assistant Postmaster General, is just start-ing from Washington on a trans-continental inspection trip clear across to Hawaii. Hundreds of postoffices will be inspected. Mr. Roper is 48 years old, comes from South Carolina, has been in the Government service 21 years and in his present post since March in his present post since March 14, 1913.

WATCH "LITTLE ITALY" FOR FIVE GEM ROBBERS

Police Here and in Nearby Cities Seek Trace of Persons Blamed for \$10,000 Theft.

Philadelphia's "Little Italy" and the Italian sections in all nearby cities are being closely watched by the police today in an effort to apprehend the five persons believed to have stolen \$10,000 in diamonds and sapphires yesterday afternoon from the jewelry store of E. J. Hertz, at 101 South 13th street.

The thieves, who employed the "juvenile crook" method in effecting the robbery, person di Gorizia e lasciava nelle mani | are believed to have come from New York dell' fialiani oltre alla importante posi- | and to have made their escape in an automobile. A fairly detailed description of them was obtained from Howard Lister, a 19-year-old boy, who makes deliveries for the firm and who entered the store before the Italians left.

One of the women wore a dark-blue one of the women wore a data-side skirt and pink silk shirtwaist. She carried a coat over her arm and is thought to have concealed the box containing the gems under this. She was about 35 years old and of medium height and build. The other woman, who was of heavier build, but about the same age, was dressed in a dark suit and light silk waist. She carried a jacket of a sacque suit over her arm. The boy, who was seven or eight years old, was clad in a white blouse and trousers of the "Oliver Twist" design, while the man is said to be about 45 years old, of medium build and clad in a dark suit. The fifth person thought to be implicated in the case was also an Italian, but of lighter complexion than the other man.

Small footprints discovered under the skirt and pink silk shirtwaist. She car-

Small footprints discovered under the table showcase and near the table from which the gems were taken have convinced the police that the boy obtained the gems by crawling beneath the case while shielded from view by his elders.

Although Captain of Detectives Cam eron assigned Detectives Kinsley and Mc-Cullough to the case as soon as the rob-bery was reported, he soon augmented this force by Detectives Le Strange and Uirich and later in the afternoon by more than a dozen others of his ablest men.

ACCUSED OF TRESPASSING AT DU PONT POWDER PLANT

Architect Says He Intruded Accidentally.

WILMINGTON, Del., July 9,-Rudolph A. Roesch, accused of trespassing on the grounds of the du Pont Powder Company's experiment plant, at Rising Sun, will have a hearing tonight. He was arrested last night.

W. C. Chaing, for whose arrest on the same charge a warrant was issued, left the city, it was said at his boarding

House.

Roesch, who lives at the Y. M. C. A., says he is an architect working on the new home of Josiah Marvel, near this city, for a firm of New York architects. His story is that he was walking with Chaing on Sunday and they accidentally got on the property of the powder company.

Experiments of the company are con-ducted at the place. No powder for sale is made there.

Resino Soap

gives natural beauty to skin and hair

There can be no comparison between a naturally heautiful complexion and one of the defects of which are covered up. Resinol Soap helps you to have the right kind of akin.

It is a delightfully pure soap, perfectly suited to everyday use in the toilet and bath. Yet to it are added gentle Resinol balsams. These stimulate the pores to healthy activity, allay irritations, and prevent or overcome the complex-ion defects which are so often caused by neglect, improper treat-ment, or the use of artificial aids to beauty.

COMMERCE BODY INVITES MOTHERS MUST END WARS, G. O. P. MEETING HERE

of directors of the Chamber of Commerce have been urging the movement for the convention, but the great obstacle was the lack of a convention hall and the failure of Councils to set in the matter.

of Councils to act in the matter.

Charles Z. Tryon, chairman of the Committee on Conventions of the board, took the question of the convention before Senator Penrose several weeks ago and t was then understood that the Senator would favor the movement. Immediately after this the Chamber of Commerce began an active campaign to urge Councils to provide the convention hall. A delegation appeared before Councils and numerous written appeals were sent to the Councilmen, but no action was taken.

"Although Councils have failed to act."

'Although Councils have failed to act.' the statement announced, 'the Chamber of Commerce has decided not to abandon its plan for getting this meeting, which will mean so much for Philadelphia.

will mean so much for Philadelphia.

"Nothing can be done toward setting the convention hall under way this summer, but the Executive Committee of the Chamber of Commerce has been advised by competent engineers that if work were started on a permanent building early next fall it would be far enough advanced by the spring to make it possible to put the structure at the disposal of the convention.

"The Chamber of Commerce is mapping out a campaign of education to be conducted during the summer, in order that public opinion may be so crystallized as to leave no doubt in the minds of Councilmen that the people of Philadelphia expect them to act on this matter at that first meeting in Sentember. helr first meeting in September.

SAYS WIFE OF ENGLISH M. P.

Mrs. Ethel Snowden Describes Horrors of Carnage.

BAN FRANCISCO, July 9 .- "A noted British military leader told me that it was not the sight of the dead, the terrible carnage, or the dreadful desolation of the war zone that sickened him and caused him to lie awake nights, but it was the cries of the wounded men for

their mothers." This is what Mrs. Ethel Snowden, wife of Philip Snowden, noted labor leader and member of the British Par-liament, told peace advocates in session

liament, told peace advocates in session here today.

"It is this," Mrs. Snowden declared, "that is going to end the present war and all future wars. It is the mothers of the world, who, when they are allowed to vote, will not allow their wars, husbands and fathers to be slaughteredfor what?—to settle difficulties between nations that could be astifed by men of sufficient calling without killing."

nations that could be settled by men of sufficient calibre without killing."

"We cannot stop the present war," declared Countess Alexandre Dumas, of Paris, who is attending the conference."

"but we can make it the last."

The Countess, whose husband is again in the trenches with the French army often having been exclusive wayneds in the partner been exclusive wayneds in after having been seriously wounded in

action, is a member of the famous Dumas family of literary fame. "I cannot speak on peace at this time." she told the peace advocates, "but to one whose husband and relatives and dearest friends are being wounded or killed in this thing called war, work for peace is the inevitable consequence."

P. R. R. STRONGLY PROTESTS AGAINST LOWER MILK RATES

Agent Tells Examiner of Interstate Commission Proposed Change Would Involve Annual Loss of \$300,000 to the System.

The Pennsylvania Railroad system would lose approximately \$300,000 a year if the freight rates on milk and cream proposed by the Philadelphia Milk Exchange were put into effect. The large Philadelphia milk dealers could save at least 50 per cent. of the expense of shipping milk if they would take advantage of the refrigeration facilities offered by the Pennsylvania and other allied companies under the present rates.

The foregoing opinions, expressed by L. Elkin Nathans, chief milk agent of the Pennsylvania Raliroad today, were features of the hearing in the Federal Building before C. V. Burnside, examiner for the Interstate Commerce Commission in the case of the Philadelphia Milk Expression of the Philadelphia Milk Expression of the Philadelphia Milk Expression of the case of the philadelphia Milk Expression of the philadelphia Milk E the case of the Philadelphia Milk Ex-change against the Pennsylvania and allied railroad companies, charging un-fairness in freight rates on milk and

points outside the State.

Mr. Nathans testified that under the raites proposed by the Milk Exchange the railroad would los \$539.53 on an average June day. He produced figures to show that the average June day revenue from milk shipments to the railroad amounted to \$5006.11, and that the amount would be lowered to \$1466.58 if the suggested rates went into effect. Mr. Nathans explained that the daily loss of \$538.53 would be for shipments into this city alone and that the railroad would have to lower the rates accordingly to points in the State should the proposed new schedule go into effect, entailing in all, a yearly loss of more than \$300,000 to the company.

Mr. Nathans explained that the saving of 50 per cent, was quite feasible, as the railroad companies ice car lots or less than car lots, and that many milk dealers ice their milk and cream before ship-ment, which, he said, was entirely un-necessary, owing to the refrigeration facilities offered by the railroads. "Shippers are by no means forced to ice their milk and cream," Mr. Nathans said.

Considerable interest was aroused when Mr. Nathans charged the dealers with using unfair methods in years past. In explaining the increase in milk rates made by the railroads in recent years, Mr. Nathans said the first advance was made I 1907, when the railroads found that the dealers were shipping 46-quart cans under the 40-quart rate. He testified that at that time dealers were also shipping 23-quart cans under the 20-quart When these facts became known to the railroads, Mr. Nathan said, rates were on an equivalent basis to meet the 46-quart can shipments.

"The rate increase in 1911," Mr. Nathans

cream shipped to Philadelphia from points outside the State.

Mr. Nathans testified that under the rates proposed by the Milk Exchange the rallroad would los \$539.53 on an average June day. He produced figures to show that the average June day revenue from milk shipments to the rallroad amounted to \$206.11, and that the amount would be lowered to \$1466.58 if the suggested rates went into effect. Mr.

state Commerce Commission in regard to the ease of the milk dealers of that offy."

Mr. Nathans explained that the \$ percent increase granted to the railroads several months ago by the Interstate Commerce Commission did not affect the first two milk sones which reach within 55 miles of Philadelphia. "That means," Air. Nathan said, "that milk anywhere within 65 miles, is shipped to this city under the rates established in 1912."

The action of the Milk Erchanss.

The action of the Milk Exchange, which is otherwise known as the "Milk Trust" in this city, in making complaint

which is otherwise known as the "Milk Trust" in this city, in making complaint both to the State and Interstate Commissions is taken to indicate that they intend to advance the price of milk in the near future. Testimony by the milk dealers yesterday was introduced to show that the dealers believe their profits on milk at the present time to be less than 1-5 of a cent a quart. One witness, Thomas B. Harbison, stated that his profits were only .0014 a quart.

The members of the MBE Exchange are alleging that the regulations of the Eureau of Health are responsible for much of their expense in shipping milk to this city from outside points. They state that their profits are further cut by the recent ruling requiring pasteurization. The exchange was mainly responsible for this ruling of the Health Board and smaller dealers at the time asserted that the exchange favored the measure because it would force the smaller dealers to the wall. smaller dealers to the wall.

"Who Was Marie Dupont?"

All in this Issue Get it Today

Do you know what a "sob sister" is?

You couldn't blame her for writing the way she did. If the factory was a rotten fire-trap, why shouldn't she say so? How could she know who owned the factory? Why shouldn't her story get into print?

That's what "Sobs" was on the Evening

Gazette; her job was to "weep" in print.

But of course she got "fired."

Here's a behind-the-scenes newspaper story with so much real stuff in it you'll think it was taken from life. It certainly reads like it. By Dana Burnet in this issue.

Unscrambling

"So you see," said Hallmeyer to his broker, "I want to tear down the whole pile before I die. I want to unscramble the eggs, Joseph. It haunts me at night. I want to take that first guilty dollar and give it to the poor; for I can never find that man from whom I stole it. I want to die honest, Joseph "

A new story by Ellis Parker Butler in more serious vain—but he can't keep the smile and the wink out of the end. Read it in
