

CAMBRIA STEEL COMPANY RESUMED CASH DIVIDENDS NEW HIGH RECORD FOR BALDWIN PRESSURE IN RAILS CAUSED SETBACK

New York, July 22.—It was another day in which the war specialties held the market as far as activity and advances are concerned, although some of these were expected to drop off a little under profit-taking, while the standard issues, especially the railroads, were quiet. The latter group was Canadian Pacific, which there was further liquidation, with a decline of 3 points before the market was met and 1 point was regained before noon. At the low point of the day, Canadian Pacific was at the low point of the year since 1908. A good deal of business was attributed to Canadians, who were expected to subscribe to the new \$40,000,000 bond.

All trading was by no means active and could be called active in the early part of the day, and dealings in the railroads following the announcement of the dispatch of the note to Germany, which was a professional. As has been the case on previous occasions, customers in commission houses showed a disposition to be active following the announcement of the dispatch of the note to Germany, which was a professional. As has been the case on previous occasions, customers in commission houses showed a disposition to be active following the announcement of the dispatch of the note to Germany, which was a professional.

There was a rebound of 12 1/2 points in the afternoon session, with pressure against the railroads, especially St. Paul and Northern Pacific. By 2 o'clock the market was at least two points and the market was still down two points. No activity was shown in the sugar stocks, although American advanced to 120, up 1/2 point, and the rise in the sugar was said to be due to prosperity in the trade. The Government, principally the railroads, have been taking large amounts of time to time, and the outlook is not so bright as it was at some time in the past. There was a rebound of 12 1/2 points in the afternoon session, with pressure against the railroads, especially St. Paul and Northern Pacific.

WHEAT CLOSED STEADY AFTER EARLY RISE Bidding Was Active — Export Sales Today Totaled 850,000 Bushels; Corn and Oats Firm

CHICAGO, July 22.—General improvement took place all around today when the grain market opened. Prices received were on a par with the opening yesterday, but active bidding sent the market upward on the early sales. Good prices ended off the close with a rise nearly on a parity with last night's figures.

Weather reports continue to favor the grain, and unless muggy weather sets in over the harvesting field, which they have been, the crop of spring wheat will be the largest ever harvested, according to trade reports.

Corn and oats held firm on the opening, but showed an inclination to follow wheat. The Liverpool market improved, with cargoes firm; spot strong and unchanged against better American arrivals.
