"It was when Captain Boy-Ed, acting as the mouthplece of Count von Bernstorff, tried to hire some American citizens to se-eure Huerta's safe conduct into Mexico and to undertake the work of transporting German reservists and arms acros the border that the exposure came.

"The moment this offer was made, the Providence Journal was notified of it, and, acting under the advice of this news-paper, the men to whom the infamous proposal came went to Washington and laid the entire matter before President Wilson.

'As a result of this information Huerta and many of his fellow plotters in New Tork were shadowed day and night by secret service officials. When Huerta left New York with the avowed intention of going to the San Francisco exposition, the Density of the San Francisco exposition, the Department of Justice was warned that this alleged objective was a blind. Had Hustra proceeded to California he would not have been molested at that time. The moment he turned south and headed for El Pano it was decided to arrest him on is arrival in that city.
