JITNEY INJUNCTION VACATED WHEN MEN FAIL TO FILE BOND

Judge Sulzberger Scores Jitneurs in Decision. Zone Clause Will Not Be Enforced - Weaver Charges "Ulterior Influences."

Judge Sulzberger, today, vacated the itney injunction in all but the zone clause, and the jitney men are now waitng for Director Porter to enforce the ordinance they say will drive them out of business. The Director will not return to this city until Monday, and until that time nothing will be done.

that time nothing will be done.

The startling suggestion that "some ulerior forces" have been at work to prevent the litneymen from securing the \$2500 bond required by Judge Sulaberger s security for the injunction, was mad in court today by former Mayor John Weaver, attorney for the jitneymen. Judge Sulzberger took occasion, at the hearing, to say a few things that were

not exactly complimentary about the responsibility of the litnaymen. Reducing the bond asked to its per capita cost, he pointed out that the men in 23 days hadn't been able to raise \$1.50 each, even with the assistance of their friends. the Court granted it."
Judge Sulzberger then announced that
he would grant the appeal of City So-licitor Hyan. The latter did not ask the ourt to vacate the injunction in its en-

Dispatches received here today said the Italian attacks have been renewed with a flerceness that makes the fall of the Austrian fortress in the near future a practical certainty.

The slopes of Podgora, dominating Gorizia from the west, have literally bathed in blood since the Bersaglier began their savage attacks three days ago.
