# RETAILER LOSES EVEN WHEN FOOD IS IN OVERSUPPLY

R

**BR8** 

Breaks in Market So Disorganizing That His Profits Are Swept Away.

Expected by His Customers to Keep His Selling Prices at a Standard Figure, Even if He Has to Sell His Goods at a Loss.

#### WHY RETAILER DOES NOT GAIN FROM MARKET GLUT

ers expect prices always to to mms, whether the goods cost the where of produce, labor, rent, sta-berry and other charges cut down offic. Omility of goods varies greatly in the

and at a normal price and the inferior Deeds must be replaced when custom

Whalesalers tenters' speculations put prices at mitteary figures when dealers get "cor-

ments contain poor goods which ideald sever have left the farm,

The housewife said she couldn't get estables and fruits more cheaply even times of a glut in the market, such a the city experienced so atrikingly the ber day. She was inclined to think ther day. She was inclined to think is retailers should have lowered prices in retailer was asked today why he The retailer was many the cost of addit lower prices, when the cost of reduce went down.

He said that such breaks in the marhe were so disorganizing that in the event away. And what was more, he and that these fluctuations, in what he is to pay for produce, which the public hers of only once in a while, were, in this of only once in a while, were, in arra of only once in a while, were, in its exaggerated way, his daily ex-prience, and that he was, expected by a customers to keep his selling price at a standard figure even if he had to sell

That is the great big problem of the "That is the great big problem of the real man," he said. "We have to sell things as cheaply as possible whether who are getting them cheap or dear. If you came in here yesterday and got a quarter-peck of string beaus for 5 cents, out come today and I ask you 8 cents, will come today and I ask you 8 cents, will some today and I ask you 8 cents, will going to kick, and I've got to let you have it for 5 cents. In the long run." A TYPICAL DEALER

h was a typical dealer who spoke, John who has a market on 10th street Rich and poor live near per Locust. mere, all kinds of people, and therefore the prices are pretty well standardized. Aleo, it is central and an old stand with experienced management.

You speak of this glut. Well, I thought I'd get some of this cheap stuff, now going to waste. Call it charity. I took 75 baaksta of tomatces, paying only for the packing and hauling; and for each basket we must put down 5 cents, remember. I figured on some of it going for, say, 10 cents a basket. What hap-

pened was that we were soon marking it Take all you please for 5 cents.' And when that didn't get it out of the way we away. So you see where we get off in the glut. People want the best stuff, and they

and want anything else. Very well, Take a basket of tomatoes. Are all the basizes the same quality? Not a bit of they range all the way from tomatoes

back, and then they offer only 4 cents apiece, and the broken baskets they won't pay for at all. When that happens five limes, I've paid for the wholesaier's bas-ket and have nothing to show for it. And not only that, but I have also let him have that capital, bringing me ne return, while I am collecting empty baskets. Bo you see how the 2 or 1%-cent profit per sale has been shaved down by labor and basket loss.

sale has been shaved down by labor and basket loss. "But no, we retailers are blamed for everything. Yet we take all the risks. Not only risks, but take the actual loss in having to replace goods that are re-ported to us as being bad. Say I pay \$4.69 for oranges and sell that lot at \$1.75. Three and a third per cent, profit? Not a Three and a third per cent. profit? Not a bit of it. There will be oranges that we will get called up on the phone about, and we replace them, though the fault

SOMETHING RADICALLY WRONG. "There is something radically wrong with the system of wholesale distribu-tion. I should think there might be good farmers' associations formed. The goods should be brought direct from the farmer to our pavement. And there should be to our pavement. And there should be some way of fixing the prices, for the sake of the farmer, for the sake of the retailer and for the sake of the customer.

The customer wants the prices to be al-ways the same. Well, then let the farmer and the retailer have their costs always the same, as much as that can be done. They seem to have done something of this sort in eggs. Why not in everything? "I'm not blaming the farmers, but they

are shortsighted in not trying to stand ardize their kind of goods in their shipments. Take a thing like corn. Often I split even on a basket, with rc profit Say I paid % cents the basket. "There will be 42 cars to the basket. Of

There will be 32 ears to the basket. Of these about 24 may be good ones. The rest have to be got rid of at the rate of \$1 for the hundred. Suppose I got 30 or 35 cents a dozen for the good ears. You see, there would be no profit on the basket. Of course, corn is cheaper than that now-20 to 25 cents.

"Remember, that retailers have to face corners in the market, too. Suppose there are only four cars of peaches, and one man owns them all. You can see how we have to pay hig prices for them; but we are expected to sell them just as cheaply as when peaches are in greater supply. There is speculation among the wholesalers, from place to place. A man has a lot of peaches. "Give you \$1 fo them,' says his neighbor; and he gets them all. Then he sells them for \$1.25, and, perhaps, they change hands again, at \$1.50 and \$1.75 before they come to us. Who makes the profit?"

Professor Laird Chosen Adviser

Professor Warren P. Laird, of this city, head of the architectural department of the Towne Scientific School, of the Uni-versity of Pennsylvania was selected ad. A contract for test borings was awarded versity of Pennsylvania, was selected adviser today of the Pennsylvania Meade Monument Commission at Harrisburg. The commission was created by the Legislature to have charge of the crection of a monument to the hero of Gettys-burg at Washington, D. C. A sculptor will be chosen early in the fall. In the meantime Professor Laird will attempt to procure a site

**118 BABIES DIE IN** WEEK FROM HEAT

Total Number of Deaths During Same Period Is 508, Report Shows.

Of 508 deaths recorded in this city durng the week ending today, 118 were bables less than I year of age and 23 were babies between 1 and 2 years old. The high percentage of infant mortality is attributed by health authorities to excessive heat of last week.

Although only seven adult and four infant deaths are attributed directly to the heat in the weekly report of the Bureau of Health, the indirect influence is seen in the large number of babies dying from nummer complaint.

The total deaths this week exceeded those of last week by 64, and those of the corresponding week of August, 1914, by 5. The causes of death according to the health report were as follows: 

names 2 lits 2 Appendicitis and ty-botheris and 2 literila, intestinal control 2 literila, i

atory system Diseases of the stomach 

#### BRIDGE CONTRACTS AWARDED

Two City Structures Will Be Built From Steel and Concrete.

Director Cooke, of the Department of Public Works, awarded contracts today for the building of two steel and con-crete bridges. They will be awarded to the best performer on the bagpipe, to the woman scoring the greatest number of points in the broadsword dance and high-land fling to the site who site the points in the broadsword dance and high-land fling, to the girl who attains the same record, to the man who wears the best full highland costume and to the boy who gives the best exhibition of dancing.

Kensingtonians to Organize

Political circles heard an echo from the Kensington Board of Trade's testimonial dinner to Congressman J. Hampton Moore today, when it was announced that the business men of the Kensington dis-trict will father a movement to give the Republican nomination for Mayor to Mr. Moore, as "the business men's candi-date." A. C. Keeley, president of the Kensing-ton Board of Trade, who was toastmaster at the dinner, said that plans are being perfected for a chain of business men's candidacy of Mr. Moore. The movement, he said, was not a Board of Trade affair, business men of Kensington and fol-lowed a conference with several promison, William Morgan, William Morton and

FIFTEEN BRAVE WAR ZONE

WOMEN AS DIRECTORS OF SCHOOL PROPOSED BY CIVIC CLUB HEAD

Mrs. E. W. Biddle Wants Them on Education Board, but Says Sex Should Not Enter Superintendency Problem.

An entirely new Issue regarding the ro the trachastaire aumon a lo laso schools was raised today by Mrs. Edward W. Biddle, president of the Civic Ciun Disposing of the question of the supe intendency, which she characterismi as one not of sex, but of ability, she preposed women members of the Board of Education, the body which will elect the superintendent in September. It is her firm conviction, she said, that wenter

firm conviction, she said, that wemen are necessary on educational boards. Judge Charles X. Audenried, secretary of the Board of Judges, which in Cretoles will fill six vacancies on the Board of Education caused by expiration of terms and the death of William T. Tilden, said today that the Board of Judges has no objection to women on the Board of Edu-cation, as precedent, he said, has estab-lished that fact.

lished that fact. The board, he said, is open to informal nominations for members on the educa-tional board. Thus statement is taken by romen as an invitation to press ause.

BOTH SEXES LEEDED.

BOTH SEXES I. EEDED. "I have had a fong-time conviction," said Mrs. Biddle, "which strengthene at the years pass, that for the good of the schools every Beard of Education should be composed of both men and women. There can be no question that in avery school district there may be found wom-en as well fitted for such service as use the men of the same district. Co-opera-tion in, the administration of school st-fairs is as natural and as necessary as it is in the home."

It is in the home." "I am not in sympathy with any effort to sectire office for a woman because sha is a woman, nor for a man because he is a man," she continued, discussing the constitue of a is a man," she continued, discussing the question of a successor to the late Dr. William C. Jacobs, superintendient at schools. "Consequently, I feel keenly that the election of so important an af-ficial as superintendent of schools should not be influenced by sex. As I interpre-the feminist movement, it expresses the earnest wish of women to be judged fairly. A spirit of loyalty to the schools and of fairness toward the candidates is what I trust will actuate the members of the Board of Education in their de-centuate is that no woman should be discriminated against because she is a discriminated againsts because she is a woman."

#### JUDGE IS RECEPTIVE.

The board of judges, said Judge Auden

The board of judges, said Judge Auden-ried, obviously cannot discuss publicity whom it will appoint to be members of the Board of Education. "We shall be slad to hear from fis-friends of candidates." he said. "It is our duty to select the most competent persons and also to endeavor to please the people. There is no objection to a woman, for there have beep women on the board. Since Mrs. Owen Wister was a member, the membership of the board was made smaller and, as it was desir-able to have as members persons well able to have as members persons well known to the entire population, it as happened that no woman has been elected since that time. Woman's normal place is in the home and no woman has stored

Asked if he considered Dr. Anna How-ard Shaw a suffragist leader, a repre-sentative type of woman, Judge Auder-ried said tha the had never heard of her. ried said tha the had never heats and of "I do not recall ever having beard of Doctor Shaw before," the declared. "I am kept too busy." Miss Katherine Puncheon, head of the Unit School for Girls: Dr. Lucy L. W.

Miss Kätherine Funcheon, hend of the High School for Girls: Dr. Lucy L. W. Wilson, head of the biological departs ment of the Girls' Normal School, and Miss Margaret T. Maguire, principal of the George Washington Public School, will certainly not be considered as pos-sible appointees by the board.
"We would not appoint any persons in the employ of the Bossel of Education," he explained. "That would be a case of the tail wagsing the dos. They wouldn't be considered unless they resigned.
"The election will be held the first Friday, in October. At that time ine board will have several persons in mind, no doubt. We haven't heard the will of the people as yet."

they passed on the street wore one.

These gumshoe men wondered about the silk shirts, and they began to make planned to assist in the robbery of the George B. Evans' drug store, at 1106 Chestnut street, from which 40 silver vanity cases, valued at \$35, were stolen the slik shifts, and they began to mark some guarded inquiries. In every under-world district there are always men who are willing to tell. These are the "stool pigeons," despised of their fellows and the police allike. But they are some-times useful to the latter. on the night of July 21, but that he did not share in this adventure because of a mistake in the arrangements. Walton

times useful to the latter. There wore so many men wearing silk shirts that it was not very difficult for the detectives to find out from some of them where they came from. From one of the "squealers" they learned that it was known throughout the Tendericin that any one who wanted to buy cheap fine silk shirts, with an assortment of some of the very loudest colors, could get them at 918 Winter street. The detectives hore in mind that there

robbery charge, and an additional \$800 for the Evans' burglary. The police say Walton also was led astray by bad com-panions, and turned to a life of crime in order to support his widowed mother. The detectives bore in mind that there had been a robbery at the store of Wal-ter G. Becker, 1018 Chestnut atreet, and that 500 allk shirts had been stolen. So that 506 slik shirts had been house. As a result of the raid they arrested three men, George Wilson, 27 years old; Harry Walton, 22 years old, and Harry Davis, who lives at \$31 Vine street.

This story was told today by Detective Doyle, who was accompanied on the round-up by Detectives Benz and Le Strange

Today Wilson told Doyle his story. He said that for three years he has been employed in a paper-box factory at 8th and Willow streets. There he was a trusted employe and a steady worker.

trusted employe and a steady worker. His downfall, he said, began a month ago. He told Detective Doyle that he had a wife and family living up-town who believe in his honesty. He is said to live near 21st and Master streets. Wilson says he wanted to be near his place of employment, so he took a room at 91s Winter street. Frequently he vis-ited his family. He says he did not know much about the Winter street neighbor-hood, but soon he became acquainted with some of the other roomers in the house. some of the other roomers in the house. Two of them were burglars, he declares.

Two of them were burglars, he declares. "You're a fool to work so hard," he says they told him. "Look at us. We take it easy, don't work, have a good time and always have enough money to see us through. We go out every now and then and pull a good job. Then we're fixed for awhile. It's soft. You come with us sometime and see for yourself." Wilson had a vision of "easy money," and he thought he would be enabled to provide better for his family. After a while he consented. They told him he could be the outside man. When they a while he constitute that they been accould be the outside man. When they decided to rob the Becker store they told him to watch the entrance, and they passed out packages to him through the transon. It was a risky job, for there was a great clinnes of discovery by the police and by night workers, who are in the habit of passing the building at that time, between 2 and 3 c'clock.

EUGENE H. FOSS, three times Governor of Massa-chusetts, declared that Boston, the "Athens of America," was responsible for the corruption of "theoretically" dry Maine. Governor Foss alleged that this was accomplished by smuggling oceans of intoxicants into the Pine Tree State, which singularly had been under Prohibition law for nearly three-score-and-ten years. And Governor Foss added to this declaration the

statement that his experience in Maine and Massachusetts had convinced him that Local Option is an absurd enactment.

IN VIEW of the FACT that the Anti-Saloon League contends that Prohibition laws can be enforced, the denial of Governor Foss in reference to Maine fell like a wet blanket over the League's convention. The Governor's further declaration that his experience with Local Option in two States had shown such law to be absurd-likewise cooled the ardor of Pennsylvanians in particular who co-operated with this League the past

year in trying to foist a Local Option law upon the Keystone State.

W HEN a man like Governor Foss, invited to address a Prohibition assembly, declares that Local Option (which is merely Local Prohibition) is an "absurd enactment," and quotes FACTS to support that contention-then the FALLACY of Prohibition is even more apparent. For Governor Foss speaks with authority born of experience,
