WASHINGTON, Aug. 12. President Wilson returned from his unfinished vacation today and faced an almost hopeless Mexican tangle.

Carranza, made bitter and belligerent by reports that the Pan-American conference would result in a peace or intervention ultimatum, had thrown down the gamilet to all the nations represented in the conference. He had warned all against "meddling in Mexican affairs."

The President, however, lost little time in approving the Pan-American conference plan of a last appeal for order in sace plan of a last appeal for order in

The War and Navy Secretaries were for a shew of land and water force sufficient to swe all Mexico into acceptance of any proposal Pan-America or the United states alone might offer, no matter how unsatisfactory it might be. Lansing, on the other hand, was firmly set against any such action. In the Navy Department Secretary Daniels was ready to greet the entire Atlantic fleet to southern waters. hTe present order is for them to go there August 28 for their annual drill. COUNCILMEN PLAN RETURN JUNKET ON LIBERTY BELL SPECIAL

See Visions of a Transcontinental Tour at Expense of City

Prospects of a return junket with the Liberty Bell next December are beginning slready to agitate city Councilmen. Visions of a transcontinental tour in the hexurence of a \$21,000 special train of Polimans, with the uncidental importance reflected on the Councilmen accompanying the bell, have exerted a disturbing effect on the political workers in Counells aspiring for the free ride.

It is conceded as a political and mathe-sistical fact that if 24 Councilmen were required to guard the bell on its West-en trip, surely an equal number will be required to bring it back—all at the city's appear.

He approved the Pan-American con-ferees' note, appealing to the factional leaders to "get together." General Carranza's note defring out-siders to "meddle" in Mexico was grave-ly considered.

Carratza made it worse by giving out a letter by General Jara, denouncing the Pan-American conferees, the White House and "specuators in Mexico misfortunes"—an insulting communication.

depended on developments.

The Vera Cruz situation improved somewhat, with Carranza promising protection to foreigners.

Conditions of frontier warfare pre-valled on the Texas-Mexico border, with threats of massacre of Americans and a restoration of southwestern territory to Mexico, and a heavy army movement in that direction was expected.

RAIDERS' PLAN **NEW REPUBLIC ALONG BORDER**

CITIZENS FIGHT INVADERS

Scheme Contemplates Killing All American Males Over 16 Years of Age

BROWNSVILLE, Tex., Aug. 12. Terror reigns along the border. Raids are increasing in number and

bloody results. General Function has ordered the 9th Dattalian from Larels here to attend the at any minute to cope with a situation

that is growing more serious hourly. This situation is due, according to wild reports here, to the activities of an 'Army of Liberation for Mexicans in Texas," composed of Mexicans from across the border, former soldiers in the Carranza and Villa armies, dissatisfied

Texas Mexicans and hundreds of adventurers of all nationalities. According to the reports, the "army" is committed to the audacious scheme of forming a new and independent republic from territory preempted from Mexico and torn from Texas. Already the army has set in operation its scheme to drive out all Americans and set up a government by Mexicans, Negroes, Chinese, Japanese and others.

anese and others.

The organization is committed to the "Plan of San Diego." which contemplates dealing death to all American males more than 16 years of age that refuse to quit the country selected for the new republic.

As a result of the wider territory through which this "army" is working, Governor Ferguson has asked President

Wilson for more border troops. LIKE FRONTIER DAYS.

Citizens of border counties are all armed. The country has all the spirit and appearance of the old frontier days. Rifies are ready in virtually every home; the men go abroad with swung-in holsters at the hip or strapped—Texas fashion—just under the left arm, for the best action. Cavairy and infantry are patrolling the border and extra police are on guard here. are on guard here.

Private Windhouse is the latest victim of the "army." He was slain Tuesday night in southern Hidalgo County Re-ports of skirmishes in remote sections come in almost hourly over telephone lines, though early today and last night there was comparative quiet.

Throughout the section there is an in-sistent demand for more United States troops. Congressman Garner announced troops. Congressman Garner amounced today he would add his appeal to the Governor's in seeking Wilson's aid.

Soldiers are keeping the closest watch on the situation about 19 miles below here, where, it is reported, several hundred bandits are massed ready to sweep into Texas.

MAY STORM BROWNVILLE. MAY STORM BROWNVILLE.

Matamoras is a danger spot. Warnings to officials have declared Mexicans will make a concerted attack on Brownsville, if there is any occupation of Vera Cruz. While the latter eventuality does not now appear imminent, there is a growing feeling among all the border Mexicans that Carranza is not getting "a fair deal" from the United States. Reports from Laredo declare that this spirit is rampant and the possibility of an attack there is strongly reported. trongly reported. Brownsville politicians were vehement

60 MILES EAST OF WARSAW

Bridgeheads Leading to Narew Captured in North Poland Sector

BERLIN, Aug. 12. The Bavarian army of Prince Leopold, which captured Warsaw, has occupied the highly important railway junction city of Lukow.

Announcement of the occupation of Lukow was made today by the War Office in this afternoon's statement.

Lukow is 60 miles east of Warsaw on the Krana River. Four railway lines pass through the city. The strategical railway running from Warsaw to the great fortress of Brest Litovsk runs through the city, also railway lines from Siedlee, Ivangered and Kiev. It is about 40 miles west of Brest, the Czar's great base on the second line of defense.

The Austro-German army of General von Gallwitz, which has been operating on the Narew River front, has stormed Zambrowo and occupied the city.

President Wilson passed through the West Philadelphia and the North Phila-delphia stations of the Pennsylvania Rail road this morning, from Cornish, N. H., to Washington, where he will take personal charge of the Mexican crisis. The sonal charge of the action of the strictest secrecy was observed regarding the train upon which the President was traveling, and no information could be gained from the Pennsylvania officials as to what time he might be expected to pass through Philadelphia.

The railroad men intimated that they had been officially requested to keep secret all facts regarding the President's movements, even to the approximate time of the train to which his special car was attached. They were unable to give any explanation for this official request.
