Announcement

VARIOUS newspapers throughout the United States have reported that The Autocar Company's large increase in business since the beginning of the war is the result of war orders.

This is not true.

The Autocar Company's business has very materially increased since last August, and its manufacturing facilities have been extended to meet the increase; but every car manufactured by The Autocar Company during that period has been sold to the firms named below for use in their business.

Star (*) Indicates Repeat Orders

Purchasers Since August, 1914
