The British press is virtually unani-mous in its demands that cotton be de-clared contraband, but it is also anxious that the step be taken in such a manner that American sympathics for the Allies shall not be lessened. In this connection the Chronicle says today: We attach a high value to unoffielal America's unmistikable sympathy for us in this war: that symmathy has been a

The Times says that the declaring of entity contraband is inevitable and at the same time assails the Government for not having taken such action before, asserting that it is hard to explain why the Cabinet permitted cotton to pass freely into Germany during the first 7% months of the war. resumed the offensive. An official report from Sir Ian Hamilton, the British commander on Gallipoli peninsula, received here today, announces the capture of Turkish trenches, near Suvia Bay, and an advance of 500 yards.

The Evening Standard expresses the opinion that the inclusion of cotton among contraband articles will clarify International law

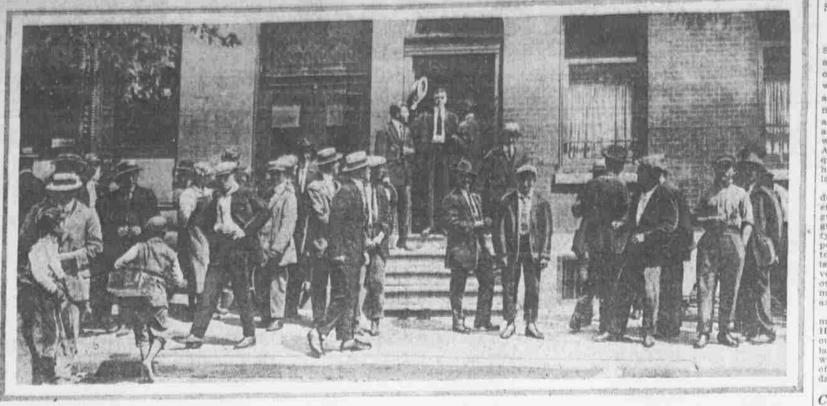

"It is just because we have taken year to make up our mind," says the Standard. "American claims for inter-ruption of her export trade are eminently reasonable and no doubt will be met. PRESIDENT READY TO ACT IN COTTON BAN SITUATION

WASHINGTON, Aug. 18.

WASHINGTON, Aug. 18. The Administration hopes to solve the cotion altuation so that it will not prove a rock on which its legislative program will go to pieces when Congress meets. It was learned today that the real reason for the President's return from Carnish last weak was the pressure that was being brought by Southern finan-cial interests for action to safeguard the cotion growers and manufacturers before cial interests for action to safeguard the cition growers and manufacturers before this year's crop was available for mar-keting. And the President, realizing that unless so withing was done that would afford real relief much of the support he was depending on from his own party members would be withheld, has been trying to arrange a comprehensive pro-gram ever since he got back. Today, on the eve of an order by the Allies transfering colton to the contra-band list, a tentative program has been completed with the Administration be-lay and the sapirit of lawlessness nor index will prove effective. Letter Mailed Just Before Lynching

Full of Hopefulness NEW YORK, Aug. 18.—The last written message of Leo M. Frank before he met his death at the hands of a Georgia mob was received today by Frank's aged father, in Brooklyn. The letter, which was written only a few hours before Frank was dragged from the Milledgeville prison camp and lynched, breathed cheerfulness throughout.

TO REGISTER FOR ARMY TORREON FALLS: ITALIAN RESERVISTS RUSH

Swarm to Local Consulate to Avoid Being Called Deserters

The peaceful atmosphere of 7th and Spruce streets was permealed today with a martial note of preparedness. Hundreds of Italians got the impression that this was the last day to register as reservists at the Italian conulate. The penalty of not registering is to be classified forever not registering is to be classified forever as a deserter. It is " to be or not to be" an Italian for immigrants now, and those who want to think of themselves as Americans must mike up their minds quickly and put out of their heads all hopes of ever going back to the sunny land of Dants and the Caesars. There was some hint dropped by the deficent officials at the consultate to the effect that the real "last duy" was Au-gust II. It seemed that the sugerness to give immigrants every chance of quali-fying in good tims without risking the perils of deserting inclined the officials to urge all Italians in this duririct to reg-

The son called to his father to save himself by swimming or floating when he saw him making no effort to keep above the water. As this had no effect he caught the older man, who seemed to be in a dased condition, floiding him until he became exhausted. When he released the body it sank immediately and did not fise again to the surface, from which it is believed that Mr. Moore's heart gave out from the shock. The party had been camping at vari-ous points along the route, but last night its members stayed at the Lambertville House. At 5 c'clock this morning the trip was resumed. Rivermen gathered up the belongings of the clergyman that had been in the cance and that did not sink. The body is now in a Trenton undertaker's establishment. The body then disappeared. Rivermen immediately started a search for it, but it had not been recovered at an early hour this afternoon.

"We are aware of what is legitimate and what is not, and we have not go a bayond what is proper.'

Germans generally declare they see no reason to believe that the present uproar is likely to interfere with the progress of diplomatic negotiations hetwoen Germany and the United States. In the latter regard they are chiefly interested, they say, in the forthcoming note from the United States to England because of its probable bearing on the German answer to the last Lum tania note.

The American note to Great Britain, said a man close to the inner German diplomatic circle today, means more than that: it means, he said, a decision in Germany as to whether the American note shall or shall not be answered. WAIT ON NOTE TO ENGLAND

"The situation is such in Germany," he declared, "that Germany cannot make reply to the United States unless it is shown to the German people that this country intends to demand emphatically that England respect the rights of neutrals. Such an attitude understood by the German people-and it is not as understood now by any means-would make possible a conclusion of the Lusitania incldent.
