How to Advance -The great hope of advancement lies in bringing into action certain important powers of mind and personality which have never been used. Use of these powers is prevented in various ways. It may be checked by timidity and lack of self-confidence, suppressed by fear, or paralyzed by self-consciousness. Ignorance of the importance of the powers, or its matural weakness of the powers themselves, may prevent their use. The Neff College courses give men and women full possession of themselves.

Send for catalogue, copy of Dr. Neff sectore, "Education and Success," and circular stating when Day and Evening Classes open, rates of tuition, etc.
