DUMBA'S ATTITUDE PROVES EMBARRASSING FOR ADMINISTRATION

Explanation of Austro-Hunga rian Ambassador Does Not Clear Situation Caused by Break

JUSTIFIES HIS COURSE

WASHINGTON, Sept. ! WASHINGTON, Sept. 8.

The Administration is much embarrassed as a result of the attitude assumed by Dr. Constantin Dumba, the
Austro-Hungarian Ambassador, Instead
of "explaining" his now famous letter
to the Austrian Foreign Minister, carried
by War Correspondent Archibald, Doctor
Dumba has justified his action. He took Dumba has justified his action. He took the position in his conference with Secretary Lansing that he was well within his rights in everything he did. As a result the Administration is in a dilemma as to what action to take. If it accepts the statement of Doctor Dumba, and believes that by his action he has violated diplomatic ethics, it must ask Vienna to disavent these actions disavow those actions.

The entire matter has been referred by

Secretary Lansing to President Wilson. So far as this Government is concerned, every move made in the matter up to the present has been at Dector Dumba's request. He asked for the audience with Secretary Lanwing. It was granted on the assumption that he intended to make an explanation. Instead, to the great sur-prise of the Secretary, he defended all of his acts and insisted that this Government has no reason to concern itself with him. The letter taken from Archibald by the British authorities was a report that the Amhassador was making of an investiga-tion ordered by his home government, he

The text of the Archibald letter has been cabled here by Ambassador Page, and will be submitted to President Wilson along with the report of Secretary Lansing. Meanwhile, it is expected that Ambassador Penfield at Vienna will make equiries to determine in what light Aus-

ria looks on the entire matter.

The fact that this letter admitting a general plan to tie up munition factories in the United States was writen after this Government went on record as refusing. at Austria's request, to stop munition exportations, adds to the gravity of the matter.

"MOSS-GROWN" STOCK PROJECT REVEALED

Brokerage Office Flooded With Inquiries for Concern Described as "Fake"

What is characterized as a method "so old it is mossgrown" was employed today in placing mining stock on the market under the name of the Argentine Reduction Company, according to information which was imparted over the "ticker" service of the New York News Bureau this afternoon.

The account of the alleged "fake" as-serts that all New York brokerage houses were flooded with inquiries today, from towns in the central part of that State, asking for offerings of Argentine Reduction stock in 5000 and 10,000 share blocks, and that the letters were identical in wording and signature. All of the letters, it was said, asked for an offering. and it was pointed out that if they represented actual orders to buy, there was manifestly a lack of good intent as to the merits of the company.

The ticker sise said that all effortts to obtain authentic information from the company had proved unavailing, and re-marked that "the methods employed to make a market for the stock puts upon the company the stamp of being a fake that will be difficult to remove," and continued: "Explanations are due from the officers of the company for allowing

such methods to be used to unload the stock upon the public." In financial circles of this city the Ar-gentine Reduction Company is not known. In many instances it was said that the whole affair was evidently the work of "wildcat promoters," who believed the ruse of flooding brokerage offices with inquiries regarding stock was so old that it had been forgotten and might be suc-cessfully employed at the present time.

tained in four typewritten pages. It was handed to Ambassador Gerard at 8 o'clock

WASHINGTON, Sept. 8 .- If the White Star liner Arabic tried to ram the German submarine which sank her the latter vessel's commander unquestionably was justified in what he did, high Government officials said today.

They were immensely interested in the United Press dispatch from Berlin saying this was his defense.

The question would be one of proof, it

was declared.
The German official report on the case, said to have been handed to Ambassador Gerard Tuesday night, had not reached the State Department. Considering the time of the communication's delivery and the present delays in transmission, it was said it probably would not arrive in Washington in its official form until some time tonight. time tonight.

When it would be made public could not

be stated. The general understanding was that even in the event of an irre-concliable clash between the British and German stories, the German commander's statement would be accepted to the ex-tont of the belief that he "thought he was about to be attacked."

The gold, which is to protect the credit of the Allies in this country, is the third shipment from England within a month.

100 AUTOS AND \$150,000 GARAGE BURNED

NEW YORK, Sept. 8.—One hundred automobiles were consumed by fire early today, a \$150,000 garage with a frontage of about a block on 11th avenue was destroyed, three firemen and a garage superintendent were hurt and 56 horses were stampeded. All because an autotruck back-fired and the sparks lew up its gasoline tank. The noise of exploding gasoline tanks was like that of an artillery hombardment. The horses stampeding added to the horror. Because of the presence of so much gasoline, Chief Kenyon refused to allow his men to enter the garage, ordering them to fight from the outside.

SUBMARINE TORPEDOES SHIPS OFF FRENCH WEST COAST

PARIS, Sept. 8.—The French steamer Guatemala has been torpedoed and runk by a German submarine 50 miles off Belle Isle, on the west coast of France. A British steamer picked up the crew, who escaped in two boats, and landed them at St. Nazair. The Guatemala was owned by the French Line, owners of the freighter Bordeaux, reported torpedoed yesterday.

KAISER REPORTED STILL ANGRY AT HINDENBURG

LAUSANNE, Sept. 8 .- The Berne Tagwecht "learns from a well-informed German source" that General von Hindenburg is still in disgrace with the Kaiser, and that "if he has not been retired before now it is because of his popularity in Germany, the Kaiser fearing that such action would create a bad impression." The Tagwecht article continues: "The differences between von Hindenburg and the Kaiser began in May last, when the General proposed a separate peace with Russia, on the ground that it would be impossible to conquer the Russian army."

BRITISH FREE AMERICAN PRISONER

LONDON, Sept. 8 .- C. J. Maisch, of New York, wireless operator on the Norwegian steamship Seattle and a native American, who had been held in custody since the Seattle, formerly the Bangor, was captured near the Falkland Islands on March 14, has been released as the result of representations made in his behalf by the American Embassy. George Vielmetter, a naturalized American, steward on the same steamship, is still held in the naval barracks at Plymouth, but his release is expected soon. The Seattle was charged with carrying coal and provisions to the Kronprinz Wilhelm.

Samuel P. Vauciain, vice president of Baldwin's, was elated by the announcement that the complications had been settled amicably, as he was anxious to proceed with the work. Contracts will be awarded immediately and it is expected to berth vessels in front of the bulkhead by December. These vessels, it is said, will take out the first cargoes of arms manufactured by Baldwin's and the Remington Arms Company. Shipments will be made direct from the plants.

SLEUTH SAVES TWO LIVES Modest Hotel Detective Conceals Fact

of His Rescues at Shore

Hotel Detective James Farrell, of the Bellevue-Stratford, is very modest and retiring, and so even his most intimate friends have not known that he saved two lives of a man and a girl at Wildwood recently. When he returned from his vacation tanned and happy he told all about the wonderful fishing and the surf bathing, but did not mention his aeroism.

So it came about, as it does in story books, that a guest stopped at the Bellevue who had seen the rescue, and he promptly circulated the story. A man and a girl who had ventured loo far out in the breakers were suddenly swept off their feet and went under. Mr. Farrell was near the scane and went to their aid. He succeeded in dragging them to the beach. Both were exhausted and would have drowned but for the detective's prompt action.
