EVENING LEDGER-PHILADELPHIA, THURSDAY, SEPTEMBER 9, 1915:

THE MAIDEN MILITARY; PURE FEMININITY A CHARM Potential Weapons in the Hands of Womankind - A

> Man Likes to Be Noticed, but a Woman to Be Admired

### By ELLEN ADAIR

THE war cartainly has brought about | one change that is not entirely welme, and that is the "militaris'ns"-paron the word!-of woman's dress. Why on

10 \*

earth girls should want to make themselves look as much like the men as C possible seems a mystery. -but such is the case. With hair brushed back approved military tn. style, abbreviated skirts displaying mannish boots, and coats of a manly and

A better waterior cut, they swing along, even the skirts, was so mincing and femin-now the long, swinging sol the march!

When I was in London last month I noticed a member of the gentler scx marching down Regent street, arrayed in a suit of khaki, her silm ankles-I im-spined they were silm, though for the moment they didn't look it-olad in puttees of the same sandy hue as her suit. Her har was screwed unbecomingly into a cap of decidedly military cut and her figure had a curlously shapelens look be-meach the straight lines of the warrior-ite garment in which she was disporting herself for the approval-or condemna-tion-of all and sundry.

tion-of all and sundry. The subject of the wearing of puttees by the fair sex, a man expressed himself very decidedly. "That sirls are and the fair sex as a shall come to use for them the nullitary fashions of men, we all know," he said, "and that sooner or later they we of course, subjected. But I don't think we seriously thought that It would actually get to the wearing of puttees." "Women have either got an enormoute admiration for our sex in that they are or else they are extraordinarily tired of their own. What is more, the love of the bizzars seems to appeal so much more to women than to men."

"A man likes to be noticed, but a woman wants to be looked at. Put him in something that no one else is wear-ing, that makes people turn round and gamp, and street horses shy, and he is of all men the most miserable. Put a wom-an in something similar with like re-sults, and she is filled with a peace and joy that nothing on earth can give."

"If I didn't know the peculiarities of the reminine mind and their love of at-tracting attention. I should have dis-missed the 'puttee' notion as impossi-ble." . . .

"Ask any ordinary man, if you like, and he will teil you, if he is truthful, that if a giri's face is the first thing he looks at, her feet are the next. Pu, the pret-tient siri in the world in thick cotton stockings and shapeless boots, and the masculine susceptibilities will receive a far from which receivery is well-nigh impossible."

. . . "Tou can say if you like that so long as you know a girl has pretty feet and ankles. It shouldn't really matter to your sense of appreciation how she up-holsters them. But that isn't true. That's why I say I don't like putters. The power

R

Ê

an't like puttees. The power of attraction that a girl possesses lies chiefly in the fact that her charms are the direct opposite of ours. When girls go about in military tunics and puttees, we shall cease to use for them the pretty little adjectives that we hat hitherto kept for them."

NAVY BLUE SCHOOL SUIT WITH YOUTHFUL TRIMMINGS

THE schoolgirl needs practical tailored suit first of all when she equips herself for boarding school or college. for boarding school or college. If she is going to a warm cli-mate, the light serge or gabar-dine cloths shown for fall suit-ings will prove none too warm when the winter proper comes along. Beside this a fall suit will serve admirably as a "sec-ond best" costume for early ring, when the styles are un-

Colorings for fall costumer ing such new shades as plum, wistaria, various military blues and the always serviceable navy shade. This latter, by the way, is the best for the young girl's suit, as the violet shades are too old for her and the lighter shades of blue will shades are too old for her and the lighter shades of blue will not give such good wear. An-other good thing to be remem-bered is that a simple style ahould be selected, as nothing looks quite so dilapidated as foded trimmings, braidings, image, etc., and the school-iri is seldom noted for her careful habits. Navy gabardine, with white

Navy gabardine, with white New y gapardine, with white silk grouptain trimming, is shown in the little school suit designed by one of our famous New York firms. The drop-abouldor line and narrow-stitched belt accentuate the silimness of the youthful fig-

WOMEN WORKERS WHO

aware the Scene of Never-Ending Toil for Wives of Powder Makers

## AN ALL-DAY SCHEDULE

Breakfast Three Times Every 24 Hours and Same Number of Dinners

Once upon a time a great big goose laid a great big egg, and most persons

think it was an easy matter for the farmer to go out and pick up that egg. But if the story could be given a background of facts you would find the farmer's wife watching that goose day after day, mixing special food for her ladyship, currying her feathers, putting her to bed at night and when the time came leading her subtly to a spot worthy of

a golden egg. Then the farmer went out, picked it up and he and the goose have come down in history. So it goes on. There's a parallel down at the du Pont powder mills at Penns-

Every one has read of the grove. myriads of men flocking there for work. and who thinks of the wives uprooted and replanted there? Men are limited by law to an eight-hour day, but the law knows no housewives and the women work three shifts a day. This is a sample day of the average woman in du Pont village:

"I've got to feed eight men, my husband, three suns and four boarders," said this typical fagged-out-looking American worker, her hair pulled mack tight and screwed together in a knot that tight and screwed together in a knot that supped up and down as she talked. "The company knows just how many rooms you have and they want every room filled up or they'll come round to see you. I work much harder than my hus-band does, but then I guess I make al-most twice as much as he does, too. How would you like my job? I dish up break-fast three times a day and dinner three times a day. It's like this: This week my husband and two of my sons work from 7 in the morning until 3 in the afternoon, two of the boarders and my third son from 3 in the afternoon until 11 at night and the rest of the boarders from 11 at and the rest of the boarders from 11 at night until 7 in the morning. Neither the machinery nor myself gets any rest.

ALL DAY SCHEDULE.

ALL DAY SCHEDULE. "This is my schedule: I get up at 5:30 for the first breakfast at 6 a.m. for the shift that works from 7 in the morning to 3. At 8 the boys on the ll-to-7 shift come home and they want their dinner. Think of dinner at 8 o'clock: "In the morning I tidy up wherever there's nobody asleep. At two in the afternoon breakfast is dished up for the afternoon breakfast is dished up for the afternoon breakfast is dished up for the afternoon breakfast and at 12 mid-nisht the 3-to-11 crew their dinner.

the 7-to-11 gang breakfast, and at 12 mid-might the 3-to-11 crew their dinner. Every man gots a breakfast when he gets up and a dinner when he's finished work. Can you see me setting myself down in a rocking chair? Sometimes I'm so tired I don't know whether I'm dish-ing up dinner or breakfast. Some folks just serve a meal in the middle of the day, and them that will, call it breakfast, and them that won't call it diner. But day, and them that will, call it breakfast, and them that won't call it dinner. But I ain't that kind. I get \$7 a week from my boys and I feed them good. And I forgot to tell you that between times I put up eight lunch boxes a day, and last week I preserved cantaloupe and tomor-row I'm going to put up two baskets of tomatoes. We're all mighty busy; we sin't no ladies here.

HARD-WORKING BEDS.

"I only have three boarders in a room. I don't know any of the families around here, but in the third house from the corhere, but in the third house from the cor-ner on the other side, the woman has 27 boarders in seven rooms, and one of the rooms is a kitchen. You can see for yourself it's only a one-story house. I'll tell you how they do it. When one shift of men gets up to go to work, the shift that has just come off gets into their beds. And when the second men get up. the third gang comes in and takes their places. Them beds gets worked as hard us women. "I'm not resting now, a'talking to you. "I'm not resting now, a talking to you. I came out here to see if they're bringing my boy home. Today at noon the young-est boy brought home his brother's dinner pail and said: "Mom, here's Luke's pail, he ain't coming yet; he's in the hea-pital.' Just like that. Boy's got no heart. The hospital is in du Pont's Pont's ground, and nobody can get by the gate. Last week Pop was singed. Three men working with him were burned and died, but only the back of him was hurt. And I stood at the gate by the hospital a cry-ing. Ain't it awful waiting? REAL AMERICANS.

MME. LUIFERE

MANNISH MODE FOR MILADY INCLUDES COAT, VEST AND SOCKS

Philadelphia Prepared to Resist the Last-Named Change in Feminine Attire Decreed by "French-Brazilian" Now in Paris

THE mannish woman is preparing to ufacturing of cloth and other goods for the new attire.

ously than ever, but Philadelphia is prepared to resist her. She will ship a few more inches from her skirt, wear a thor-oughly masculine coat and vest and top it off with a soft hat. But she will not stop there. In fact, she hasn't stopped there. according to a dispatch from Paris, for, in addition to carrying out all the fore-going ideas, Miss Masculine has donned socks which leave her legs bare and pub-

Of course, the lay-down collar and fourin-hand the go with the costume. This enables the wearer, to do away with the handbag and the purse, for there are pockets galore in which she can have all

the things that her feminity craves. Some believe that the present Parisian style, which is now cropping out here and there, is the result of the war. Women are taking the places of men in many things, and it seemed natural that they should drift into men's clothes. The fad is also being followed in Lon-

don by many women, who are not suf-fragists, and last week a woman in New York appeared in one of the mannish costumes. She attracted no end of atten-

It appears that the woman who gave inpetus to the new, masculine style was not really a native of France. Reliable reports say that it was inaugurated by Madame Luifere, a French Brazilian, who contends that it is the proper and modest dress for women. furnished.

garding the socks, she says they are more comfortable and cooler than stockings and certainly just as decent as the short

dus largely to the fact that she is an en-gineer in Brazil. In the course of her work she was thrown chieffy in contact with men and soon assimilated many of the ideas of her fellow workers. Inci-dentally, Madame Luifore is a graphic writer and has sent many interesting ac-counts of condition in Europe to this

country.

# IS YOUR DAUGHTER GOING TO COLLEGE THIS FALLY

Problem of Outfit Now Confronts Many a Bewildered Mother, and Here's a Solution Worth Considering

THE problem of outfitting the girl who to their outfit. An Indian blanket makes a serviceable cover for the girl who vishes to lie down in the day time and time, either to boarding school or college, an extra winter bed cover. confronts many a bewildered mother. What clothing will she need and what

furnishings for her room? Most schools and colleges send a list, usually not very comprehensive, concern-ing the requisites for the room. A very few boarding schools also furnish a list of clothing, which, in these cases, is of the simplest, no girl being allowed to have anything more or anything different from another.

Since this point, however, is in 29 cases out of 100 left to the students themselves, the question arises: What will she need? And on this point the mother has no cause to worry, as the sirl of average means in the average college needs sim-pler clothing than at home.

OUTFIT FOR COLLEGE GIRL. Here is a very practical list, tried and found sufficient:

One coat suit of winter weight, usually beginning the college year in September with her spring suit of lighter weight. One winter coat. Two hats; one dressy one and one soft

"sports" hat Six shirtwalsts. Three jumpers.

One extra skirt of cloth. One serge street or class dress. The summer's supply of linen skirts and dresses for early fall use. Two or three simple gowns to wear to dinner-such things as summer dresses of voile, lawn, net or silk.

One evening gown. One sweater.

Raincoat. Umbrella and rubbers.

Bathrobe Kimone. Bedroom allppers.

One pair high shoes, one pair pumps, one pair evening slippers, and one pair tennis shoes. As for underclothing, this is largely an individual matter. Here is a suggestion:

One dark silk petticoat. One light silk petticoat. Two white petticoats. Four combination suits Two corsets.

Four undershirts or union suits. Six pairs cotton stockings. Three pairs allk stockings.

Three nightgowns. All colleges require that each piece of

clothing, each towel, sheet and napkin be marked with the owner's full name. The simplest way to do this is with the

woven names, which may be ordered at department stores for \$2 per 100. FURNISHING HER ROOM. As to the furnishing of the college girl's room, the majority of colleges provide the actual furniture and require only the linens, etc., to be brought. Where the furniture is not provided, a couch, furniture is not provided, a couch, rug, bureau, desk, table, washstand, bookcase and chairs are needed. Some colleges and schools require each pupil to bring her own table silver. In that case, a list is rug.

Omitting furniture and silver, the following is an average list of absolute re uirements: Four sheets (single bed size). One or two dimity counterpanes Two pillow cases. One pair blankets.

One quilt. One couch cover. Two bath towels. Four linen towels. Two wash cloths. One laundry bag.

One shoe bag. Four to six sofa pillows.

Three linen bureau scarfs. One linen table cover, usually one yard Sash curtains for windows. Cretonne overdraperles. Sewing basket.

Saturday.

Carnival to Aid Hospital The ninth annual carnival of the Methedist Hospital will open on the hospital lawn, at Broad and Ritner streets, to-night for a week's fete. The purpose of the carnival is to help raise the \$30,000 re-quired by the charity work. Music will

The show will continue tomorrow

and draperies. Try it-be a pioneer in an untried country and reform the college bedroor Llanerch Carnival Begins Tonight There will be no end of surprises at the carnival and big show of the Llanerch fire company, which will be attended to-night by many West Philadelphians. Acrobats, fortune-tellers, funny freaks and others will co-operate to make the affair a success. The proceeds will go toward the building of a town hall. All the festivities will be concentrated within what is known as "The Triangle," as West Chester pike and Cooperstown road.

juare.

Clothes hangers. Shoe trees.

BOX FOR STORAGE ADVISABLE The college girl's trunk is usually us packed and stored in cellar or attic, usin the long vacation arrives. Many girls send their blankets, quilte, pillows, dra-peries and such bulky things in a bas, since these things are not brought home at the end of the college year. The box also forms a good storage place for these articles at vacation time. Remind your daughter that an ounce of camphor is June will prevent moths in September, when pillows, flags and blankets are up

BOX FOR STORAGE ADVISABLE

when pillows, flags and blankets are us packed. Blankets may be sent home or to cleaners at vacation time for the yearly reno-vating that they should have,

It is desirable to use a thin counterpass between couch cover and blankets or the blankets will become solled in a few

weeks. Toilet articles of celluloid are best, since the college girl has little time or tion to poish silver.

Besides a trunk, a sultcase is needed for week-end trips and traveling. The new bags of black enameled leather an stylish, light to carry and cost only 5 A smaller bag of the Boston style might be found useful, but both are not really cessary.

Do not forget her tennis racquet, hockey sticks, camera and skates-nor the family photographs.

Do not give her too many clothes. The girl has little room for a great quantity et gowns or underclothing and little time to care for them.

LAUNDRY AND MENDING.

LAUNDRY AND MENDING. Usually one dozen pieces of laundry work are included in the price of board. This includes clothing, sheets, towels and other linen. The remainder of her wash-ing she has "done out" or sent home. The latter is the best way in these days of "parcel post." as it is less expensive. also "auntie" or "grandma" usually sews on buttons, darns up holes, and then puts some goodies into the return package. A on buttons, darns up holes, and then puts some goodies into the return package. A wicker telescope is useful for the travel-ing laundry, since it is light, stretchable and easily packed. Once in two weeks is enough for the average girl to send home her laundry, especially in winter. Just a word to this girl:

Be tidy-there are too many good rea-sons for it to mention why. Don't overdo the usual college decors. tions. Try a new note in your room-a really charming restful color scheme, a few good pictures. Why should every col-lege girl's room look exactly like every other's from Smith to Berkeley, from the University of Wisconsin to Gouchert Have yours the one with individuality; have a few less flags; a few less small and meaningless pictures dotted about; a

few less screaming notes in your pillows

way up to the collar, and the pockets at either side of the coat are put on in a direct line, instead of patched as in former models. The skirt is a plain circular model, with no

ure in a most becoming man-ner. The single-breasted front is buttoned by bone buttons all
