U. S. WAITS REPLY FROM VIENNA ON **DUMBA'S RECALL**

......

Austrian Acquiescence Is Expected and Tension **Relaxes** at Capital

GERMAN ATTACHE MAY GO

WASHINGTON, Sept. 11. Austro-Hungary's answer to America's udent for Ambassador Dumba's recall expected at the State Department ne time today.

Word from American Ambassador Pen-field, at Vienna, was awaited with keen expectancy. Early fears that Austria might object were largely dissipated. It was regarded certain that the State repartment's demand would be granted. Official interest centred today, however, onspiracy" to cripple American indus-ies. State and Justice Departments agnets were in operation.

GERMAN ATTACHE MAY GO The conviction was growing that Cap-ain Franz von Papen, military attache a the German Embassy, would soon have the German Embassy, would soon have the country. He, Austrian Con-fular Agent Alexander Nuber, at New York: the editor of a Hungarian news-paper of New York and Captain James F. J. Archibaid, Dumba's American mes-senger, were the four openly involved index. That the dragnet might enmesh ther agents of foreign governments was

trongly hinted. Upon excellent authority it was report-id today that German Ambassador Bern-storff will soon be told, if indeed he has not aiready been formally or informally avised, that von Papen's continued pres-rece in this country is objectionable to the Germanient. It was believed Bern-torff may solve the problem by himself disminsing von Paper. It was reported that the German military attache would be sent home on a "vacation."

Steps toward criminal prosecution of the alad to the putative cution of a involved in the putative conspiracy also taken today. Federal and York State statutes were being studto determine whether indictments ind lie under the general blanket statuse governing conspiracy, the State law, or for violating United States mutrality.

GERMANY TO DOMINATE.

Germany rather than Austria is ex-ected to decide what the future rela-hous between the United States and those two nations are to be. The Berlin Gov-ernment dominates both the military and givil activities of the dual empire. Because of this. State Department officials today are coupling the Dumba recall and the Arabic situation. They are so closely dovetailed, it is asserted, that either may ause a serious break in diplomatic re-

off is expected that there will be a con-sultation between Berlin and Vienna be fore any action is taken. Although it is expected that Doctor Durnba will formally be withdrawn. It is believed by many of-ficials here that Austria will take advan-lars of the opportunity offered to go on woord on the reasons assigned why her Ambassador's usefulness is considered at an and

Paris Admits Own Losses Are Equally Great in Fighting West of Verdun

LINES UNCHANGED

PARIS, Sept. 11. The Crown Prince's army has lost mor than 100,000 men in successive attempts to break through the French lines west of Verdun, it was officially estimated this

afternoon. It is officially admitted, however, that the French losses in this week's fighting were about as heavy as those suffered by the Crown Prince.

An official review of the fighting in the Western Argonne was given out, supplementary to the daily communique. This review admits that in his attacks on Wednesday and Thursday of this week the Crown Prince penetrated the French trenches on a front of two-thirds of a mile, but declares that the German losses were out of comparison to the ground gained.

"Since the Crown Prince's army began its attempts against the French lines in the Argonne, it has not obtained a single strategically important result." said the official review. "In one year a single German army corps has lost over 40,000 men. The Crown Prince's army altogether has lost more than 100,000 men.

"After his repeated reverses of last month, the Crown Prince tried to ob-tain an important success in the Argonne on Wednesday and also on the following night. But, despite the semiofficial Ge man dispatches, these efforts, made large forces and supported by guns, failed of appreciable results. many

"The Germans penetrated the French renches only at points on a two-thirds of a mile front, but were immediately locked. In vain they attempted to re-new the attack. The situation in that fegion is virtually unchanged, though the cost to the German troops was at east as heavy as to the French."

For 13 days Belgian, British and French artillery has poured a steady rain of shells from guns of all calibre upon the German trenches from the Swiss frontier to the set frontier to the sea. This afternoon's official communique re-

The consensus of public opinion is that the operators, raircoads and retail deal-sers will seize on these demands to buost the price of coal in anticipation of a probable favorable declaion by the Dauphin County Court, upholding the or-der for a reduction of 40 cents a ton in coal freight prices to Philadelphia, made by the Public Service Commission in De-cember last.

Some of the retail dealers have already had circulars printed for circulation, call-ing attention to the miners' demands and ng upon their customets a prompt huse of an adequate supply at once.

It is generally understood that some of the miners' demands will be granted by the operators, and that these concessions will be used as an excuse for an increase retail prices.
