"Recently German newspapers have ar-rived in the United States, containing a pamphlet advising readers to destroy American ammunition factories." said an official statement. DUMBA TO LEAVE U. S. NEXT WEEK, IS REPORT

Safe Conduct Will Be Unnecessary Because of His Age

WASHINGTON, Sept. 15.-Ambassador and Madam Dumba will sail from New York for Vienna within the next week. according to unofficial information reach-ing the State Department. No arrangemonts have been made for a safe con-duct, and it was not believed today that any would be necessary. The Ambassador is more than 50 years old, and the limit under which enemy aliens are detained in the various warring countries

was said here to be 55. Secretary Lansing declines to comment on the request of Ambassador Dumba to "be recalled on leave to "be recalled on leave to report." Offi-ciels who know his mind were inclined to believe that he would raise no serious disction. The big object, they say, was a set Dumba out of this country, and his object will be attained so soon as

Vienna acts. The department was making an earnest effort today to get some word from Am-hassador Penfield to find out what action the Austrian Government had taken. Communication with the Austrian capital is demoralized, and it was said in the chief clerk's office that sometimes it takes a week to get a short dispatch through.

WASHINGTON, Sept. 15 Secretary Lansing unsupectedly went to the White House for a conference with President Wilson this afternoon. The general opinion was that Lansing's visit re-lated to the recent Ordups note and pos*eibly* to questions of general policy to

ward Germany. The evidence gathered by the United itates through its consular representatives on the torpedoing of the Arabic was cabled to Ambassador Gerard at Berlin and is now being considered by the German Foreign Office, Secretary of State Lansing admitted this afternoon. He said this was done at the request of Ambassador von Bernstorff.

It had been generally believed that you Bernstorff cabled the information direct to his Government. Secretary Lansing refused to answer a question whather this Government expected another note from Germany on the Arabic case. It was generally known, however, that the Ad-ministration expects Germany to send a supplemental note disavowing the sinking of the Arabic when after the evidence cabled Ambassador Gerard is fully gone

HEXAMER AGAINST BILLION-DOLLAR LOAN

Continued from Fags One nily of England. They want to aid England and to enable her to continue the war which she is now waging to retain the mastery of the seas and to control the commerce of all the world for all times. I call upon all patriotic American citizens to pass res-olutions in every American society or association to express their abhorrence of this unpatriotic and pro-British scheme and to earnestly appeal to the President of the United States and the Secretary of State to thwart this dvil conspiracy; a conspiracy which would rpb the American people of the money wherewith it can alone develop the natural resources of our land, increase our industries and extend our owh commerce across the seas, improve our means of internal transportation and
