LANSING WON BY NAON

WASHINGTON, Sept. 20.-Immediate recognition of the Carranza provisional govment if it meets the demands agreed on at Saturday's conference in New York is certain from the United States, Argentina, Uruguay, Bolivia and probably Guatemala and Brazil are ex-Chilt. pected to hold back for a short time, according to the best information obtainable here today.

It developed today that at Saturday's conference in New York the fight for the recognition of Carranza was led by Ambassador Naon, of Argentina. He exprets to go home within a very short time to fix his fences to become the presidential candidate of the Radical party of Argentina. And he was very anxious that no precedent be afforded for any attack upon him as favoring interference in the internal affairs of a sister republic, So well did he argue the case that Secretary Lansing withdrew his objec-tions to Carranza and sgreed that, if he shall show he actually controls the tarritory he claims, he shall be recognized very soon, probably after the next meet-ing of the conference in this city within three weeks. Guatemala was unalterably opposed to recognition, and the Brazilian Ambassador was inclined not to favor it. Ambassador was inclined not to favor it, although he said Brazil might act later if convinced it was the best move. In an effort to prevent Carranza's recognition, Villistas here and also, it is understood, on the border, have started a boom today for General Obreson for Provisional President. It is said the Ad-ministration would not be averse is recognizing him, but it is doubted if atther he or Carranza would consent to

WHERE RUSSIANS ARE IN PERIL

The map shows the railroad triangle east of Vilna in which General von Hindenburg is now trying to trap the retreating Russians. By a wide flanking movement in which his cavalry at last reports had reached Molodechno (2) and Worjany (3), Hindenburg has compelled the Russians to evacuate Vilna and has almost, if not entirely, sur-rounded the retreating forces in the railroad triangle between Vilna, Vileika and Lida. A strong force of Russians who attempted to cut their way through at Michalischk (1), were beaten back, according to the German official report. The armies of Archduke Leopold of Bavaria, who is working in co-operation with Hindenburg to cut the Russians off, has crossed the River Sczara between Slonim and Heretschin (4).

DR. RICHMOND'S TRIAL HALTED FOR INDEFINITE PERIOD BY LAWYERS

Counsel in Turbulent Ecclesiastical Case Agree on Postponement-Action Causes Sensation

The trial of the Rev. George Chaimers Richmond has been indefinitely postponed by a last-minute agreement of opposing counsel. This information was made public today by Chancellor of the Episcopal Dioceze Henry Budd, who announced two weeks ago that the trial would go on today whether or not Richmond and his attorney, Edgar N. Black, were present. Friends of the militant rector were

openly jubliant when it became known that another delay had been brought about in the case. Chancellor Budd declined to express an opinion as to when the trial will start now. He said it might be a few weeks and it might not be for several months.

Richmond was first accused of violating his ordination vows and of conduct unbecoming a clergyman nearly a year ago. Since that time the case has been hanging fire. It has been marked repeatedly by charges and counter-charges, one of the most sensational of which was delivered last night by the minister from the pulpit of St. John's Episcopal Church, from which he has refused to be ousted by Bishop Philip Mercer Rhinelander. This latest charge was directed against George Chandler Paul, of 1321 North 13th

A dispatch from Salonika quotes Haki Pasha, a prominent Turkish leader, as saying that the Turco-Bulgarian accord creates a new political and military situ-ation in the Balkans.

We believe," he added, "that Rumania will take a position opposed to the cen-tral Powers, but we hope that Greece will not attack us."

Czar Ferdinand of Bulgaria and the King of Rumania are reported to be holding a secret conference at some place on the Danube, and this conference, it is understood, will decide the action of the Balkans toward the all-important Dardanelles campaign.

So deeperate is the plight of the Turks bo desperate is the plight of the Turks that Enver Pasha is reported in dis-patches from Rome as having declared Constantinopie in a state of siege. The latter part of October is said to have been set for a great Austro-German drive through Servia to the relief of the Turks. It is then that Bulgaria must say whether she will cast her lot with the Teutons and allow parsage to their troops.

Berlin dispatches describe the satisfied confidence there that she will. Bulgaria confidence there that she will. Buildaria is wide open to attack from land and sea, however, and this fact leads to the belief here that she will heattate a long time before defying the Allies.
