BERLIN GRANTS U. S. DEMANDS IN ARABIC CASE

Disavows Sinking of Liner. Offers to Pay Full Indemnity for Loss

SATISFACTORY TO WILSON

WASHINGTON, Oct. 5. - All existing difficulties between the United States and Germany are virtually disposed of by a letter handed by Ambassador Bernstorff this afternoon to Secretary of State Lansing, in which the sinking of the Arabic was specifically disavowed. Statements from the State Department and the White House plainly indicated that the effect of the note is to wipe out the controversy over the Lusitania as well as that over the Arabic. The let-

Secretary Lansing this afternoon gave out the following text of the letter handed him this morning by Ambassador Bernstorff:

TEXT OF LETTER.

"My dear Mr. Secretary: "Prompted by the desire to reach a satisfactory agreement with regard to the Arabic incident, my Government has given me the following instructions: "The orders issued by His Majesty, the Emperor, to the commanders of the German submarines—of which 1 notified you on a previous occasion—have been you on a previous occasion-have been made so stringent that the recurrence of an incident similar to the Arabic case is considered out of the question. sank the Arabic, and his affidavit, as well as those of his men, Commander Schneider was convinced that the Arabic intended to ram the submarine. On the other hand, the Imperial Government does not doubt the good faith of the affidavits of the British officers of the Arabic, according to which the Arabic did not intend to ram the submarine. The attack of the submarine therefore The attack of the submarine therefore was undertaken against the instructions issued to the commander. The Imperial Government regrets and disavows this fact and has polified. Commander Schneider accordingly. "Under these circumstances my Gov-ernment is prepared to pay an indemnity for the American lives which to its deep regret have been lost on the Arabic. I am authorized to previate with you

To my mind, one of the most important factors in winning the National League pennant, and in our chances for beating the Red Sox in the world's series is our manager-Pat Moran. While the element of luck is likely to play an important part in any short series and the pitching power must be reckoned with to an extent far greater than during a season's campaign, the quick-witted manager, the leader who can diagnose a play and have his men execute it on the spur of the moment, no matter how critical. the situation has a bearing on the result which cannot be overestimated.

On the field and off, our men have looked upon Pat this year as the real leader of the club, and they will look to him again when we meet the Red Sox for him again when we have the field box for the world's championship next Friday and on the following days the series games are played. As you know very well, this is my first chance in a world's series, but I have seen many of them, and I realize that implicit faith in a man-
