Since the failure of the operation at Sventsiany the German left wing has lost its activity. Military experts explain that the German failure is chiefly due to the absence of reserves to relieve the cavalry. At Beentalany they have been compelled to shift forces from the right flanks of Eichhorn's, Scholtz's and Gallwitz's armies, over 250 to 350 miles of damaged roads.

Russia's position at Dvinsk is still firm but causes some anxiety. It is still threatened and in danger of envelop-ment, as the Germans still hold the district to the southeast about Lake Dris-viaty, while they have drawn nearer from the west and southwest.

Nevertheless, the Russian success at Postawy and the arrival of huge re-enforcements elsewhere and the continuous improvement of General Ruszky's blows from the direction of Mitau encourage the military critics with hope.

The enemy's attempts at an assault from Novo Alexandrovsk, their nearest point to Dvinsk, were repulsed, and north of Lake Drisvisty the violence of the sian artillery has even put the Ger-

GREEKS MASS ARMY TO STOP BULGAR RUSH

ATHENS, Oct. 5.

War preparations in Greece are going forward night and day with feverish energy. First line troops are being moved to the Bulgarian border, reserves are drilling everywhere and Red Cross units are being formed.

are being formed.

French troops, whose arrival on Greek soil was officially confirmed by Premier Venizelos today, are preparing to march toward the Servian frontier, according to Saionika dispatches this afternoon.

Refugees from Bulgaria have reported to the Greek military authorities at Salonika that the Bulgarian General Staff has massed a heavy force of cavalry at Eskije, on the railway running from Salonika eastward into Thrace, and also along the Struma valley and around Strumnitza.

Though some of the newspapers have protested against the landing of an allied army on Greek soil, the belief prevails in many quarters that the allied Governments entered secretly into an agree-ment with the Venizelos government before taking this step.

There is now gathered near the Bulgar frontier a mixed army composed of French, British and Greeks. Not far away Servian forces are massed where the Greek, Serb and Bulgarian frontiers

meet.

Pro-war newspapers, which defend the plicies of Fremier Venizelos predict that "another glorious era for Greek arms" is about to open. They declare that it is only a matter of time until Bulgaria is forced by the Teutonic Allies to attack Servia and that Greece must intervene on the side of Servia in accordance with the agreement which was entered into at the time of the second Balkan war. Fremier Venizelos, addressing the Chamber of Deputies on Monday, said: "Greece has a clear-cut treaty obliga-

Attorney General Brown's Interpretation of "More Than 50 Per Cent." Clause in Non-Partisan Law

J. P. ROGERS IS ELECTED

Wessel's Unopposed Candidacy Depends on Official Count of Vote

Attorney General Brown, in Harrisburg today, rendered an opinion on the interpretation of the "more than 50 per cent, clause" in the non-partisan primary law, which, if sustained by the courts, means that candidates for all but two vacancies, and possibly only one vacancy, on the Common Pleas bench in Philade phia, will be opposed at the general election on November 2

The Attorney General's decision places Joseph P. Rogers on the ballot * one of the two vacancies in Common Pleas No. 2 without opposition,

It was admitted immediately after the primary election that Judges Finletter and Shoemaker had received majorities large enough to assure them of lone places on the ballot at the general elecion. Judge Raymond MacNeille will also be unepposed for re-election to the Municipal Court bench,

The Attorney General's epinion was ought to clear up the situation regarding the two vacancies in Common Piens Court No. 2, where it candidates sought the nominations at the primary election. One candidate, Mr. Rogers, is assured of no opposition, and whether the other candidate of the Organization, Henry N. Wessel, will be opposed or not depends upon the result of the official count. ATTORNEY GENERAL'S OPINION. Mr. Brown, after reviewing the law at ength lave down this method of conruing the 50 per cent. clause:

"First. That in determining whether a candidate has received a number of votes greater than one-half, the total umber of votes cast for such office where there are two or more vacancies to be filled, it is proper to take the total number of votes cast for all of the candidates for such office, and divide the total number by the number of vacancies

Second. That the candidate must receive a number of votes greater than one-half the total number cast for such office, determined as set out in the last preceding paragraph, and also a number greater than one-half the number of ballots cast for any one candidate for any office in the political district or di-vision within which the nomination is to be made, and, as hereinbefore stated. "And office means such an office the jurisdiction of which is ordinarily limited to, but includes the whole of such political district or division."

CONTESTS POSSIBLE.

The unofficial count of the vote cast for the 11 candidates for Common Pleas No 2, gave a total of 234,125 votes. This total, divided by two, the number of vacancies to be filled, gives 117,663, more than half of which total any one candion Pleas No. 2 must have
