### **ONLY 200 POLICEMEN** FOR BALL GAME DUTY

Superintendent Robinson Reduces Number From 400 as Originally Planned

Not more than 200 policemen will be assigned to handle the crowds at the Philly park during the world's series games in this city. This announcement was made today by Superintendent of Police Robinson. The first number announced several days ago was 400.

The inference drawn around City Hall today was that the superintendent and other officials did not want the Philadelphia Club to think they were trying to get too many men in free. Accordingly, the original list was cut down.

When Supeintendent's Robinson's attention was called to the discrepancy between today's figures and those first announced, he said that there was no effort at retaliation against the club for its failure to sell blocks of seats to the police officials. He said he felt certain the number allotted to the work would be number allotted to the work would be sufficient to handle the crowds.

The 200 men will be outside and inside. In addition, there will be in motorcycle men, 12 mounted men, under cight lieutenants and two captains. Kenney inside and Tempest outside.
