NEW YORK, Oct. 14.-In the presence of Secretary of the Navy Josephus Danints and a big crowd, the keel of the California, the largest and mightlest battieshin in the world and the first one to be driven by electricity, was laid here today.

Secretary Daniels and other Navy officials praised the American naval engineers who have made the electrically driven battleship possible.

"The California." said Secretary Dan-iela. "will be the first battleship of any navy in the world to be propelled by elec-tricity. The installation of the electric. drive ushers in a new epoch in navigajust as far-reaching and important an that in which steam succeeded sail power. The California will have a cruis-ing radius about 50 per cent. greater than ing radius about as per cent. greater than her sister ship. The combination of elec-tric drive and oil fuel will enable her to steam nine days longer or 2550 miles fur-ther than a coal-burning dreadnought. In other words, the California will be able to steam nearly twice as far as the Wyoming or Arkansas.

The California is coming into our navy at the time of the passing of coal and mubatitution therefor of oll as fuel.

"It is a source of pride that the American Navy is initiating the movement for use of electricity in propelling battle-ships."

Daniels predicted the navy would eventually own its oll lands, produce, transport, refine and store its oil supply. The ceremonies began with a prayer by Chapiain Isaacs, of the Brooklyn Navy Fard. Two steel plates, 12 by 3 feet in size, were swung into positions between two keel blocks, and then Captain Rock, who is building the California, descended to the bottom of the ways with four sil-ver boits which were riveted into place. A silver horseshoe was fastened upon a toporary wooden block representing the botw of the California. In addition to Secretary Daniels, some of the other notables present were Rear Admirat Nathaniel Usher, commandant of the Brooklyn Navy Yard: Captain George W. Rock, naval constructor; Dr. Miller R, Hutchinson, chief engineer for Daniels predicted the navy would

Work on Great Warship, Master Box Once Filled, But Challenges Cause Delay-Millionaire Apparently in Robust Health

BILLION IS REPRESENTED

NEW YORK, Oct. 14 .-- Material progress was made today in the selection of a jury to try William Rockefeller and other millionaire directors of the New York, New Haven and Hartford Railroad who were arraigned yesterday in the United States Court on a charge of conspiracy. At the noon recess today seven men had been accepted tentatively, serving to discount the prediction made by leading lawyers at the outset of the trial that at least a week would be occupied in filling the jury box.

These seven were David M. Flanagan, Max Hartman, Albert B. Welden, Charles E. Gleazon, George B. Raymond, Will-lam A. Tucker and Hugh McLean.

After recent a score more talesmen sought the Judge with excuses, but only two were excused. After a prolonged ex-aminstion by both defense and Govern-ment, Paul Kraus qualified as juror. He successfully answered all questions put to him. him

After John Joel was accepted as Juror 5. 8. Peter Wagner, W. D. Louden, W. Eccles and Andrew J. Grace rapidly jualified and the jury box was filled with

ditional talesmen to again fill the box. When court convened only about half of the defendants were in court. As the clerk called the roll of talesmen, William Rockefeller entered the room laughing heartily at something said by his coun-sel, R. V. Lindabury.

His face was bronzed and ruddy, his checks were round and smooth, and as he laughed gaily and greeted with a handshake his co-defendants, he looked

The only indicted New Haven director not in court for trial is George M. Miller, \$2 years old, who is sick at his home in Morriatown, N. J. Perhaps never before was there such an

aggregation of wealth and professional prominence in a courtroom. The 11 de-fendants represent around a billion of dollars

enough to make a showing in the Bal-kans, occupied two large tables. De-fendants, lawyers and fendants, lawyers and reporters took up all the space within the rail, and all the rest of the room was filled with talesmen. There was not a seat for an idle spectator at the morning session.

When Judge Hunt mounted the bench and called for all talesmen with legal ex-cuses there was a mad scramble and about 30 prospective jurors began to make excuses. Few of them were successful. Bockefeller was the only one of the de-fendants who displayed any interest in the humdrum proceedings. He sat along-side his counsel and closely scrutinized each talesman. The other defendants sat by themselves around a long table, and one might have imagined them at a di-rectors meeting. They joked and haughed among themselves, read newspapers cov-ertly when Judge Hunt was not looking. made figures on blocks of papers and read piles of letters.

Jury Acquits Mayor of Fraud Charge

INDIANAPOLIS, Ind., Oct. 14 .- Mayor INDIANAPOLIS, Ind., Oct. A.-Mayor Joseph E. Bell was acquitted of the charge of conspiracy to commit felonies in conection with the primary and elec-tion of 1914. The jury which brought in the verdict was out less than two hours. Shouts and applause greeted the verdict to the converded constromm and was taken in the crowded courtoom and was taken up by the throng in the corridors. A line was then formed, and Mayor Bell was forced to shake hands with hundreds of his admirers.

WALLY SCHANG WEDS MISS MARY E. AUBREY

Athletics' Catcher Signs Life Contract in Matrimonial League

Wally Schang today signed a life con-tract in a league new to him. It's the "Matrimonial League," which gets many fans and players alike, sooner or later. At 3:30 o'clock this afternoon the Atthatic' source extense and outfielder Athietics' Athletics' young catcher and outfielder married Miss Marie Elizabeth Aubrey, whom he met last spring. The ceremony took place in St. Columba's Church, 24th street and Lehigh avenue, and was per formed by the Rev. Father Walter P.

The couple applied for their wedding license yesterday, Wallie giving his full name as Walter Henry Schang. He is 25 years old and lives at 2730 North 19th street. Miss Aubrey, who is 19 years old. lives at the same address. Her family formed by lived at Shamokin Pa but formerly lived at Shamokin, Pa., but moved to this city eight years ago. Be-cause of the fact that Miss Aubrey is figures this year show a gain of more a minor it was necessary for her mother, Mrs. William V. Aubrey, to give her con-sent to the wedding. than \$7,000,000 over the first nine months

of last year. Bobble Schang attended his brother us best man, and Miss May Brennan, of Shamokin, was the bride's maid of honor. After the ceremony the couple \$50,585,416, and for last year, \$44,516,804. The import figures are \$81,947,123 for 1915 and \$74,019,466 for the corresponding honor. After the ceremony the couple had their pictures taken, and then went to the bride's home whore a reception will be held tonight. The Athletics play-ers will be present in full uniform. After the reception. Mr. and Mrs. Schang will leave for a trip to the Pacific coast, where Wally will join the All-American Pacaball (Jub leter. period of 1914. enormous quantity of cereals, auto-mebiles, war supplies and coal that were shipped. Imports were increased by the heavy arrival of crude oil, iron ore and

of Kitka, in the Goljak Mountains, 25 miles west of the main Servian railway and 55 miles southwest of Nish.

This news indicates that the entire Serian army has been trapped by the Aus-rian, German and Bulgarian armies cooperating in a reneral campaign. Loss of the rallway line will prevent the An-glo-French expeditin landed at Salonica from helping the Servians, its sole route of advance toward the north having been taken away.

Austria also claims successes in its on rations against the Servians.

According to a dispatch from Athens, the first detachment of the Allies "has arrived in Macedonia."

arrived in Macedonia." This report is unintelligible on account of the vagueness of localization. Allies' troops have been disembarking for a fortnight at Salonica, the port of Greek Macedonia on the Aegreen Sea. Dispatches from the scene of activity have credited the expeditionary forces with marked advance northwest through the consid-erable stretch of Macedonian territory toward Servia. One report had the van-guard on the Serb frontier, and another from a different source announced that a large force had reached Gvegheli, 30 miles within Servia. miles within Servia.

The Bulgarian claim that they had cut the Nish-Salonica railway was re-ceived with doubt by British military ex-perts, who asserted that an advance of 50 miles in three days in the face of resistance by the Servians would be a obviced impossibility for any army physical impossibility for any army.

Because of Greece's refusal to help Servia against Bulgaria, Servia was ar-ranging today to publish the Servian-Greek treaty of alliance, and to hay all documents connected with it before the Allies and neutrals, in support of the charge that Greece has broken her word, on Athens diseatch and an Athens dispatch said.

Another Athens dispatch said, that though Servian official reports declare the Bulgarian invasion was repulsed, Nish advices today admitted prepara-tions had been completed for defending the threatened city against the invaders.

By a Turco-Bulgarian agreement just signed, Turkey places her munitions plants and two army corps at Bulgaria's disposal, and Bulgaria will furnish Turdisposal, and Bulgaria will furnish Tur-key with coal and other material and open her Black Sea harbors to Turkish warships, said a semiofficial announce-ment in the Berlin Lokal Anzeiger today. According to a Bucharest story, Bul-garian cavalry and German and Austrian troops were concentrated today at Vidin, on the Bulgarian bank of the Danube, op-posite Rumania, apparently ready for an offensive or defensive against Rumania, or possibly to meet Russian forces report-ed on their way across Rumania to help the Servians.
