

NEW JERSEY MEN LOOK FOR VICTORY

Majority of 10,000 for Suffrage South of Trenton Is Expected. 15,000 NORTH OF CAPITAL

Optimistic Outlook of New Jersey Suffrage Leader

The woman's enfranchisement amendment, to be voted on October 18, will win without the shadow of a doubt. There will be, as shown by the results of a minute canvass of the 12 counties, a majority of 10,000 south of Trenton in favor of the amendment.

Reckoning up the results of a minute canvass of the State, Mrs. Lillian F. Peickert, president of the Woman Suffrage Association, declared that New Jersey would go on record for votes for women with a 25,000 majority and that 15,000 counties would come out strongly for the amendment.

Chances to detect repeaters, will be used by watchers at the polls, after the example set by the women of Terre Haute in securing evidence of fraudulent voting. Detectives will be placed in all the suspected districts and the watchers—the first time that watchers at New Jersey polls have ever included women—have been instructed to keep a sharp lookout for any business that may interfere with honest ballot-casting.

"It will be particularly easy," said Mrs. Peickert, "to detect repeaters at this election because it is possible for a man to register and vote on the same day. This makes colonizing difficult to detect, and we have every reason to believe that the interests against us will not hesitate to bring large crews of men from the disreputable lodging houses of New York and Philadelphia to vote in New Jersey just for election day and use them to defeat us."

"We shall be ready for them, and no man is going to be left unreturned to have this an honest election. Our men's league will be on duty all day, supplemented by the women watchers, and just as soon as repeating or colonizing is detected there will be arrests."

"I have it from a reliable source," Mrs. Peickert continued, "that the meeting of Passaic met in Paterson yesterday and decided to take strenuous action against us not only in these few days preceding the election, but also to have workers stationed near the polls to electioneer against the amendment. But we are going to win, despite this opposition."

According to Peickert, the only man of power to come out in the open and express active opposition to the cause has been "Boss Jim" R. Nugent, of Essex County. The Essex County committee virtually one-fifth of the vote of the State makes this opposition serious, the suffrage leader realizes, but it is thought that the women watchers, and just as soon as declaring in favor of suffrage and the announcement of his intention to vote "yes" on the amendment, more than overbalance Nugent's influence in his own stronghold.

The action of the clergymen of all denominations of Newark in organizing a church committee on suffrage, which pledged itself to hold meetings in churches and to talk suffrage principles from the pulpits, has delighted the suffragists and is expected to go a long way in eradicating the Nuzent influence in his own stronghold.

THE BALLOT TO HELP MEN IN REMEDYING SOCIAL EVILS. They are already doing a great deal of good work in juvenile courts, as probation officers and also as settlement workers.

Prominent Republicans of Camden disagree with the suffragists as to the outcome of the election. A few of them expressed the belief that the suffrage amendment would be defeated by 10,000 votes.

Chairman Harry Reeves, of the Republican County Executive Committee, said the situation was indefinite, and that he did not have a great sentiment in favor of giving women the right to vote. Statistics collected by Mrs. Lulu Reed, president of the Camden Anti-Suffrage League, warrant the belief, she said, that woman suffrage will be defeated in New Jersey by a most satisfactory majority.

Attorney Samuel T. French, chairman of the Democratic County Executive Committee, said that the best sentiment in favor of women voting, because of the attitude of the liquor interests, and he expressed the belief that the suffrage amendment would win.

Atlantic County Expected to Indorse Suffrage Amendment. ATLANTIC CITY, Oct. 15.—Suffrage leaders today, in the continued absence of any orders from the Republican city machine to turn in against the proposition, are confident the cause will win in Atlantic City and county next Tuesday.

Ocean County, it is said, probably will go against the "cause," but the difference will be small. The suffragists are counting upon the whole of the church vote, all of the labor vote and half of the organization vote, with substantial help from the army of colored voters.

Hunterdon and Somerset Counties Favor "Votes for Women". TRENTON, N. J., Oct. 15.—In Mercer County the suffrage campaign which has been bitterly waged on both sides, is rapidly nearing a close. Pro-suffrage and anti-suffrage forces are confident that the county and State will support them at next Tuesday's election.

WILL WIN IN BURLINGTON. Sweeping Victory for Suffrage Amendment in County Predicted. BURLINGTON, N. J., Oct. 15.—Woman suffrage will carry Burlington County by a substantial majority. This is the prediction of leaders of all political parties after a survey of the situation during the closing weeks of the campaign.

HOPEFUL FOR AMENDMENT. "Votes for Women" Advocates in North Jersey See Success. NEWARK, N. J., Oct. 15.—"Hopeful and doubtful" sums up the expressed attitude of the woman suffrage advocates of New Jersey regarding the outcome of the special election on the "votes for women" amendment next Tuesday.

CAMDEN SUFFRAGISTS SEE VICTORY FOR "CAUSE". Complete Confidence Felt in Triumph at Election Next Tuesday. The suffragists of Camden are confident that the "cause" will be victorious at the special election next Tuesday. A canvass of the State indicates it is sure to pass.

MRS. GALT PREPARING OWN MARRIAGE GOWN, WASHINGTON REPORT

ITALIAN OFFENSIVE UNBROKEN; CADORNA CONTINUES ADVANCE

Commander Maintains Early Initiative and Is Pushing Forward His Troops in Enveloping Maneuver Against Austrian Strongholds. By BERTO DI BRABALLA. GORIZIA CAMPAIGN NOT AT STANDSTILL. AVVOLGENDO GORIZIA.

There is a widespread belief among foreign, and particularly American, observers of the war in Europe, that the Italian offensive against Austria, which was so swift and successful in the first stage of the campaign, has come to a deadlock. Some critics go even as far as to assert that it has been broken altogether. This belief is quite wrong, as it is based on an incomplete and very superficial knowledge of the geographical and topographical aspect of the country over which the Italians are still carrying on their offensive movements.

It is a well-known fact that the Italian offensive against Austria, which was so swift and successful in the first stage of the campaign, has come to a deadlock. Some critics go even as far as to assert that it has been broken altogether. This belief is quite wrong, as it is based on an incomplete and very superficial knowledge of the geographical and topographical aspect of the country over which the Italians are still carrying on their offensive movements.

ITALIA MANDERA' LE SUE TRUPPE CONTRO I BULGARI OD I TURCHI

Sembra Che il Governo di Roma Voglia Evitare di Venire a Conflitto Diretto Con la Germania. ROMA, 15 Ottobre. Ieri il generale Zupelli, ministro della Guerra, parti da Roma alla volta di fronte di battaglia per conferire con re e con il generale Cadorna. In alcuni circoli si dice che la visita del generale Zupelli al quartiere generale italiano è stata probabilmente determinata dalla situazione balcanica e dalla possibilità dell'intervento armato dell'Italia nel nuovo teatro della guerra europea.

La questione dell'intervento dell'Italia nel nuovo teatro della guerra europea. Un telegramma da Londra dice che la partecipazione dell'Italia alla difesa della Serbia contro la coalizione tedesca è ormai assicurata. Il telegramma da Londra dice che nel caso dell'Italia vi è da considerare il fatto speciale delle relazioni italo-tedesche, giacché nominalmente Italia e Germania sono in pace nonostante la guerra italo-austriaca. Questa difficoltà sarà probabilmente superata con l'invio di truppe italiane nella Penisola Balcanica o contro la Bulgaria o contro la Turchia, ed in tal modo l'Italia non verria in diretto conflitto con la Germania.
