# DIRECTOR LOEB WILL ISSUE REPLY ON COAL ACCUSATION TONIGHT

Head of Supplies Department Ready to Disprove Completely Charge of Republican Ex-Assistant

WILL GIVE FULL DATA

Documentary evidence that the Department of Supplies has not been acepting inferior coal, as was charged by Joseph S. McLaughlin, ex-assistant di-Joseph S. Acceptance of the department, was inid before Mayor Blankenburg today, at a two-hour conference in his office at City Hall. Director of Supplies Herman Loeb said after the conference that he will issue a voluminous statement in reply to McLaughlin's charges by tonight.

Those attending the conference, in addition to Director Loeb and the Mayor, were Assistant Director Murphy, Inspector Thomas F. Boland, Chief Pike, of the Electrical Bureau; Superintendent

the Electrical Bureau: Superintendent Seitzer, of the Philadelphia General Hospital, and the Mayor's secretary.

"I intend to make public the facts relating to the purchase of coal by the city," said Director Loeb. "I am preparing a statement. It will be a voluminous one. I will go into the matter in detail. It will not be ready for pub-

frication before this evening."
This statement and the information that the Mayor had been fully satisfied shout the coal purchases by the depart-ment were the only things given out after the conference. It was said, how-ever, that the flat denial made by the Director last night still stands. It will

Director last night still stands. It will be made stronger in his statement.

Director Loeb had intended to leave the city today, to return Monday. He also had intended to defer his public statement until that time. Mayor Blankenburg, however, caused him to change his pians. The Mayor reached his office ariy and started an immediate investigation, summoning the Director, his assistant and the others to a special consistant and the others to a special con-ference. It is understood that the final evidence of the records was gone over

evidence of the records was gone over thoroughly at this meeting. McLaughlin, who is at present the at-torney for the Republican City Commit-tee, at a meeting held last night in the a A Garfield Club. 3d street below Girard avenue, read what purported to be an affidavit signed by Joseph D. Barker, chief engineer in the Bureau of Charities, in which it was charged that for several months coal supplied to the Philadelphia General Hospital was inferior to that stipulated in the contracts, while payments were made for a higher priced

A previous statement by Director Loeb This charge is ridiculous and is very

far-fetched. No warrants were signed by me at any time which were not ap-proved by the heads of the departments or those in authority to O. K. bills. "The Rogers-Corr Company, the lowest

Moder for the contracts in question, was penalized whenever the coal averaged uner the standard set by the specifications. Several tests were made by different out-side experts, as well as the city chemists, and all of them are on record in City Hall and may be examined there.

"Also the railroad manifests, car num-bers and mine tickets, and everything in pnection with the mining and delivery of the coal is on file in my office or with the chiefs of the various bureaus.

"This man Barker, the engineer at the Philadelphia Hospital, has on several oc-casions displayed an overzeal for certain trademarked articles and fittings, etc., which tended toward favoritism to certain contractors, and I was compelled to ad-monish him severely."

One Woman Participant Held in Bail to Keep the Peace

A little neighborly controversy that has been waging across the fence which separates the houses at 197-109 Mechan ave nuc. Mount Airy, was aired in Magistrate Pennock's office today by the participants, when Mrs. Nellie Trumbar, of 197, caused the arrest of Mrs. Annie Kennedy, of 100.

She also prematurely seasoned the tomatoes Mrs. Trumbar was growing in her backyard, Mrs. Trumbar sald, by putting salt on the vegetables as they grew. The offense which finally led to the arrest is the alleged attack by Mrs. Kennedy on her neighbor "with a wee bit of a stick." All of these improvements are completed and "not promised."

Already during this short first season sales have been consummated (including thirty building sites) aggregating

Contracts have just been let for five more artistic houses, two English and three Colonial, which will be completed shortly after Christmas; more will follow. Any one who may be interested in purchasing one of these beautiful homes should watch the construction as it progresses, and thus KNOW how substantial they are.

Many customers who have purchased building sites are preparing to build attractive houses costing from \$4500 to \$9000. This company facilitates the building of homes by advancing unusually liberal amounts on mortgages to purchasers who make arrangements at time of purchase.
