ATLANTIC CITY, Oct. 29.

" A FRIEND of the family told me be-A fore I came down here that my hooks and slices would put me out of the running first thing," said one of the golf-ers waiting to tey off yesterday at Allan-

tic City. "He and the ocean lapped the bounda-ries of the course all around. Looks to ries of the course all around. Looks to me like it would take a healthy shot to land in the ocean." This statement did not sound unrea-sonable, as the ocean is about half a mile away, though visible. "That shot an't hard," sneered a caddy, "I seen a guy make it with a mashie." There have been some fine golf days this searon, but for clear, sparkling atmosphere yesterday stands out.

The last hole was the Waterloo of more than one player yesterday. Heston Bates led the "grand" scores for the hole with 'Grand, old" Ben Tillinghast went in the 18th falrway.

FTHERE is a feeling of optimism in Eas- | at tackle. Maxfield returning from the injured list was placed at the other tackle Gulick who had played tackle in most of ton these days and it is predicted on all sides that Lafayette will sive Penn the games in which he had a part. was the hardest game of the year in the anthe gimes in which he had a part, was moved in a notch to the guard and Livezey also a tackle, was given the other position. In this way Luhr, captain of the team, is the only man in the line who will start the same tomorrow in the nual clash on Franklin Field tomorrow. The football team has found itself at last, dragged itself out of the rut and now is on the road to improvement. The backfield is more snanpy and speedy than ever before and the plays are run off without a hitch. The linemen are playing as if they know how and their work is highly satisfactory to the coaches. In all, the Maroon and White looks like an entirely different team as compared with that of a week ago and the change has been so great that the good cilizens of Easton have a perfect right to become highly enthusiastic. But the improvement is not all in the line. Conch Crowell in preparing for the game with Penn has developed a lot of new plays and the old ones have been so changed that even the closest observers will not recognize them. Scott has been restored to his place at halfnack. Lake has recovered from his injuries and is noing better than at any time this year. Weldon, the most valuable man on the team, has a lot of plays that are par-cliularly to his liking and sollity. The quarterback position will be admirably filled, no matter whether Coach Crowell selects Taylor or Lerch at the last mo-ment In the game against Delaware a week

In the game against Delaware a week ago the Lafaystie players put up a miser-able game. The line was a sad affair, and the backs were not protected when they ran with the ball. There was a big improvement in team play in the Albright game Saturday, and a decided change was noted in the practice yester-day. It really looks as if Lafayette has "come back," and there is no doubt but that it wil give Fennsylvania a stiff struggle in tomorrow's matinee. Two weeks ago the Eastonians suffered ment. With all this improvement the spirit of optimism has grown into the student body. There have been daily drills in the cheers and the songs. Practically the

ber of years has been one of the unstitute features of this Penn-Lafayette game, will accompany the team. Tonight the team will be given a grand send off in a smoker which will be held in Brainard Hall. There will be speeches by players who have helped to beat Penn in years gone by.

There are many reasons why the game with Penn is of peculiar interest this year. The most important of these is To bolster up this glaring weakness, Harold Ballin, last year's captain at Princeton and All-American tackle, was that the material in the Lafsyette squad was touted as the best that has come to Lafayette in a single class for a decade.
