MARNE SHELL SALE WILL ADD BIG ITEM TO HOSPITAL FUND

Missile Picked Up by Evening Ledger Correspondent on Famous Battlefield Expected to Bring Large Sum

LAST DAY OF CAMPAIGN

Entire Fund of \$500,000 Will Be Realized by Tonight, Is Prediction

When the sale of the German shell picked up on the battlefield of the Marne by Eilen Adalr, war correspondent of the Evenino Leiden, is started with Dr. Robert Le Conte's bid of \$450 in aid of the Children's Hospital fund, at the closing banquet in the Hotel Adelphia tonight, it will bring, it was said by members of the Campaign Committee today, from \$5000 to \$10,000. Many inquiries were made regarding this shell at the Adelphia last night, and interest in it is keener than any particular thing offered for sale in aid of the \$500,000 fund for the poor sick children of Philadelphia.

In addition to Miss Adair's shell and \$1.50 in rare United States gold coins that will also be sold, an attractive doll, which has been given the name of "Miss Nurse," because it was made by nurses in the present hospital on Ed street near Walnut, will be knocked down to the highest bidder. E. T. Stotesbury, chairman of the Campaign Committee, and who has given the largest individual donation. \$30.000, to the fund, will be the auctioneer.

Contributions for the 21 hours which ended today at moon were \$24,542.13, bringing the total to \$252,788.86. This total is mearly equal to the sum that the hospital has received in donations in the last three years. Many interesting auctions will be held tonight. Warden McKenty sent down an inlaid malogany sewing table and tea tray, made by prisoners in the Eastern Penitentiary, to be knocked down to the highest bidder.

The high figure for today was made by the team led by Charles W. Churchman-19,417. This team has brought in more than \$25,000 in the last two days. Doctor Gittings and Doctor Hand reported that their team had received a check for \$1000 from Mr. and Mrs. George W. Childs Drexel. The Ladies Executive Committee received \$1000 from Mr. and Mrs. Eldredge lobuses.

A donation of \$5 was made by two poor hard-working hoys who had been patients at the Children's Hospital and felt grateful for the treatment they had received. W. H. Donner, president of the Cambria Steel Company, sent \$500.

The reports of the various teams today, designated by the names of their captains, follow:

RIGHT TO PASS ON CONTRACTS

Williamsport Men Seek to Have Approval Clause Set Aside

HARRISBURG, Oct. 28.—Abraham Fischer, H. T. Ames and M. G. Rhone, of Williamsport, today brought suit in the Dauphin County courts for a decree declaring that clause of the public service act of 1913 governing the approval of municipal contracts null and void. The effect of this is to attack the right of the Public Service Commission to pass upon contracts between municipalities or individuals or corporations furnishing public service of any kind.

The suit grows out of a contract between the Lycoming-Edison Company and the city of Williamsport for lighting of the city streets, following the decision of the commission some time ago, setting aside a contract between the Citizen's Electric Company and the city and directing that the bids be readvertised, the Lycoming-Edison Company being low bidder as a result. The plaintiffs ask that the commission be enjoined from taking action on the contract.

TOOTHLESS WHISTLER ESCAPES \$5 FINE

Neighbors Complain of His Constant Warbling, but Judge Cancels Penalty

A toothless man whose neighbors say he whistled away the value of property, deprived people of fresh air, caused insomnia, general constornation and finally legal proceedings was the centre of criticism today before Judge Barratt in Quarter Sessions Court. He is Fletchet Dummer, but he proved that he was brighter than his name by convincing the Judge that a \$5 fine imposed upon him should be removed.

Dummer lives at 1965 North 19th street. He contended that "warbling," on which charge he was arrested, did not come within the scope of the act of 1965, which provides a fine for those who commit a nuisance on the public highway.

Landlords said that they could not get tenants to remain in the neighborhood on account of Dummer's whistling, and Harry Levaine, formerly of 1983 North 19th street, said he had to move on ac-

count of the whistler, and that others threatened to do the same.

Many of those who objected to the removal of the fine declared that when Dummer wasn't whistling he was making a noise like a phonograph and an automobile or samething else. The noise kept them awake, they declared, and on warm nights they had to suffer from the heat in order to escape the potpourst which poured from the house of Dummer.

Although Dummer contented that he

poured from the house of Dummer.

Although Dummer contended that he had no testh and couldn't whistle, the complainants said the absence of molars did not affect him, and that he didn't stop whistling long enough to eat.

The Judge said the only remedy was to have the man rearrested and tried before a jury. He removed the fine.

Administration of Estates

A Trust Company is in many ways superior to any individual who might be named as executor of your will, for it combines in itself all of the qualities essential to the performance of the duties required.

Complete equipment and systematic methods enable it to handle all details of management promptly and accurately.

Experience in the handling of trust estates assures proper attention to legal requirements and careful investment of trust funds.

Perpetual charter makes certain an uninterrupted administration of the estate until final settlement.

Organized in 1869, this Company has always made a specialty of the administration of estates, whether large or small.

We invite those contemplating the preparation of wills to call upon our officials and obtain the benefits of their experience.

If we are to be your executor, we draw the will free of charge, and hold it subject to your order.

MOMENT OF FRICTION IN MOTHERS' CONGRESS P. R. PLACES \$7,000,0000 ORDER FOR NEW EQUIPMENT Baldwin Works to Build 75 Locomo-

Dispute Adjusted by Tactful Suggestion of Mrs. Schoff, of Philadelphia

PITTSBURGH, Oct. 2.—This morning's session of the third day's proceedings of the Congress of Mothers and Parent-Teacher Association developed a rupture that threatened for a time to bring the conference to a close in a rather abrupt manner. It arose out of the fact that the members of the child welfare circles, who have been members of the conference by cirtue of their work in child uplift, were charged by members of another branch of the convention, the Paront-Teachers' Association, with usurping their scope of work and going into their territory.

territory.

A charge was made that the Child Welfare Circle was organized in the interests of a certain book concorn for the sale of books relating to the work, and no member could be enrolled unless she hought one of these books. The Congress of Mothers delegates were nonplused for a while how to handle the situation, and Mrs. Johnson, who was presiding, had to rap for order many times before she could get the convention down to a working arrangement.

Finally Mrs. Frederic Schoff, of Philadelphia, president of the National Congress of Mothers, brought order out of chaos by stating that both sides of the controversy were entitled to membership in the big organization, and were also entitled to any field of action they saw fit.

in the dig of sanisation, and were also entitled to any field of action they saw fit. The child welfare faction then proceeded to show their strength in the convention by electing Mrs. Eliza Q. Fothergill, of Pittsburgh, the first member and organizer of the child welfare work in Western Pennsylvania, president of the Pennsylvania Congress of Mothers, after which several delegates of the Parent-Teachers' Association left the hall.

The convention ended this afternoon, when Mrs. Fothergill, the new president,
