First-Aid Methods Applied to Would-Be Suicide by Gas Prove Successful

Pirat-aid measures, applied by two pelicemen, saved the life of a woman who attempted suicide today. The woman is Mrs. Pauline Pauzok. 36 years old. Her husband is employed at night. When he returned from work to his home, at 345 North American street, at 3 o'clock this morning, he found his wife in the this morning, he found his wife in the bedroom unconscious and with a gas tube in her mouth. He notified the police of the Front and Master streets station by telephone and a patrol wagon, manned by Sergeant Plusfelder and Patrolman Richter, responded to the call.

When they lifted the waman into the patrol they resorted to means of artificial respiration. The woman became conscious as she was taken into the Roosevelt Hospital. Doctor Boston, a member of the medical staff, attributed the woman's recovery to the timely action of the policemen. With these words Dr. Moses Stearn, whose invitation to join the Ford peace expedition was later canceled, reluctantly jumped off a special New York train as it was about to pull out of the Broad Street Station today. The doctor, who is deeply grieved at the sudden turn of his fate, had decided to get on the ark Oscar II until he learned that the cost of a special train to New York was \$180. He wired to Mr. Ford to send on the money and at last accounts was waiting at the station for the answer.

'DOC" STEARN WIRES FORD TO HOLD SHIP AND SEND HIM \$180

Doctor Telegraphs Auto Man for Cash So That He Can Catch Ark of Peace Before She Sails

Dr. Moses Stearn is waiting impatiently at Broad Street Station for Henry Ford to wire \$180 for a special train. When he does, Doctor Stearn will climb aboard and the engineer will smash all speed records to carry him to New York in time to catch the Oscar II, the ark of peace, and sail for Europe with the Ford earty. Doctor Stearn got it all fixed up shortly after 12 o'clock today, after missing the acon train by seven seconds, due to the traffic "cops" in Market street. He sent the following telegram to Mr.

On board Oscar II, Hoboken, N. J.: Hold Oscar II and wire station mas-ter Penusylvania Railroad, Philadel-phia \$180 for special train and I will you at once. Answer imme-

At first he would not believe that the tail of a coach he saw swing out in the yard beyond Broad Street Station was the noon train for New York. With his suitcase in one hand and a pasteboard box containing two dozen pairs of knitted silk socks, in the other, he dashed madly up and down the

platform. Finally he spied a train. It was standing still and not doing anything. Like a flash Doctor Stearn shouted 'Good-by, Philadelphia,' and rushed for the steps of the train. Just as he reached for the handrail a trainman slammed the door. The photographer caught the doctor standing on the step.

With considerable difficulty the doctor as persuaded that the train to which he was hanging was destined for Paoli. It was explained to him that Paoli is on the Main Line, not even remotely at-tached to New York or Hoboken, that it is not a scaport and therefore provides no thoroughfare to the Oscar II.

Dr. Stearn then mopped his brow with a red handanna handkerchief, and suddenly thought of the station master.

"A special train," said he. The doctor found the station master in his office.

"How much for a special train to New York" he asked, "I've got to catch the Oscar II." The official called up several other offi-ials and learned that the trick could be
