RECESS OF CONGRESS GIVEN TO PREPARATION OF MANY MEASURES

Arrangement of Committees Occupies Important Place in Tasks Before Nation's Solons

GALLINGER SEES WILSON

WASHINGTON, Dec. 8.—The pre-timinaries over, Congress is recessing to-day and tomorrow to pull itself together for real business. The two days of the recess, are being filled with the prepara-tion of drafts of measures suggested by the President in his message yesterday and in the final arrangement of the various committees in both houses which are to handle those measures after their introduction.

are to handle these measures after their introduction.

President Wilson today was informed that Senate Republicans would not fight his preparedness progra mif it were kept and of caucus. Senator Gallinger, one of the two Republican leaders whom the President had asked for a conference, taked with him for nearly half an hour. Friday promises to be a big day in both wings of the Capitol. It is not yet a certainty that the preparedness bills advocated by the Administration will be ready for introduction when Congress reconvenes, but much interest centres about the battle which Senator Hoke Smith, of Georgia, promises to open against the the battle which Senator Hoke Smith, of Georgia, promises to open against the British blockade of neutral ports in northern Europe. Smith has prepared a lengthy speech reviewing the British policy toward American commerce since the outbreak of the war and warning England, in substance, that the United States will resort to the most vigorous retailatory measures to maintain its rights ween the seas against British interfer-

The Senate committee assignments are The Senate committee assignments are to be announced Thursday. It is understood that Oscar Underwood, ex-majority leader in the House, has declined a place on the Senate Finance Committee, and that his most important assignment will be on the Appropriations Committee. Keen competition for the few Republican vacancies on the 12 big committees of the House may prevent committee assignments being announced this week. Minority Leader Mann is making every effort to finish the assignments, so that

effort to finish the assignments, so that the business of the House may proceed.

ROOSEVELT ASSAILS WILSON'S MESSAGE

Continued from Page One

elocution and Mr. Wilson's action are in flat contradiction. His elecution is that of a Byzantine Logothete—and Byzantine

of a Byzantae Louis men of action.

"President Wilson says that we have been put to the test in the case of Mexico and have supplied a 'heroic principle to the case of Mexico.' Of all possible adjectives that could be found in the English of the most minute search. Ish language by the most minute search on the part of the most subtle dialectician, it would not be possible to find one more inappropriate to the Administration's course in Mexico than the adjective 'heroic.' The President has eaten his words and recognized Carranza.

PREPAREDNESS.

"President Wilson advocates as necessary certain propositions for putting this country in a state of preparedness. In his message one year ago he said such propositions were hysterical and improper, am gind that he has chapted his mind. propositions were hysterical and improper, am gind that he has changed his mind.
"The proposal to purchase ships by the National Government is a proposal to pre-trat private business undertaking the permanent revival of the American shipping trade.

The President fails to make a single constructive recommendation as regards industry. The most noteworthy part of the message is that which says the grav-est threats against our national safety from citizens of the United States born under other flags. In this he is cor-

"He states that we are without adequate laws to deal with the situation. If he should tell us exactly what he wishes

in order to get the adequate power.
"As a matter of fact, Mr. Wilson is himself responsible for most of the conditions of which he complains. He has met a policy of blood and iron with a policy of milk and water."

dent Wilson contemplates Germany's career of treachery and torture."

The Westminster Gazette issues an "appeal, saying: 'We appeal to the American people, that, if they are unable to help us by positive assistance, not to hinder us by asserting neutral rights of commercial interests to the prejudice of our naval power."

The Globe, alone of all the London powers the present asserting the second of the se

Ine Globe, alone of all the London newspapers, today professed to see possi-ble canger for other world powers in President Wilson's demand on Congress yesterday for increases in the American Army and Navy.

"It will strike every one," said the Globe, "as significant, even eminous, that the message was so insistent upon the necessity of adequate provision for na-tional defense."

The afternoon papers voiced editorial

approval of President Wilson's attack on "hyphenates," but certain newspapers took the President to task for remaining silent regarding Germany's alleged policy of frightfulness.

The Dully News says "I is doubtful whether the Monroe Doctrine will ever be tenable again, experience having shown that the United States can no longer role on silling the states.

longer rely on political isolation founded on geographical detachment, which has largely lost its meaning."

largely lost its meaning."

The Daily News argues that it is only the British navy which today stands in effective defense of the Monroe Doctrine and that "If Germany were victorious in this war the United States" guarantees of the independence of the States of South American would not be worth the paper on which that doctrine is written."

The Daily Chronicle says: "After the amazing revelation of German machinations, one would be surprised if the United tions, one would be surprised if the United States tolerated the present condition of thirgs much longer. It would be strange if the American people did not insist on strong measures to restore security of life and property."

NATION'S NEWSPAPERS COMMENT FAVORABLY

Comments of newspapers in New York the seas against British interfer- and other cities on the President's mes-

sage to Congress follow NEW YORK STAATS-ZEITUNG

NEW YORK STAATS-ZEITUNG
The President demands new laws so
as to apply them in these mysterious
cases; so that suspicion, insinuations
and denunciation may be given the
character of evidence for convictions.
And that is a presidential message to
Congress! A document more shameless than this is not recorded in the
annals of American history.

NEW YORK TIMES Confirming and continuing the traditions of a century, the President's ad-dress to Congress reflects his and the people's vision of the great destiny of the nation and embodies him and their sense of the duty to erect safeguards against perils without and within. No message or address to Congress since that memorable utterance in which Pregident Monroe proclaimed the doc-trine which President Cleveland threequarters of a century later declared to be "applicable to every stage of our national existence" has been exclusively devoted to the greater problems of the nation, the problem of assuring its growth with peace, with safety and with honor. Within the scope of the President's vision lie not merely the immediate and pressing questions of the day, but those of coming and far off years.

NEW YORK WORLD

No other part of that address was so momentous as those paragraphs in which the President asserted that "the gravest threats against our peace and safety have been uttered within our own borders." To deal with this issue of sedition is thebeginning of national defense. Neither armles nor navies can offer security to a nation if its own offer security to a nation if its own population is honeycombed with dis-loyalty, and if allegiance to the Con-stitution is a lying and fraudulent allegiance. NEW YORK SUN

Even with the new light that has come to his discerning vision, even with the consciousness of an approaching presidential election in which an obstinate resistance to the will of the people would mean certain political disaster, it cannot have been an easy thing for Mr. Wilson to have written the advisor to the progression of the people would mean certain political disaster, it cannot have been an easy thing for Mr. Wilson to have written the advised to the progression of the progre mirable paragraphs urging provision for a more adequate defense. Let the great credit that is his just due for this manly retraction be awarded to the

NEW YORK TRIBUNE The new Wilson message holds out little light to Congress or the country. The President is a follower, not a leader in the matter of military prep aration. Congress should take up the task where he has left it, and try to rise to the full height of a great duty— that of adequately forearming the

VANDERLIP IN STEEL MERGER

Control of Cambria and Replogle Syndicate Shares Will Be Vested in Financier's Hands, Says Report

Frank A. Vanderlip, president of the National City Bank of New York, is re-ported to be the person in whom control of upwards of 450,000 shares of Cambria Steel Company and 240,000 shares of the Replogie syndicate will be vested before the end of the week as the first move in the formation of a huge steel merger.

The persistency of the rumors relative to the new combine has given them weight in financial circles and brisk sales of Cambria Steel on the Philadelphia Ex-

BIG NAVY MAN', 'LITTLE NAVY MAN'S SON', HEARS MESSAGE

Four-Year-Old Walter Hensley, Jr., Sits on Pa's Knee

By a Staf Correspondent
WASHINGTON, Dec. 8.—Walter Hensley, Jr., is a "big navy" man, even
though his father is recognized as the
leader of the "little navy" men in the
House. Young Walter sat on his father's

lap and listened to President Wilson read his measage, advocating material increases in the army and navy yesterday. When the President finished reading his "catalogue of shipa" in the fiveyear building program for the navy, 4-year-old Walter applauded.

Walter's cider brother was a page in the House last year, but during the campaign last fall he went to all the neighbors and urged them to vote against his father. His campaign was made, he explained, because he would rather live at home in Missouri than in Washington.

You will find that the care we take to preserve your linens and our prompt service are as desirable factors as the superior appearance we impart to all we do.

Neptune Laundry 1501 Columbia Ave. "Thy not have the best ?"

The Dalton easily maintains its supremacy even when operated by the old style "sight" method. But speed, after all, is only relative, and the Dalton's lead is but a matter of per cent. There is a field, however, in which percentages cannot apply—where there is no "second best." In this field the Dalton is a pioneer, having blazed out and preempted a domain of its own where competition cannot follow.

The small, compact keyboard of the Dalton enables the operator to learn the location of the keys so perfectly that it soon becomes unnecessary to look at them at all, the eyes thus never having to look away from the list of figures being copied. This is the famous

Touch Operation

The practical value of touch operation of the adding machine cannot be easily exaggerated.

Touch Operation increases the speed of an adding machine from 25 to 80%, owing to the particular kind of work in hand.

Touch Operation decreases the liability to commit error by depressing the wrong key even in greater proportion than the figures just stated.

Touch Operation permits of long continued work at top speed without that severe nervous strain invariably experienced by "sight" operators under such conditions.

Touch Operation entirely eliminates eye-strain caused by the ceaseless turning from copy to keyboard and focusing of the eyes on different colored objects at unequal distances thousands and thousands of times each day.

Touch Operation converts drudgery into pleasant routine, gives the operator a sense of mastery over the dreary humdrum of figure work and leaves him with increased time to devote to the bigger things with which he comes in daily

It is easy to learn the Touch Operation. We can bring a Dalton to your office and in a few minutes teach your own operators how to use the Touch Method. Let us show you. Send for booklet on Touch Operation. Write or telephone Today.

Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument,

N the course of an excellent article on the influence of alcoholic beverages on the human brain the Rochester Herald says:

"TOTAL abstinence propagandists have placarded various American cities with notices to the effect that 'science says' that even moderate indulgence in alcohol retards thinking for hours, and they sloganize their placards with 'safety first.'

"Now, our total abstinence friends are committing an act of intellectual dishonesty when they put out these placards, because science does not say what they assert that it says. Of course, certain men of science do, and if they were content to put the matter thus, there would be no complaint to make, but in their desire to be impressive these total abstinence advocates declare that 'science says' so, although there is no consensus among men of science in regard to what the effect of alcohol upon the human

Moderate Drinkers Live Longer Than

Total Abstainers

mind and body is, and until there is such a consensus it will be advisable for people who respect intellectual honesty to be more modest in their assertions.

ONE hears every day that even moderate drinking shortens human life, but there are men of science who believe the exact contrary to be true. One of them wrote a book only a few years ago to prove that while the total abstainers lived longer, on the average, than the immoderate drinker, the moderate drinker, on the average, lived longer than the total abstainer.

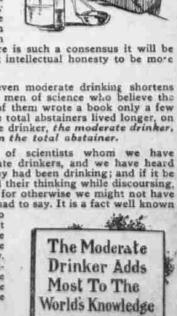

"THE overwhelming number of scientists whom we have known have been moderate drinkers, and we have heard some of their discourses after they had been drinking; and if it be true that their drinking did retard their thinking while discoursing, it was doubtless a blessed thing, for otherwise we might not have been able to take in all that they had to say. It is a fact well known

to all but total abstainers that some persons seem to be able to do better work after moderate indulgence in alcohol than without such indulgence. Addison has come down to us in history as the finest conversationalist of his time, but it is said that without the and all the products of the world's total abstainers could be put into one scale, and all the products of the world's total abstainers could be put into one scale, and all the products of the world's drinking men could be put into the other, we should be amazed at the meagerness of the total abstainers' product."

ROM the above article it is once more clearly shown that it is a FALLACY to say that the moderate indulgence in alcoholic stimulants is a deterrant to intellectual endeavor. And the best proof of this FALLACY is the FACT that many of the world's greatest thinkers have been temperate users of alcoholic
