

PHILADELPHIA FOOTBALL OFFICIALS MEET—SCHOLASTIC AND BASKETBALL COMMENT

LOCAL FOOTBALL OFFICIALS FIND FLAWS IN THE CODE

Gridiron Season Reviewed From Technical Viewpoint at Meeting in Hotel Walton—Will Make Recommendations to Rules Committee

By ROBERT W. MAXWELL

WHEN the Football Rules Committee holds its annual session in New York a few weeks hence the playing code will be closely scrutinized and many changes made in the game for 1916. Many errors and various rulings...

For the first time in history the leading football coaches and officials residing in and near Philadelphia held a post-season conference and discussed the intricate details of the game...

SEVERE PENALTY. "Now, I believe a team doing a stunt like that should be severely punished. We all know that some coaches send in a substitute early in the game with instructions to get into a fight with the best player on the opposing team..."

ROUGHING PENALTY. According to the rules, an opponent is penalized if he knocks the punter in the face, whether it is intentional or not. It is easy to give the penalty while the kicker's foot still is in the air...

FRESH-SOPH FOOTBALL GAME MAY BE LOST BY DEFAULT. Annual Penn Interclass Clash Has Been Delayed. Because the game has been delayed so long the annual football scrap between the University of Pennsylvania freshmen and sophomores is in danger of going to one class or the other by default.

MCCARTY'S SUGGESTION. Chairman McCarty brought up a question which is not covered in the rules. Rule 18, section 1, states that a ball passed out of bounds by the fullback before it touches a player on his side...

Another week was lost by inability to agree on a date, and now Franklin Field is covered with snow. Yet the Undergraduate Committee, which has sole jurisdiction over such matters, has ordered the two teams to play the game.

NEW YORK, Dec. 15.—Organized baseball today is accepting credit for a wonderful victory in bringing the Federal League to terms and ending the warfare which would have eventually ruined the great national pastime.

When the final settlement is made, and if the obstinate Dan Johnson, president of the American League, does not interfere with the program, it will be found that the main backers and principal cogs in the Federal League organization will be taken care of, while the lesser lights will receive far more than would have been their lot if the Feds had been so hopelessly beaten as one is led to believe by the reports of organized ball.

Organized ball considers it a victory, but it is not. Baseball is still in the same position where it will always be in the future. Any organization with plenty of money and nerve can follow the example of the Feds and eventually force recognition. It was forecast in the EVENING LEDGER a year ago that the Feds could not be beaten if they stuck together, and the developments at the opening session of the National League meeting proved that conclusively.

Basketball at night is popular with both the LaSalle College and St. Joseph's College teams. The LaSalle management finds that the interest on the part of the students increases when the games are played in the evening and consequently virtually all the LaSalle games are scheduled to start at 8 o'clock.

Camden High School was scheduled to open the season yesterday with the Salem High School five, but owing to poor train connections the Salem students were unable to carry out their plans and canceled the game.

NEW YORK, Dec. 15.—Organized baseball today is accepting credit for a wonderful victory in bringing the Federal League to terms and ending the warfare which would have eventually ruined the great national pastime.

Arrival of Connie Mack with Colonel Shibe, of the Athletics, preceded by an apparently authentic report that they were ready to make a deal for the disposal of Baker led to a belief that the "Home-run King" would be sold to the highest bidder.

A deal between the White Sox and the St. Louis Browns has apparently fallen through. In return for Schalk, Scott and Poirault, Manager Rowland asked for Pratt, Sisler, Koob, Shotton and Austin. Manager Hedges said: "Why don't you ask me to throw in the grandstand?"

NEW YORK, Dec. 15.—President Ebbets, of the Brooklyn club, after a consultation with his manager, has announced that the season dates are as follows: March 31 and April 1 in Washington; April 4 and 5 at Griffiths Field, Brooklyn; with New York Americans; April 7 and 8 with Boston Americans; April 10 and 11 at Ebbets Field with Philadelphia Athletics.

WOHLFARTH MAY JOIN THE CAMDEN FIVE, IS RUMOR

Owners Must First Obtain His Release From Jasper Management

MAGNATE DENIES RUMOR

Followers of the Camden Eastern League basketball five attach considerable significance to Eddie Dolan's hurried trip to Homestead last Friday, and are of the belief that the Camden center was the emissary of the club owners in an effort to sign "Dutch" Wohlfarth.

A player of the type of Wohlfarth alongside Jimmy Brown would get the Camden five out of its present slump. At present Roy Steele is the only member of the Camden quintet who can consistently emerge from a scrimmage with the ball.

Poor crowds have attended the games at the 3d Regiment Armory, but a winning team would bring out the patrons to the same number that witnessed closing games of the 1914-15 race. Samuel Herman, one of the Camden owners, declares the Wohlfarth rumor to be unfounded.

MORAN SIGNS PHILLY THREE-YEAR CONTRACT

There is abundant evidence that this is an exceptionally economical car. Owners say that the gasoline consumption is unusually low.

When they speak of tires they almost invariably report mileage records which are remarkably high. And there is a sound logical reason why the car should cost little to keep.

It is light—the actual scale weight is only 2235 pounds. This light weight is partly due to the use of well-designed steel forgings; and pressed steel parts; and the absence of heavy castings.

The all-steel body is electrically welded into a unit. This gives it that stability and rigidity which must otherwise be sought in the use of heavy parts or bracings of steel or wood.

The motor is 30-35 horsepower. The price of Touring Car or Roadster, complete, \$785 (f. o. b. Detroit). The price of the Winter Touring Car or Roadster, complete, including regular mohair top, is \$950 (f. o. b. Detroit).

THE OWEN MAGNETIC "The Car of a Thousand Speeds" THE announcement that the Owen Magnetic is to be sold in Philadelphia will appeal to those who appreciate all that is high grade in motor car construction. We fully expect to duplicate the success attained in New York, where owners will be found amongst families of social leadership, great captains of industry, bankers, and in fact among all thinking people who realize the great advances accomplished by the elimination of the objectionable gear shift and troublesome clutch, making possible a simplicity of construction, ease of operation and a wonderful flexibility hitherto unknown; furthermore, every car possesses an individuality that does away with the dull monotony of duplication. We have on view seven and five-passenger touring cars, runabouts and inside drives, and a little later we will have ready for delivery limousines and landaulets by America's leading coach builders. To insure a demonstration we ask those who are interested to kindly phone us, making an appointment. CARL H.
