Idaho's Statute Most Drastic. More Than \$2,000,000 Spent on 'Bargains' in Colorado

CHICAGO, Jan. 1.-State-wide prohibi-tion of the sale and manufacture of intox-leating liquors became effective in seven States at midnight last night, putting out of business more than 2000 saloons, a large number of breweries, wholesale liquor houses and distifieries.

houses and distinction. The States which are to enter the 'dry'' relumn are Iowa, Colorado, Oregon, Wash-ington, Idaho, Arkansas and South Caro-lina. A total of \$,000,000 people will be af-feded by the change. Many counties in all of the avera States have prohibited the sale of liquor for a number of years under local option laws.

In Colorado, District Attorneys at a re-In Colorado, District Attorneys at a re-cent meeting, agreed that technically the constitutional prohibition amendment and the enforcing statutes do not become ef-ficitive until midnight January 1, but it was also decided that the expiration of all liquor licenses at midnight tonight will render liquor sales on New Year's Day unleaved. unlawful

According to one authority between \$2,000,000 and \$3,000,000 have been expended for liquor in Colorado within the

last week. Arkansan will have its first experience with prohibition when the State-wide law passed by the last Legislature, goes into effect with the coming of the new year. The Arkansas department of the Anti-saloon League has announced that the league will have workers in the field to see that the law in enforced. Anti-pro-hibition leaders have announced that no fight will be made for the repeal of the aw, at least until prohibition has been given a thorough test.

In Jowa "bargain day sales" in the 503 anloons of the State were in progress yesterday preparatory to the final closing last night. Under the mulct law repeal passed by the last Legislature, statutory prohibition is restored, pending the action of the next Legislature and the people on the proposed amendment for prohibi-tion, which is to be disposed of within the next two years.

In Oregon the manufacture or sale of any kind of intoxicating liquor is abso-lutely prohibited by constitutional amend-Drug stores are not permitted to cell liquor for any purpose with or with-out a doctor's prescription. Idaho went dry last aight by virtue of statutory prohibition. Most of the State has been dry under local option and only about 150 saloons will be forced out of business. Idaho's prohibition law is said to be the most drastic in the Union. It not only prohibits the manufacture and sale of liquor, but makes possession of any kind of malt or spiritous liquor a crime, excepting wine for sacramental purposes and pure alcohol for medical, cientific and mechanical uses, which is recurable only on an order from the robate Court.

The South Carolina dispensary system, ader which 15 out of 44 countles operated Iquor dispensaries, ceased to exist at sundown yesterday. Under the new pro-hibition law individuals may obtain through shipment one gallon of liquor a month for personal use. Certain spirits sciences, according to an opinion by the Attorney General of the State. The State dispensary system replaced the open bar-room in South Carolina in 1892.

Naturally, the task of clearing the 1915 bistructions out of those horns made a obstructions out of those horns made a noise. But you could not hear the noise that Philadelphia was making at Broad and Chestnut. One had to walk away from the myriad lights of the City Hall, away to where the quiet streets, deserted by the centripetal throngs yawned peacefully and happy like old men who are glad to get the noisy young folk out of the way for a while. Mile after mile their emptiness told how crowded it must be in middity. There, in the quiet, one could hear Phil-adelphia at last. delphia at last.

adelphia at last. Like a human thing the great city sent its voice into the sky; one wide, deep wall of desperate hope; dike a great and noble woman calling her sons to a high enter-prise. They played on tin horns, she played on her trumpets of industry, the bellowing notes of steamships, of manu-factories. She tolled in her State House for a new liberty; while they took old liberties with cowbells.

# Facts Versus Fallacies

FACT is a real state of things. FALLACY is an apparently genuine but really illogical statement or argument.

### BEGIN the New Year right!

LET Temperance be the guiding thought-and carry the New Year resolution not only through 1916, but through all the years to come.

RE TEMPERATE! Let Thought, Speech, Action be in accord. Think kindly things-speak the kindly thought-and do the kindly act. You not only make the world better by what you, yourself, do, but your example influences others.

TEMPERANCE is Moderation, and Moderation is the precise opposite of Excess. The man of fiery, impetuous speech is intemperate-and the man who eats to excess, and is a glutton, is every whit as intemperate as the man who drinks to excess.

TEMPERANCE does not mean Prohibition-for Temperance is a self-exercised virtue whose keynote is commonsense; and Prohibition is an imposed, obligatory condition that interferes with one's personal liberty, and whose keynote is bigotry.

ET 1916 be a year of Temperance-of Moderation! For the world owes much to the man, who exercising his moral right, drinks in moderation and achieves the worthwhile things. History proves that ninety-nine one-hundredths of the big things in the world have been accomplished, not by the total abstainer, but by the man who

indulged in alcoholic beverages, but did so in a temperate, moderate way.

A ND what is true of the individual is no less true of the Nation. China and Turkey, which harbor the nations that abstain from alcoholic beverages, are further behind in achievement or in civilization than any other countries on the globe.

ET 1916 be a year of Temperance to you-of Moderation. Start the New Year right!
