

Tomorrow morning begins the last chap-ter of the most expensive and longest-drawn-out trial held in these parts-the "Banana Trust" suit, wherein the Blue-fields Steamship Company sued the United Fruit Company for \$15,000,000 damages. The case has been in the United States District Court 10 weeks. The ury was not in court today, for the "Can't you get them to play?" we asked "It's the first band we ever "Will you write stories about it?" asked the leader. We said we would.

me members of the band sang; they played on their horns in relays, so that we had a chorus, a band and a fife and drum corps going all at once. It was a natiling good tune, and, as all Zouave songs are, about the desert and Egypt and Arabs. These Zouaves in Serbia didn't sing of Germans or Austrians or Buigars, but of their enemies of other wars. A translation would go something like this

Bang! Bang! the Araba! The wolves aren't far away: Forward! hustle forward! And let your rifles play.

We gave three cheers for the band and the band gave three cheers for us; the bandmaster made us promise again that we would write a story about how his band played and then we were ordered to get back into our ambulance for the fide to Strumnitza, where we were to to warrant it in recovering damages un-der the Sherman anti-trust law. The French Zouaves have a band, and it goes with them right up to the front and it plays while they fight and while they die. There are some things a regiment won't give up, no matter what the war councils say or what the general thinks best. With the French Zouaves this thing is their band.

RETREAT ORDERED.

This was on December 2, and that morning General Sarrail, back in Salon-ica, had ordered his forces to retire. This band had marched down to Valandova from the mountains. Perhaps they didn't know their march was part of a retreat, but at the very hour they were playing and singing so blithely about the Arabs their fellow Zouaves in the mountains of Highland Park, has erected a two-family brick veneer flat building, costing approximately \$10,000, and containing billiard rooms, sun parlors, beamed cellings, tiled bathroon improvements" which some might term luxuries.

The jury was not in court today, for the seasion was given over to a legal argu-ment, in which George Wharton Pepper, speaking for the defendant, asked Judge speaking for the defendant, asked Judge Thompson to give the jury binding in-structions to render a verdict in favor of the United Fruit Company. If this is not done-and it isn't likely that after the 10 weeks of testimony the jury will be deprived of framing its own verdict-the final chapter will be begun with the arguments to the jury.

with the arguments to the Jury. These arguments will take two days, it is judged. Unless plans are changed, the likely method of procedure will be an opening argument by John S. Judge Thompson will probably deliver his charge on Thuraday or Friday. Mr. Pepper, in his argument today, said in all the 5100 pages of testimony there was not sufficient proof that the Bluefields Steamship Company suffered any injury at the hands of the United Fruit Company to warrant it in recovering damages unstun him while the escape was being made, but the end of the pipe struck Rob-bins in the temple and the officer died four days later.

WASHINGTON, Jan. 17.-Called upon to construe the workmen's compensation act of the State of Washington, the Su-preme Court today ruled that the statute abolishes the right of action on behalf of injured workmen or their beneficiaries against third parties as well as against employers. The decision was in a case where an employe of a brewery had been killed by railroad cars and the heirs brought suit against the railroad com-pany. The statute provides that action on behalf of injured workmen be brought by the State. * serious internal injuries which at first were thought to be fatal.
