"NEXT WE WILL BE EXHORTED BY RATTLESNAKE BILL AND BRONCHO PETE" The Wilmington, Del., evangelist is an advocate of quiet methods and personal work in preaching religion. "With one evangelist taking off his coat and another taking off his collar, I think it is time for somebody to stand up and shout, 'Let's keep our clothes on!'" he says. Above is the anti-slang preacher in three characteristic poses.

MOVABLE ARMORED SHIELDS LEFT BEHIND BY RUSSIANS, ADOPTED BY GERMANS. This protected shield, behind which a squad of men could find shelter while pumping bullets into the enemy, is the invention of the Russians, who made use of it when the Germans were laying siege to the fortress at Grodno. So highly did the Germans think of the invention that they not only adopted these, but manufactured more of them.
