OLD RECLUSE FOUND DEAD

Police Believe Man Was Member of Wealthy English Family

CLAYTON, N. J., Jan. 24.-Coroner Ogden is investigating the death of George W. Harrison, 65 years old, whose body was found by neighbors in a bungalow at Franklinville. The interior of the bungalow was in disorder, and there were traces of blood about the man's mouth.

Letters found in the bungalow, where Harrison lived alone, lead to the belief that he was a member of a wealthy Euglish family, from whom he received periodical remittances. He is also said to have received a pension as a former lieutenant in the British army. He was reputed to have hoarded his money, but officials have falled to find more than a mail arms it leaves the periodical said to the s small sum in loose change about the

Toledo's municipal university shortly President Monter;

The movement to our Professor Near-ing began within a few days after his arrival here. The nest step was an atscrival here. The first step was an attempt to personle Mayor Charles M. Milroy not to reappoint Dr. John S. Pyle as a university trustee. The objection to Doctor Pyle was that he had declared himself in favor of Doctor Nearing. Committees and individuals are leaving no stone unturned to accomplish his downfall. Personally, by letter and telephone the city is being thoroughly canvagaed.

One delegation appended to Mayor Ma-loy direct, but not no encouragement. The Mayor said that he knew of no ob-jection to Dector Pyle, that he had the interests of the university at heart and had made many snorthees for it.

The enemies of Doctor Nearing assert that he is using the university for the exploitation of socialistic propagation.

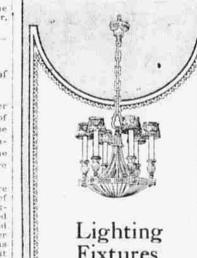

Doctor Nearing has delivered a number of

public addresses here, boldly advocating economic reforms. economic reforms.

If the Mayor disregards the suggestions of the anti-Nearing forces, then, it is said, an attack will be made on the university itself next July, when the Chy-Council is scheduled to make the 198-11 appropriations for the institution. The Council will be asked to withhold city support unless the attitude of the university changes.

Ever since the university was established attacks have been made upon it.

Union labor is said to be solidly back of him and will take action in his favor at the next meeting of the Central Union, reports say, Other bodies, including, of course, the Socialist party, are preparing to act, and it is believed that Doctor Nearing will be able to hold his position.

Dried fruits a healthful diet for the old folks

"—as for food," says Chauncey M. Depew, "half of my friends have digged their graves with their teeth.

There is indeed little doubt that improper diet is the main source of illhealth of many who have passed the prime of life. When the human machinery begins to weaken, the digestive organs need something to aid them in their functions.
