

FRANCE STRONG UNDER PRESSURE OF WAR OUTLAY Enormous Expenses Fail to Cause Pessimism in Financial World CASH NEEDS ASSURED

By EYES GUYOT Editor L'Assemblee Economique et Financiere. Special Cable to the Evening Ledger. PARIS, Jan. 28.—The French Treasury since August, 1914, has borrowed \$2,031,000,000 in addition has taken \$700,000,000 from the Bank of France. Expenses for the first three months of the present year will total \$600,000,000.

The weekly statement of the big bank shows that there is still a large amount of floating capital in France, and that it is assured of finding money for all its needs. Yesterday's statement of the Bank of France shows that it has paid to the amount of \$1,025,000,000, which compares with \$600,000,000 in the Reichsbank deposits all the latter's efforts. Germany still amounts to \$600,000,000, and that they are going to the Reichsbank. France has had to use force, a simple request to the people being all that is necessary to make gold flow into the Bank of France.

The situation of capital being paralyzed by the outbreak of the war is now being gradually remedied, following the decision of the banks not to take advantage of the moratorium for current accounts. The report showed also a general amelioration of the economic situation, and the return toward normal commercial conditions is made evident by the diminution of paper held by the banks on which payment has been deferred under the moratorium. While the year 1915 began with the banks holding \$600,000,000 of paper uncollectible under the moratorium, this amount has been voluntarily reduced by the makers of the paper to \$370,000,000. This decrease has not felt the same impulsion, but, nevertheless, show a very appreciable increase.

UNDERWEAR MADE IN PHILIPPINES REPLACING THAT OF FRENCH ORIGIN Islanders Producing Better-made Goods, Which Also Are More Elaborately Hand Embroidered. Batiste Used in Manufacture

"We have no difficulty getting all the French lingerie we want," said Horace C. Co., 1207 Chestnut street, "but it is not in vogue this winter. Everything in that line runs to light, flimsy fabrics, such as course, thin and wash satins. Or for the French goods, and while I have seen accounts of their scarcity and the great difficulty of obtaining them, I have goods, most of which are elaborately embroidered, are practically all made in the convent schools in France, and the war, so far as I know, has not affected the industry.

CHOCOLATE-A BIG INDUSTRY. Many persons are under the impression that chocolate and cocoa are made from the ordinary cacao. O'Donnell, sales manager for H. O. Wilbur & Sons, 1153 Chestnut street, 235 North 33d street, "The regular crop last year," he said, "was 50 per cent. short of normal, and for that reason prices have gone up. Tomatoes in Cuba are bringing \$1.00 a dozen, whereas the year before last they brought only 60 cents."
