BERLIN REFUSES DEMANDS OF U.S., LONDON REPORTS

Americans in England Get Mysterious Warning That Break Will Come

GERMANY TO STAND PAT

Further Concessions or Punishment of Submarine Commander to Be Rejected

LONDON, Jan. 51. The Geneva correspondent of the Daily Express quotes the Frankfurter Zeituns to the effect that Germany's final answe in the Lusitania case has been submitted to Washington; "that the action of the narine commander is not disapproved and Germany will make no further con

cession." Word is being quietly passed to Amer-icans that now is the time to leave England; that the crisis is acute between Germany and the United States and that breaking of diplomatic relations between those two countries will result in another great submarine campaign by Teuton Uboats that will coake insignificant the great submarine campaign by Teuton U-boats that will make insignificant the first attacks, which resulted in the sinking of several transatlantic liners and scores of smaller vessels.

Whence came the warning to American no one professes to know. It certainly was not issued by the American embasay Nevertheless, citizens of the United State have been advised to leave if they wish to escape the perils of attacks on the high Beas.

The information that Berlin has de cided to make no concessions to the United States has not been confirmed, and Berlin advices intimated that there was strong hope of a settlement of the entire question to the satisfaction of the United States.

Nevertheless, Americana in London generally accepted the mysterious warn-ing as authentic, and some are making their preparations accordingly.

U. S. TAKES GRAVE VIEW OF LUSITANIA AFFAIR

Complete Disavowal by Berlin Neces-· sary to Avert Break

WASHINGTON, Jan. 31,-With Presi wASHINGTON, Jan al., with Presi-dent Wilson today on tour in behalf of his preparedness plan, officials close to the Administration admit that the Lusi-tania dispute with Germany is again as-suming very grave proportions. The Administration has caused Ger-many to understand that common com-

many to understand that prompt com-pliance with this Government's demands for a disavowal is necessary to avoid a break in the friendly relations of the two countries. Germany is informed that if the next response in the Lusitania negotiations shows continued desire to delay satisfaction, grave consequences may ensue.

That the Administration's patience is taxed over the dilly-dallying of Germany in the "conversations" of Ainbassador Bernstorff and Secretary Lansing, has been made known to the Berlin Foreign Office.

A new and universal principle of inter-A new and universal principle of inter-national law, governing both the new de-velopment of submarine warfare and the arming of merchant ships, is the goal of the United States in identical notes sent to all European belligerents. The Administration is seeking, first, establish-ment of a definite submarine code, sub-scribed and agreed to by all nations: and, second, repeal of the ancient war maritime code, which permitted arming of merchant vessels.

Boom for Brumbaugh; What Such Booms Mean

"The man who, in my opinion, prominently fills the presidential bill is Governor Martin G. Brum-baugh, of Pennsylvania. He is too big in moral and political stature to need any special eulogy. His record, well known to the people of Pennsylvania, speaks for itself."--Congressman William S. Vare's favorite son boom for Brumbaugh.

"A favorite-son uprising can be brought to life overnight, and usually is, by the State leaders who think it may be well to lay in a little trading stock in the way of delegates for use at convention time. I was averse to this at the start, for I wanted to know how stood and what the possibilities were, but I had no doubt that I might encourage a few favorite-son movements myself later on, in order to keep the opposition divided. That is one of the oldest and most useful of political tricks. It has been worked time and again. It will be worked time and again. It will be worked until the end of our system of government."—From "A Western Warwick," novel of na-tional polities by Samuel Blythe, in current issue of Saturday Eve-

Congressman William S. He will also make it plain that the entire question of compelling submarines to erve the requirements of storpage and search of merchant ressels before sink-ing them hinges on the point of whether
