WASHINGTON, Jan. 31.—The anti-pre-aredness forces won first blood on the loar of the House this afternoon when they prevented consideration of the Padgett hill increasing by one-half the number of cadets at the naval academy.

The bill was reported at the request of the navy department on the ground that the additional officers provided are urgently needed. By skillful maneuvering the opponents of the bill side-tracked it in favor of the Indian appropriation bill and t cannot be reached again this week

It is realized that President Wilson willngly will support such a tax if it legally
