#### FILIPINOS FACE CHAOS, SAYS CONGRESSMAN

Clarence B. Miller Assails Clarke Bill for Independence of Islands

By a Staff Correspondent

WASHINGTON, Peb. 3.—"If the scut-tie policy of giving the Filipmos inde-pendence in four years is adopted in the Flouse, it will result in conditions in the islands worse than unde, Spanish rule, today declared Representative Clar-ence B. Willer of Wilnessta, thempler of ence B. Miller, of Minnesota, a member of the House Insular Affairs Committee, who has made two exhaustive tours of the Islands, are spoke in reference to the Sonate's action yesterday in adopting the Clarke amendment.

"Apparently the motive for this action was a feeling among Senators that the Philippines were a liability and no an asset, and that if the United States were rid of the islands, with no responsibility for them, we would be strengthened in a military way. I don't believe this view is sound, and I have the authority of military and naval officers to back me

"The Democrats seemed to feel that this was a party measure, and there was no discussion whether the provision was for the welfare of the islanders or whether they are or will be in condition to re-ceive independence in four years. If the Clarke amendment becomes a law busi-ness conditions in the Islands will become chaotic, as foreign capital will immedi-ately withdraw.

"It won't be long after we leave them alone before one or more foreign Powers will selze portions of the islands at least and will occupy them permanently.
"I don't believe the United States should stay in the Philippines longer than to fulfill our obligations to the people of

the islands, but that time will not come for many years"

### **BRANDEIS PROBERS GET** CHARGES AND DEFENSE

Documentary Evidence on Both Sides Laid Before Senate Committee

WASHINGTON, Feb. 3.—After sorting over a pile of documents, letters, tele-grams, charges and counter-charges, and discussing methods of procedure, the sub-committee investigating the fitness of Louis D. Brandels to be Associate Justice of the United States Supreme Court adjourned until Saturday morning without taking definite action.

The committee intends to digest the documents laid before it before issuing subpoems for witnesses to appear for or against Mr. Brandeis. It is probable that a method of procedure will be outlined at the Saturday meeting so that an early report to the complete Judiclary Committee can be made.

Among the most important documentary Among the most important documentary evidence was that said to have been submitted through Senator Lodge of Massachusetts. This is understood to have consisted mainly of documents, made public from time to time in recent years, showing Mr. Brandels' legal connections in New England cases. The purpose of placing these before the committee, it was explained, was to show that Mr. Brandels was "on both sides" of about six important osses in Massachusetts Brandels was "on both sides" of about six important ceses in Massachusetts

Senator Hollis of New Hampshire and Representative Oglesby of New York are said to have laid important facts before the committee in support of Mr. Brandels and designed to show his fitness for the

position.

It was reported today that Mr. Brandels will go before the subcommittee personally to answer the charges made against him in connection with his relations with the so-called shoe machinery trust and in the rallroad rate cases before the Interstate Commerce Commission for which he was special counsel. The opposition to Mr. Brandeis will be led by Clifford Thorne, Railroad Commissioner of Iowa, and L. A. Coolidge, treasurer of the United Shoe Machinery Company.

Pressure to force confirmation will be

very strong. Letters and telegrams from labor leaders and labor organizations, philanthropists and leading attorneys are pouring in on the committee and on all individual Senators. Many of the telegrams characterize the opposition to con-firmation of Brandels as "due to racial prejudices."

### L'ITALIA INCARICATA DI DIFENDERE VALONA DAGLI AUSTRO-BULGARI

Pieni Poteri Politici e Militari Sono Stati Conferiti al Generale Ameglio Per la Guerra nell'Albania

L'AVANZATA AUSTRIACA

ROMA, 3 Febbraio.

Telegrammi da Ginevra dicono che ie colonne austriache operanti nell'Albania hanno raggiunto le gorgenti più settentrionali dei fiume Mati. Si tratta delle colonne che avangano verso Valona. Sembra percio certo che Valona sara' tra non molto attaccata dalle forze austriache e anche da quelle bulgare.

Intanto si e' appreso ieri sera qui che il governo italiano ha dato pieni poteri al generale Ameglio che comanda le forze italiane in Albania, conferendogli anche autorita' politica sui territorio dove ggli ha le sue truppe, anche se questo cerri-

ha le sue truppe, anche se questo cerri-torio dovesse essere amministrato da al-tro Stato. Evidentamente questa fase si riferisce alla possibilità che le truppe Italiane debbano occupare parte dell'Epiro amministrato dalla Grecia.

Il comandante in capo ha il potere di proclamare lo stato di guerra nel ter-ritorio che occupa e sara' responsabile soltanto verso il Ministero della Guerra

soltanto verso il Ministero della Guerra che a lui comunichera' le decisioni del Consiglio dei ministri. In tal modo l'Italia ha ora il pieno ed assoluto controllo delle operazioni militari nell'Albanta, cio' che essa aveva chiesto alle potenze dell'Intesa fin da tre mesi fa, quando le forze austriache e bulgare cominciarono a minacciare l'Albanta. Questa ora e' contiderata come un teatro indipendente della suerra, e cio' sulega il segreto che si e' mantenuto e si mantiene circa i piani che l'Italia si propone di adottare cola'. e mantenuto e si mantiene circa i piani che l'Italia si propone di adottare cola'.

Le previsioni che si fanno qui sono che l'avanzata degli austriaci e la loro occupazione di Durazzo non inconteranno opposizione giacche' Durazzo, senza porto, non offre a lle agli austriaci e nulla per una buonadifesa. Per questo le forze di essare quelle serbe e montennegrine che vi i trovavano l'hanno avandona ritiassare queile serbe e montennegrine che vi al trovavano l'hanno appandonata riti-randosi a sud nelle linee italiane, cosic-che' la base delle operazioni in Albania c' un vero e proprio campo trincerato. Su Valona marciano le forze austriache

dal nord e quelle buigare dall'est, ma l'avanuata e' lenia a causa delle cattive vie di comunicazione sebbene l'osse alutata dagli albanesi che sono pagati lautamente dell'Austria. Le forze di invasione si fanno ascendere a 60,000 nomini che saccheggiano quanto possono. Intanto la popolazione albanese, fatte poche eccezioni, e' decisamente avversa agli alleati. Pero' Valona ed il suo hinteriami sono na spiendidamente fortificati e continuano ad essere rafforzati.

L'Italia approfitta del ritardo nell'avan-zata delle forse austriache e bulgare e del fatto che gli austriaci non possono contare in "ibania sull'aluta della Ger-mania e i bulgari sono costretti a mantenere il grosso delle toro forze nella Serbia e davanti a Salonicce, e probabilmente anche al confine della Rumania, dato il nuovo atteggiamento del governo rumeno.
