Rumania has been invaded by Bulgars, it is said in Swiss dis-patches. Outposts crossing the border were repulsed, but renewed their attacks with reinforcements. Nearly 200,000 Teutons and Bulgars are massed on the Greek frontier in preparation for the drive on Salonica. The Allies, it is reported, are bringing forward heavy guns for the defense of their

Aegran base. Dispatches from Paris indicate the French have been counter-attacking almost without cessation for 48 hours in the Vimy Heights region, and have repulsed several German attacks.

The battle has spread to the British front, where a heavy ar-tillery duel has been in progress for more than 24 hours.

NORTHCLIFFE URGED FOR CABINET POST

British Weekly Demands Editor Accept Ministerial Appointment

LONDON, Feb. 11. Among the innumerable rumors of Cabinet changes the most surprising is the report of a reconciliation between the Government and Lord Northcliffe, who may be induced to accept a Cabinet position

Although this amazing rumor gener-ally is not believed, and is ridiculed by many in view of Lord Northeliffe's ur ceasing and strenuous fight against the Government, it is a fact that its realization would be welcomed throughout the country

It is impossible to overestimate Lord Northcliffe's power. Even so great an expert as Dr. E. J. Dillon, of the Daily Telegraph, who strongly opposes him, de-clares that Lord Northeliffe is the most influential man in the country,

Lord Northcliffe has fought the Gov ernment step by step ever since the first days of the war, but even his opponents agree that his motives have been purely patriotic and that he has nothing to gain and everything to lose by his attacks One of the best known of his opponents told the correspondent of the Sun that there was no question that Lord North-cliffe's sole object in fighting those now controling the conduct of the wat was his determination to see Great Brittin victorious.

BERLIN, Feb. II. German troops have repuised four ef-forts by the French to regain positions loat on Viny heights, the War Office an-nounced today. Similar efforts on the part of the French forces south of the Somme also resulted in failure, it is claimed. The following official report was issued

this afternoon "Northwest of Vimy the French, following artillery preparations that lasted for several hours, four times attempted to recapture their lost trenches. The at-

acks failed. "South of the Somme the enemy was lost positions. "On the Alsne and in Champagne there

were artillery duels. "One of our capity balloons escaped without its crew and drifted over the en-emy lines at Vailly."

Denounced by Socialists at Reichstag Hearing for Preventing Food Discussions

By CARL W. ACKERMAN BERLIN, Jan. II (by mail).

The German censorship was roundly de ounced today at a special committee ceting of the iseichstag. All day long while these criticisms were being made the Foreign Office, which is responsible for the political censorship, and the War Press Bureau, which controls the military news, were minus their responsible heads. They were at the Reichstag listening to the attacks which were being made, most-ly by the Socialists and some provincia newspapers: The charges against the censorship are

about the same as the criticisms of Ame-lean correspondents, except that the So-cialists are much more bitter. They charge the censorship with discrimina-

tion, citing instances where some journal have been permitted to discuss peace while the Socialists have not.

Speakers said conditions had become much worse with the orannization of the War Press Bureau. They declared the restrictions about food discussions, espe-cially the butter shortage, are too severe and one publisher said the newspapers were losing thousands of dollars because so much news is suppressed.

The chief complaint of the American correspondents is that they are so restricted by the censorality that in writing articles they try to write not what they wish, but what they think the censor will pass. Recently the correspondents dis-covered that their own accounts of the batter shortage and the demonstrations in Berlin were suppressed while the Gov-ernment wireless sent a dealah that there we, c riots in Berlin.

Anterican correspondents also believe American correspondence also believe that the Government is too strict about preventing comment on current news af-fecting the relations between the United States and Germeny. Most correspond-ents, for iostance, were gradilated from sending anything about the recall of Cap-tians von Papen and Boy-Ed. The arrest of suspected German agents in the numerous espionage cases which have developed within the past year have led on more than one occasion to the suspicion that enemy aliens were being assisted by an employe of the Govern-ment. Detectives of the special branch of the criminal investigation department of Scotland Yard were set to shadowing various employes and suspicion fell upon Dallas, but his superiors were loath to accuse him for he had been in the home office for 20 years with no blemish upon his character. However, the evidence was of such character that the arrest was made and at the same time the Russian was taken into custody.
