### ATLANTIC CITY'S WONDERFUL GROWTH IN LAST FEW YEARS DISPROVES RUMSELLERS' CLAIM

Closing of Saloons on Sunday, Instead of Proving Detrimental to Resort, Has Added Vastly to Its Prosperity and the Comfort of Visitors

Atlantic City is enjoying the most prosperous winter scason in its history and the hotel bookings for the spring are greater than ever before. The Sunday crowds have increased at the rate of more than 7 per cent yearly since Sunday was declared a "dry" day at the resort. Reform has proved successful thus far, and the big interests of the city are confident that further reform is no less desirable. The following article offers gome trustworthy testimony to show that a resort need not be "bad" to

The resort never before enjoyed the growth it has since that law became effective. On a certain Sunday in August last year \$000 people from the Altoona district of the Pennsylvania Railroad came here. The saloons here ere closed, yet the excursion was so popular the railroad had all it could do to handle the proposition. That is only one instance. There are many more just as significant.

"Furthermore, who is it that complains when there is an attempt to put the salon." statistics compiled show that the volume of traffic between New York and Philadel-phia and the seaside resort has increased by leaps and bounds. The Sunday ex-eursion traffic on the Pennsylvania Rail-

guests who visit Atlantic City. The eight-mile Boardwalk is beyond doubt the chief attraction, and on any pleasant afternoon serves completely to satisfy the majority of the visitors. In the evening there is dancing, music on the piers, roller skating, bowling, theatres, moving picture exhi-bitions and a host of other amusements to satisfy even the most exacting of the guests. Again, the climate is so mild that the Atlantic City Country Club, at Northfield, is sought every day by an enthusi-astic group of golf players. Nicholson - Hemminger Party Arrives for Evangelistic Campaign Which Opens Tomorrow

TEMPLE IS DEDICATED

All Darby, the extreme western part of Philadelphia and many towns in Del-aware County near Darby are wildly ex-cited because of the arrival today of the Nichelson-Hemminger evangelistic party which will tomorrow open a six-weeks revival in a big tabernacle, which has been erected at the Rapid Transit ter-

revival in a big tabernacle, which has been erected at the Rapid Transit terminal in Darby.

Ever since "Billy" Sunday ended his big campaign in Philadelphia the clizens of Darby and the surrounding community have been preparing for the tabernacle meetings to be conducted by the Rev. Dr. William P. Nichelson and Prof. J. Raymond Hemminger, the choir leader and soloist, and the shap and neighborhood meetings to be conducted by their assistants. As a result it is anticipated that the rough wooden shed will be crowded to overflowing tomorrow for the first services. Many of the church workers of Darby and Delaware County attended the meetings of the Nichelson-Hemminger narty in the Chester tabernacle last winfer, and they were so much pleased with them that they made arrangements at that time for a tabernacle campaign of their own.

Eighteen churches have been co-operating to make the revival a success. Prayer meetings have been held for weeks to gain inspiration for the work, and teams gain inspiration for the work, and teams of personal workers have been organized to help lead the unsaved to the services. And one of the most important parts of the preparations for the campaign has been the drilling of the great chorus choir of well-known church singers. There are about 500 persons enrolled in it, and the music leaders are confident that the singcompanies is corroborated by Judge Al-len B. Endicott, president of the Union National Bank, who said: "The banks have shown greatly in-creased deposits ever since the Sunday closing laws went into effect. He welcomed the bluecoats and the high school students, and said he could outride the boys on a bleycle for a 100 miles, also, that he could throw any of the officers, excluding one, if he was permitted to get his hold.

The association was started in the winter of 1891 in the rooms of a day nursery, 116 Diamond street, when Miss Emeline Weigner was appointed by the Central Association to start an association there. For 18 years she served as chairman of the Kensington association. In 1962 the association had grown so that it had to give up its three rooms in the day nursery and go to 2423 Frankford avenue.

By 1909, it had expanded still more, and in October of that year, the association rooms were moved to 2045 Kensington avenue, and a cafeteria was opened. That same year Miss Harriet Harvey became chairman of the Kensington association. The sermon was from the text, "Is it Well With Thee; Is it Well With Thy Husband; Is it Well With Thy Child." Sunday said that the devil and women can ruin the world and Jesus and women can save the world, "I believe," said "Billy," "that there is something unfinished in the makeup of a girl who lacks religion. The average girl of to-day no longer looks forward to mother-

"Why don't you women start a dress reform—of the women, for the women and by the women. I am not a crank. I don't want you to dress like my mother did, with hoops sticking out, but I want you to cover yourselves up when you go out on the streets. Why, a man with red blood in his veins can't look at half the women on the streets now and not have impure thoughts."

The Parkway frontage of the building under existing conditions is but 170 feet but Director Datesman of the Depart-ment of Public Works has under con-sideration a readjustment of streets about

the plat bounded by 21st, 22d, Callow-hill and the Parkway that if adopted will give a frontage of 155 feet for the planned Municipal Auditorium. The suggestion is that the portion of Callowhill street between 21st street and the Parkway, 234 feet in length on the north side be vacated and thrown into a plat to be used for Convention Hall pur-poses. Also that the triangular space to the southwest of Callowhill street be

utilized. In place of the portion of Callowhill from Callowhill street in front of the Bement, Miles plant to the intersection of list street and the Parkway, which would take care of the car traffic now on the line on Callowhill street.

## it would enable the city to obtain a more impressive, architectual effect, and would add no less than 17,000 square feet of floor space to the building. The suggestion is being considered by officials of the Department of Public Works.

Suspect Safe-Cracker Held for Enticing Minor in Jersey Talk about a detective's memory for
