Anti-Saloon Forces Unite to **Oppose Licensees Who Violate Statute**

NORRISTOWN. Pa., Feb. 16.—A Law and Order Society has been organized in Montgomery County to take the place of the no-license campaign, which for the last two years has figured in Liquor License Court in opposition to granting licenses. Francis R. Taylor, of Cheltenham, a lead-ing spirit in the No-License League, is president of the new organization, and a thorney George Wanger, of Norristown, a son of former Congressman Wanger, is secretary. ecretary

It was Mr. Wagner who represented the no-liceme campaign in the License Court hat year, whon nine hotelkeepers lost their license through evidence presented showing violations of the liquor law. The other officers of the organization are Jo-meph M. Steele, of Oak Lane, and J. Dyre Moyer, of Willow Grove, vice presidents Harry S. Hopper, of Narberth, treasurer, and an Executive Committee consisting of the Rev. O. S. Krieble, Pennsburg, the Rev. Joseph B. C. Mackie, Edge Hill; Alen D. Wallis, Wyncote, and Charles uwrence, Norristown. It was Mr. Wagner who represented the

"There will be a same and aggressive fight made in License Court against deal-ers who have violated the laws," said Secretary Wanger, "and in such com-munities where the sentiment is strongly opposed to the liquor traffic remon-strances will be filed, especially against new applications. The purpose of the organization is to unite and keep an aclive opposition to infractions of the liquor laws rather than to have sudden and timporary outbursts of sentiment at the annual session of the License Court."

VICTIM OF TSETSE FLY NOW ON WAY TO HEALTH

Sits Up for Two Hours and Sees . Friends

NEW YORK, Feb. 16 .- Dr. Albert C. Perveil, of 14 Hancock street, Brooklyn, victim of the African sleeping sickness caused by the bite of a tastse fly, has improved so much from the malady, which until now has been considered incurable, that yesterday he was able to sit up for two hours. Daily visits from friends have been the rule for more than a week. Al-though Dr. Elmer Lee, his physician, will not say that all danger is past, he de-clared that he is confident his patient's recovery is only a matter of time.

Doctor Lee is the editor of time. Doctor Lee is the editor of the Health Culture magazine, with offices at 125 West 58th street. When he took Doctor Perveil's case three weeks ago he began a system of treatment in which all medi-cine was barred. His methods attracted the critician of other physicians but Dr. the criticism of other physicians, but Dr. Le H. Warner, pathologist, withdrew a week ago because, he said, Doctor Lee re-fused to use any of the recognized meth-ods and put his faith in "the laying on of hunda".

The treatment which has been used on the tsetse fly victim under Doctor Lee's direction has been massages and manipu-lations, the purpose of which was to stir the patient's body into throwing off the poison of the malady. With this treat-ment, Doctor Lee explained, he combined the proper nutrition to build up the wasted

SUGAR CARGO, BOUND FOR BRITAIN, BURNED Son of Adopted Heir to Receive

\$140,000 Worth Destroyed by "Queer" Blaze on Steam-

ship in Port Here The steamship Josephine Dalton, which was to sail today for West Hartlepool. Eng. is indefinitely detained at Pier 19. North Wharves, because of a fire which swept her hold last night and destroyed more than 500 tons of auxar, which was valued at \$140,000. It was part of a con-signment of 1500 tons that was being load-ed on board by the Pennsylvania Refinsignment of 1500 tons that was being load-ed on board by the Pennsylvania Refin-ing Company. The total value of the con-signment, which was destined for the use of the British army in France, was \$270,-500. This fire following one a short time ago on the municipal pler near-by, at Vine street, made Captain Holt suspect that there was something "queer" about it. He binted at incendiarism. The fire-men left the size at 8 of clock with the son or an actual child.

men left the pier at S o'clock with the last spark extinguished. The Dalton is owned by the Earlan Line, and is under charter by the British Government. The blaze discovered in the hold was the 40th fire in this city yester-day. It had burned for some time before It was discovered by members of the crew. Fire engines were run out to the edge of the pler while the fireboat Stuart and the policeboat Ashbridge, which has fire pumps attached, drew up on the opposite side of the burning vessel and within a

short time a dozen streams were pouring into the hold. However, it was three hours before the blaze was under control. Five firemen were overcome.

Before the fire was extinguished the hip began to list to the starboard, owing to the great quantities of water which had been poured into her hold. Captain Alexander Hope feared that the vessel night founder, and ordered the crew to man the ship's hand pumps. By this means the vessel was soon righted.

OBITUARIES

present mosquito extermination act, un-der which counties reluctant to appropriate funds, may be forced to join in the provement to make Jersey a mosquito-less Commonwealth.

Politicians who would rather use the noney in other directions, the mosquito men say, comprise the greater part of the upstate friends of the Dairymple measure. There is no disposition in Atlantic County to abandon the work which has been going forward for several years with excellent results. Passage of the Dalrymple measexcuse for stopping work in other coast counties, it is contended.

The convention, comprising representatives from all over the State, will point to an addition of hundreds of thousands of dollars in valuation to the tax duplicates of shore counties as proof of the efficacy of extermination methods. Thou-sands of acres of marsh, which formerly bred only mosquitoes, now are nearly dry and raising large crops of hay,

Atlantic County's mosquito experts and hotel men, who have backed the elimination campaign enthusiastically, are grieved over the attitude of Cape May County in virtually blocking Atlantic City's plans. Failure of the lower county to go into the extermination campaign for reasons of economy will make it impossihie to keep mosquitoes out of Atlantic City, no matter how many thousands of dollars may be spent upon this side of the county line, because of the great breeding areas back of Ocean City.

Members of the Legislature, leading physicians of the State, engineers, and State health authorities will be among the speakers at the two days' convention. Several speakers are coming from Washington and Governor James F. Fielder may be present.

The program provides for three ses-tions. Thursday afternoon, Thursday evening and Friday morning. Hotel guests and residents of the city, Interested in a economic movement, are invited to attend the meetings.

Prompt Action Stops Frankford Fire

A dangerous fire was narrowly averted morning at the Barrett Manufacturc Company, a chemical plant at Ber-ida and Margaretta streets, Frankford, when the safety valve of a light oil con-denser blew off under heavy pressure, igniting the oil vapor. Prompt action on the part of the workmen, who closed all the pipes leading from the condenser, prevented the flames from reaching a large quantity of oil. The damage was slight.

Hampton Roads

Haneptan Roads is an inlet of Chesa-peake Bay, and covers an area of about lo square miles. It is the principal naval rendsarbous of the United States, and could afford safe anchorage to the navies smid afford aafe anchorage to the navies of the world. The entrance is guarded in Port Weel, known as the Rip-Raps, a very strong fortress built on an arti-bical luised. In Hampton Roads on the the of March, 1861, was fought the sea in tile between the Monitor and the Merri-me, the first real test of ironclads in a this warfare, and the turning point in actual construction.

Adjourn Without an

Mobile Conference Likely to

STILL DEADLOCKED

fields meeting in this city to arrange a new wage schedule for western Pennsylvania, Ohio, Indiana and Iliinois, were generally of the opinion last night that the present joint conference would adjourn this week without an agreement, but with an understanding that negotiations would be continued at some other city after the preliminaries of the anthracite conference which begins in New York next week are out of the way.

The 11 demands of the United Mine Workers have been referred to a sub-committee of eight miners and eight operators with the international officers of union as exofficio members. Yesterday was spent in discussing the minerun question and when the subcommitte ad-journed until today it was deadlocked with neither side showing any disposition to recede. The mine-run demand provides for the weighing of coal before it is screened and that be paid for on the runof mine basis.

The miners in the committee made the flat declaration that they would not sign an agreement in the four States involved without the mine-run method of paying the workers. The western Pennsylvania operators replied that they would not grant the demand. The question asked last night was to what limit the miners would press the demand and to what extent the operators would resist it.

It was understood that the operators from Illinois, Indiana and Ohio were will-ing to accept the mine-run demand with certain modifications, but the coal mine owners from the district were opposed to accepting it under any conditions.

The argument of both sides in the subcommittee was along the same line as that in the full joint conference, the west-ern Pennsylvania operators claiming they The miners replied that the minerum system. The miners replied that the minerum system. The miners replied that the minerum method was the only equitable basis on which the labor of the miners could be paid

MISSING BOY IN DOG HOUSE

Lad Says He Felt Need of "Change'

ATLANTIC CITY, N. J. Feb. 16.—Fred Scott, 9 years old, missing from his home. 619 Richmond avenue, since Saturday last, was found at midnight by the police naking up a bed of straw in a dog house n rear of a tenement on Baltie avenue. Scott is small for his years, and assured the polics he found his new "home" per-fectly satisfactory. He had no fault to find with his treatment by his parents except that he felt the need of a "chauge."

American and English Debts

The United States is not indebted to Great Britain as a nation. We owe large tereat Britain as a name. We owe argue sums abroad in the form of capital which we have imported, or, in other words, the necurities which we have placed in Great Herizaho. How much this and other com-mercial obligations of a smaller character amount to it is impossible to say at present, but it is certain that the amount has been reduced very materially since the outbreak of the war, probably by several initians of dollars.
