One saw in the multi-colored assemblage last night an occasional person whose velus hear none of the blood of Sunny Italy—a probable seeker after "atmosphere." But it wam't the rule. The most remarkable feature of the affair was the happiness of the girls fird women. Theirs wasn't the ordinary flush of pleasure that everybody feels in a coloral musical place like Horticultural Hall was last night; they seemed almost transfigured with happiness. It was curious to a degree. One was made to wonder if the men of those hundreds last night usually had a better time, for they seemed to get the amount of fun out of the dance that one expects to get. But their wives or sweethearts were way above them. The escorts noticed it, too, and only the fact that it was so general kept the suspicions down. In questi circoli politici e diplomatici si ritiene che i tedeschi hanno commesso in Rumania lo stesso errore che commisero in Italia, quello cioe' di ricorrere alle intimidazioni per ottenere la continuazione della neutralita'. Essi hanno tentato anche in Rumania, come in Italia, di provocare una crisi ministeriale, ma invece di raggiungere lo scopo che si proponevano hanno invece rafforzato il gabinetta che ora, con l'attaggiamento anti-tedesco, ha guadagnato l'appoggio del partito della

ora, con l'attaggiamento anti-tedesco, ha guadagnato l'appoggio del partito della guerra.

Cosi' e' avvenuta in Rumania la necessaria unione dei partiti politici, unione che prelude guerra. I rumeni intanto raccolgono i frutti della loro neutralita' vendendo alla Germania grano a prezzi elevati artificialmente dall'Inghiliterra e pretendend one il pagamento in oro.

Giunge notizia da Vienna che gli austriaci hanno ripreso la loro marcia da nord verso sud in Albania, dopo essere stati trattenuti dal cattivo tempo. A Vienna e' stato annunciato che gli italiani che si trovavano Durazzo hanno tentato di arrestare ra canzata degli austriaci, ma sono stati ricacciati indietro. Il fatto e' che se a Durazzo si trovano truppe italiane si tratta di pochi reparti senza alcuna importanza.

Intanto i russi continuano la loro marcia vittoriosa in Asia Minore ed hanno gia' occupato tutta la regione del Lago di Van. I turchi della guarnigione di Bitlis si sono ritirati a sud. Le avanguardie dell'ala destra russa sono giunte a breve distanza da Trebisonda. Un reparto di cossochi, avendo incontrata nelle montagne una colonna di fanteria ed artiglieria turca, l'attacco' e mise in fuga la fanteria e prese al nemico tre batterie di cannoni da campagna e parecchi cassoni. Si dice che due corpi d'armata turchi che erano in marcia verso Erzerum si sono ritirati alla loro base dopo avere appreso che la fortezza era caduta, e che i russi marciavano verso, Trebisonda. che la fortezza era caduta, e che i russi marciavano verso, Trebisonda.

POOR RICHARD MARKS

ITS TENTH BIRTHDAY

'Best Party Yet" Held by Club. Parisian Cabaret a Feature

The Poor Richard Club today is 10 years old, tired and happy.

It gave its "best party yet," beginning last night and ending early this morning

—a Parisian cabaret and supper-dance
in a Japanese setting that transformed
the ballroom of the Bellevue-Stratford into a vari-colored maze

More than 200 members and their guests, including ladies for the first time, celebrated the 10th birthday of the club. Fifty tables, with red and green lights, were ranged about the room, and in rapid ssion followed one "stunt" after another while the diners dined. Professional entertainers staged a cabaret show that ranged from roller skating to singing. A German band, commandeered on Broad treet, was ushered in and played neutral airs. Dancing filled in the minutes tween the "stunts." Thomas Martindale, first president of

AMERICANS WARNED FROM FRENCH LINER

Departure of Espagne Postponed After Publication of Anonymous Letters

NEW, YORK. Feb. 22.—Anonymous letters, warning against taking passage on the liner Espagne, because of danger of submarine attacks, have been received by Americans intending to sail on the ship. Mrs. F. Banker Hillton has made public a letter which she has received. It is similar to the anonymous warning received by Americans who sailed on the Lusitania, and lost their lives when the big Cumarder was torpedoed and sem to the bottom. At the French Line office today it was announced that the departure of the Espagne had been postponed from Thursday to Friday. The delay in sailing is not due to the warning letters. It was declared.
"We ignore such reported warnings," it was stated.

A low priced piano with a tone of musical beauty

THE making of good pianos at low cost requires not only the artistic instinct, plus twentieth century manufacturing facilities-it also demands a large output. All these demands are fully met in the great Ludwig piano organization. A shining example of Ludwig genius

PERRY PIANO \$275

Large production permits this low selling price. Over 91,000 pianos of Ludwig make have been placed in the homes of the people.

With the largest and most modern equipped factories in greater New York, with facilities for turning out 7500 pianos and playerpianos a year, the manufacturing cost is thus reduced, so that we are enabled to offer a better piano at \$275 than the dealer or manufacturer of small output can provide for \$350.

The proof is in the Perry Piano itself. The rich, deep tone is of surprising quality for the price. The action, case design and finish are only to be found elsewhere in high priced pianos. Those who believe it is necessary to pay a high price in order to obtain a good piano will change their minds when they see and hear the Perry.

The LUDWIG PERRYOLA \$450 to \$550

is a development of the Perry Piano, into which has been installed our own patented Unit Valve Player Action, resulting in an artistic playerpiano that may either be played by hand or with the music rolls.

The lowest priced Perry Piano is \$275. You can obtain a Perryola Playerpiano as low as \$450, which is a charge of

only \$175 for the most efficient player mechanism yet devised. You thus obtain a playerpiano-two instruments in one-at the price some dealers ask for the conventional piano.

It should be remembered that the Perry Piano and Perryola are made by the big Ludwig factory—and are backed by the Ludwig Guarantee. All the prestige that attaches to the Ludwig name protects you. Usually it is necessary to pay for a famous name, but that condition 'oes not exist when you buy from Ludwig's, the house of moderate prices.

Your present piano accepted as part payment. Favorable terms on the balance.
