

LABOR-SAVING DEVICES EXHIBIT OPENS TODAY; 24 CITIES PARTICIPATE

First Regiment Armory Shelters More Than \$1,000,000 Worth of Office Equipment in 100 Booths

SEVENTY-SEVEN ENTRIES

First Annual Philadelphia Business Show

Time—Today and every day this week from 1 to 10 p. m. Place—First Regiment Armory, Broad and Callowhill streets. Monday—Commercial Students' Day, 5 p. m. Typewriter Contest, open to all in 25 States east of the Mississippi.

Twenty-four cities in all parts of the country have sent products to the first annual Philadelphia Business Show, which opened at 1 o'clock today in the 1st Regiment Armory, Broad and Callowhill streets.

One million dollars' worth of office equipment has been placed in the 100 booths at the exhibit through the efforts of Frank E. Tupper, president, and Nathan W. Tupper, vice president of the Annual Business Show. The exhibit will be open until 10 o'clock Saturday night.

This afternoon at 5 o'clock one of the largest speed typewriter contests ever held in Philadelphia will take place at the Business Show in connection with the Commercial Students' Day celebration. Any typewriter experts, amateurs or novices from any of the 25 States east of the Mississippi are eligible to enter; the three contestants, and until now there have been about 45 entries.

Those who never used a typewriter prior to September, 1915, are eligible to the novice contest; those who have never been in a contest before can enter the amateur contest, and those who have already been in one are eligible for the professional contest. J. M. Kimball, New York, known as "the Judge of Contests," who has acted as official judge at all the international contests for the world's typewriting championship, will act as judge this afternoon. Gold, silver and bronze medals will be given the three winners in each of the contests.

ARMORY DECORATED. The armory is a blaze of gold and blue today. Pergolas of white string with electric lights have been strung to form the booths. Music by the D'Aquin Military Band will be heard during the Business Show.

The 24 cities which have exhibits in the 100 booths are: Philadelphia, New York, Chicago, Cleveland, Wilmington, Del., Newark, N. J.; Kalamazoo, Mich.; Detroit, Mich.; Brooklyn, N. Y.; Orange, N. J.; Harrisburg, Pa.; Boston; Belleville, N. J.; Haute, Ind.; Ilion, N. Y.; Rochester, N. Y.; Hartford, Conn.; Indianapolis, Ind.; Providence, R. I.; Syracuse, N. Y.; St. Louis; Lansing, Mich.; North Tonawanda, N. Y.; and Rockford, Ill.

The aim of the Business Show is to bring the manufacturer of the labor-saving devices of the 20th century in touch with the business men of the city of Philadelphia and vicinity. This is the first time such an exhibit has ever been held in Philadelphia—the first time that business men here have ever had the opportunity of seeing all the modern office devices they have read about in newspapers and magazines, all under one roof. The following list of exhibitors at the Business Show will give a general idea of the varied exhibits. Each exhibitor will have experts at his booth to explain the mechanism of the products shown:

- Addressograph Company, Chicago. W. H. Alexander, Philadelphia. Amberg File and Index Company, Chicago. American Clip Company, New York. American Electric Company, Chicago. American Multigraph Sales Company, Cleveland. American Vulcanized Fibre Company, Wilmington, Del. Automatic Feed System Company, Chicago. Bell Telephone Company, Philadelphia. Bickering Paper Press Company, Philadelphia. Bicklow Radial Distributor, Newark, N. J. Louis Bunn, Philadelphia. Burroughs Adding Machine Company, Detroit. Corona Typewriter Company, New York. Dalton Adding Machine, Cleveland. Remington Adding Machine Company, Brooklyn. The Dictaphone Company, New York. Duplicator Manufacturing Company, Chicago. Thomas A. Edison, Inc., Orange, N. J. Elliott Addressing Machine Company, New York. Elliott-Fisher Company, Harrisburg.

To the Philadelphia Business Man

These are days of rapid development in office devices, but in nothing has there been such an advance as in Underwood Bookkeeping methods. Therefore your visit to the Business Show this week will be unproductive in best results if you fail to see a demonstration of the UNDERWOOD BOOKKEEPING MACHINE. In the field of mechanical recording this innovation in office appliances occupies the same relative position as does the Underwood Typewriter among correspondence machines. And you will recall it is the Underwood that holds all International records for speed, accuracy and durability.

The UNDERWOOD BOOKKEEPING MACHINE keeps your books, makes out your bills, checks your trial balances, lists your daily records, computes your figures and writes your letters.

You do not have to change your scheme of bookkeeping to use the UNDERWOOD BOOKKEEPING MACHINE. It fits itself to YOUR methods.

The Underwood Typewriter booth, filled with "Machines For Every Need," is the first thing that greets you on entering the show.

MANAGERS OF BUSINESS SHOW

F. E. Tupper (left) and Nathan W. Tupper are in charge of the exhibition which opened today at the 1st Regiment Armory, Broad and Callowhill streets.

The present changes in the directorate corporation. HARRY F. BROWN Formerly a chemist at the Newport, R. I., torpedo station of the United States Government. He was connected for a time with the International Smokeless Powder Chemical Company and became affiliated with the du Pont Company when it took over that concern in 1904. He is a defendant in the du Pont suit and a stockholder in the du Pont Securities Company.

WILLIAM COYNE. Was brought into the du Pont Company as a traffic manager. He was advanced to the sales department, of which he is now the director. He is a defendant in the du Pont suit and a stockholder in the du Pont Securities Company.

A. FELIX DU PONT. Assistant superintendent in the smokeless powder plant of the powder company. He is a cousin to Pierre S. du Pont, a defendant in the du Pont suit and a stockholder in the du Pont Securities Company.

EUGENE E. DU PONT. Not an employee of the du Pont Powder

Company in any capacity, but a defendant in the du Pont suit and a stockholder in the du Pont Securities Company. ALEXIS I. DU PONT For many years secretary of the powder company. He is a cousin of Pierre S. du Pont and is said to be in sympathy with him. HENRY F. DU PONT Son of Senator Henry A. du Pont and reputed to be the latter's representative in the powder company. He is not an employee of the company, but is a defendant in the du Pont suit and a stockholder of the du Pont Securities Company.

IRENEE DU PONT Brother of Pierre S. du Pont, a defendant in the du Pont suit and a stockholder in the du Pont Securities Company. He was brought into the powder company about 1903 by Alfred I. du Pont. LAMMOT DU PONT Brother of Pierre S. du Pont, a defendant in the du Pont suit and a stockholder in the du Pont Securities Company. He was brought into the powder company by Alfred I. du Pont.

HENRY BELIN, JR. For many years agent for the powder company at Scranton, Pa. He is the father-in-law and uncle of Pierre S. du Pont and is naturally in sympathy with the du Pont Securities Company. FRANK L. CONNABLE. Originally of the Chattanooga Powder Company, Chattanooga, Tenn. He became connected with the powder company when it acquired the Chattanooga concern in 1905. His sympathies in the litigation have not been clearly defined.

PIERRE S. DU PONT. President of the powder company. He was elected to that office within a week after the formation of the du Pont Securities Company. He is the principal

individual defendant in the du Pont suit and the largest stockholder in the du Pont Securities Company. He became connected with the powder company in 1893, at the invitation of his cousin, Alfred I. du Pont. HARRY G. HASKELL. Formerly connected with the Repauno Chemical Company. He is a defendant in the du Pont suit and a stockholder in the du Pont Securities Company. J. A. HASKELL. Formerly president of the Latin & Rand Powder Company. He is a brother of Harry G. Haskell and is locally in sympathy with the latter in the litigation now pending in the United States District Court. JOHN P. LAFFEY. Head of the legal department of the du Pont Company. He is a stockholder in the du Pont Securities Company, an in-

dividual defendant in the du Pont suit and is counsel for himself and the other defendants in the litigation. CHARLES L. PATTERSON. Formerly a mining engineer for the Lehigh Valley Coal Company. He was brought into the Repauno Chemical Company by William du Pont, then president of the concern. He became associated with the du Pont Powder Company about 1902. He is said to be in sympathy with those in the du Pont Securities Company. WILLIAM G. RAMSAY. Chief engineer of the powder company. He was brought into the business by H. M. Barksdale and is a stockholder in the du Pont Securities Company. JOHN J. RASKOB. Formerly a stenographer to Pierre S. du Pont. He is a defendant in the du Pont suit, a stockholder in the du Pont Securities Company and is also a small stockholder in the powder company.

First Regiment Armory Broad and Callowhill Sts. Illustration of a man at a typewriter.

You'll All Want to See the Demonstration of the SELF-STARTING REMINGTON

At the Philadelphia Business Show. This is the greatest of all modern typewriter improvements. It adds at least 25 per cent. to the speed of the typist in the writing of ordinary letters by cutting out all the tap, tap, tap and the fumble and fuss in setting the carriage. The carriage practically sets itself. All that the operator does is WRITE. But don't simply take our word for it. Come and see the demonstration, for to see is to be convinced. You will see lots of other interesting things at the Remington Booth. You will see the most complete line of typewriters in the world—a machine for every purpose, including the Remington Accounting Machine (Wahl Mechanism), which is the latest development of the Adding and Subtracting Typewriter.
