BIG DEMAND FOR PIG IRON PITTSBURGH, March 15 .- The demand

for pig iron continues heavy and prices are hardening. Bessemer for shipment to Italy at about \$21, furnace.

The demand for steel sheets is unprec-sented. Actual orders booked in the last 10 days exceed those placed during any corresponding period in the history of the local trade. Makers of automobiles are clamering for sheets, and are taking all that the mills will release. Books for the fourth quarter were morned a few fourth quarter were opened a few days ago, and some concerns can get only a third of their requirements. Domestic manufacturers of spiegeleiser

have advanced prices \$10 a ton to \$60, furnace, for shipment over the last six months of the year. Cleveland warehouse prices have been advanced \$5 a ton on bars and shapes and blue an-mealed sheets and \$10 a ton on plates.

WHEAT ADVANCED AFTER EARLY LOSS

Adverse Crop News and Extensive Covering Brought Strength

CHICAGO, March 15 .- Good buying by commission houses and extensive covering by shorts, due to adverse crop news from many points in the winter wheat beit. together with prospects of a smaller area in Canada, caused considerable strength in the wheat market today after it had

en weak. The early decline was due to a drop

been weak.

The early decline was due to a drop at Liverpool and selling of futures here by foreigners. Many traders asserted that the recent low prices had discounted bearish conditions in the way of big domestic supplies. The absorbing power of the market today was good.

A leading commission house said that in view of the excessive snow fall and the return at this late date of below zero temperature in western Canada, it was worth remembering that he Dominion Government reported only 36 per cent. of plowing done last fall in Manitoba, against 93 per cent in 1914; 27 per cent in Saskatchewan, against 77 per cent. and 34 per cent. in Alberta, compared with 56 per cent. May, after selling at \$1.07½ at the start, moved up to \$1.10% and finished at start, moved up to \$1.10% and finished at \$1.10%, against \$1.08% at the end yester-day, and July, after starting at \$1.06%, rose to \$1.09%, finishing at \$1.08%, com-pared with \$1.07% at the close yester-

The Price Current said that the extent of winter killing of the crop, which will be revealed soon, is apt to be quite ex-tensive, especially in those sections where heavy rains fil last fall, followed by sleet storms. Most of Kansas and all of Ne-braska seem to be the only important parts that have escaped damage. A revival of the green bug infection is to be expected. Dry weather in the Southwest is a source of apprehension.
