**LENTEN PREACHER JUSTIFIES WAR FOR RIGHTEOUS CAUSE**  
 Rev. Dr. George Craig Stewart, in Sermon at the Garrick, Commends President's Defense Plans

**CITES SACRED EVENT**  
 "War is devilish, but there is something more devilish than war, and that is with-  
 out mission to wrong. Peace is heavenly,  
 but there is something more heavenly  
 than peace, and that is defense of the  
 right." These were the words of the  
 Rev. Dr. George Craig Stewart, of Exeter,  
 Ill., in a stirring Lenten sermon  
 today at the Garrick Theatre.

The large audience which heard Dr. Stewart was thrilled by his call to all Americans to support President Wilson's plan for adequate national defense. He informed the congregation of President Wilson's call to arms, and of the fact that the United States is now in a state of national emergency. He declared that the United States is now in a state of national emergency, and that the United States is now in a state of national emergency.

**TURKEY PURSUES BOY SCULPTOR TILL HE TURNS AND EATS OLD FOE**

Professor Grafty, Teacher of Prize-winning Greek, Plays Chef and Presents Him With Bird to Carve

Turkey seems to pursue George De Metris, who is a sculptor. He was the winner of the Stewart sculpture contest last week at the Academy of the Fine Arts. The sculptor, who is only 25 years old, attributes his success to the fact that he had more money to buy the bird than he had to buy the sculpture.

De Metris was eventually surprised by the appearance of the professor himself, who was at the time in the city. He played the 150-long runner of the young sculptor. He was the first time he had ever seen Turkey, and Greece in such a harmonious combination. While he is usually of a jovious disposition, De Metris attacked the Turkish bird, and severed his legs, his head, and finally his wings, and the other birds went one better than the others in Europe, by devouring the money immediately.

**NEIL BONNER WITNESS IN BREWERY PROBE**

Philadelphian Expected to Arrive in Erie Today to Testify in Suit

ERIE, Pa., March 21.—Officials of the Total Liquor Dealers' Association gave out from their headquarters at noon today that they expect Neil Bonner, of Philadelphia, president of the National Association and former president of the State Association to arrive in Erie today to appear before the new Federal Grand Jury in the brewery probe that will be continued here tomorrow by United States Attorney E. Lewis Hanes. His subpoena for testimony in Philadelphia has been issued, but the Federal authorities refuse to divulge the names of all of the persons who have been served as yet. They have been subpoenaed to the United States Marshal at Philadelphia.

It is said to be a fact, however, that Mr. Bonner is to be called before the Grand Jury tomorrow. Among the first of the brewery men to be called today was James E. Mulvihill, of Erie, who is the president of the Total Liquor Dealers' Association of that city, and one of the leaders of the State liquor probe. Mr. Mulvihill has been in Erie for the last several days, and is expected to be in Erie tomorrow, as a result of the liquor probe given the Grand Jury by Judge Charles D. Orr, in which he has been called to testify on the evidence presented in the case.

Evangelist Rouses Darby Audience to Applause and Laughter in Sermon on "Dumps"  
 "Some professing Christians are like two Kilkenny cats hanging by their tails over a chandelier and fighting like devils for the love of God."  
 This statement by Evangelist William F. Nicholson, during his sermon in the Nicholson-Heminger tabernacle in Darby this afternoon, brought forth roars of laughter and applause. And it was not alone the unusual statement which caused the hand clapping for the revivalist spoke in his head Irish brogue, which is always entertaining.

*the soup of the epicure*

*"Come in the evening,  
 Or come in the morning,  
 Come when you're looked for,  
 Or come without warning."*

An unexpected guest is a true compliment—a "vote of confidence" appreciated by any hostess—if she is prepared!

Next to the Quality of Franco-American Soups they are perhaps most valued for their "preparedness."

These soups are the individual "creations" of the French Artist-Chef, Monsieur Biardot. They are to be served upon your dinner table without addition or alteration. Any modification would only detract from their exquisite and delicate flavor. Finished to the last fine detail, they relieve you of all "nervousness" as to the soup course.

"Merely heat before serving" are the sole Franco-American directions. In their simplicity hostesses find a world of relief.

Franco-American Quality imparts distinction to any dinner table. It is pleasant to know that you can obtain it simply by notifying your grocer.

THERE is probably nothing that imperceptibly varies more in its contents than Nature's drinking water. Every drop has the tendency to absorb something either gaseous or solid.

Distillation is a natural process. It is the withdrawal of foreign matter for which the water has had an affinity. We drink water to cleanse our bodies, to absorb and carry away the impurities. If this drinking water is already loaded with more or less foreign matter, how can it do its work properly?

As a solution, science has given us PUROCK, a pleasant drinking water + the means to health.

Purock Water is delivered to offices and homes in sterilized, sealed glass bottles. Six large bottles or a five-gallon demijohn, 40 cents.

Order a case, use one bottle. If the water fails to please, we will, at your request, remove the case and make no charge.
