New York Servant Girl Makes Short Work of Supposed Burglar

NEW YORK, April 10.—Elizabeth Steinbeck, a lusty German maid in the household of William Ziegler, who inherited millions from his foster-father, William Ziegler, known as the "baking powder king," last night captured and subdued, single-handed, Walter Schumann, a supposed burglar, who gained entrance to the Ziegler apartments, at 525 Park avenue.

The maid found the door of her room was held closed, and with a nighty shove she slowly began to force it back. The man on the other side suddenly gave way. Miss Steinbeck stumbled forward with the sudden release of the door, fell upon Schumann, who is a small man, and knocked him breathless to the floor. There was a short battle—very short—and Miss Steinbeck dragged Schumann out of the room and delivered him to a policeman.

Id Wang, the woman's husband, met Teske at the top of the stairway. Teske, according to the police, threatened to kill them both. He was driven to the street and there arrested by Policemen Kelly and Byrnes, of the 11th and Winter streets station. The greatest reference work in the world, which used to be in large cumbrous volumes-heavy to handle —has been reduced in size to fit any library or drawing room (unabridged by a word or a line).

And —the cost has been reduced so as to bring it within the reach of every home. The price is no longer a bar.

You can own it, now, if you act promptly.

Why You Need It

You do not belong to the 20th century if you have not in your home a quick and authoritative work of reference to settle every question which may come up, and inform you about any desired fact or thing.

Your school or college education has been wasted if you have not the ready means and the habit of recalling, fixing, broadening, applying, the things you have learned.

There is in English only one great exhaustive encyclopaedia of all knowledge-without a rival for a century and a half-the oldest encyclopaedia, now in its latest edition the newest-the Encyclopaedia Britannica.

With the Encyclopaedia Britannica in your home, the worth of your school or college education is not merely doubled or tripled; it is multiplied twenty, forty times.

With the Encyclopaedia Britannica as a daily guide you have no need for a college education; it is in itself-a "liberal education in the best sense." But hitherto this work has been only for the few, who could afford to

pay a high price-\$150 to \$250 for the new Eleventh Edition. In the new "Handy Volume" issue of the new Eleventh Edition, the cost has been so reduced that we are able to sell the complete work for onethird the price of the higher priced issue.

And we send you the complete work-the entire 29 volumes-for a first payment of one dollar.

You Take No Risk

Get this fixed firmly in your mind. This is the complete new Eleventh Edition of the Encyclopaedia Britannica, which cost a million and a half dollars simply to prepare, and involved the investment before a single copy was sold of more than \$4,000,000. The "Handy Volume" issue is identical in contents, page for page, line for line,

with the higher-priced issue.
