

BACKGROUND SHOULD BE CHANGED IN OUTFIELD AT BOSTON AMERICAN LEAGUE PARK

FACING GRAY BACKGROUND AT FENWAY PARK WILL BE BIG HANDICAP TO VISITING TEAMS

Great Pitching Staff of World's Champions Will Be Hard to Hit Unless Customary Green Is Substituted

BEFORE the present season is much older, there is likely to be a strenuous kick raised by American League clubs over the background painted on the concrete wall in center field at Fenway Park, Boston. It is customary, though not compulsory, to have the fence directly behind the pitcher in deep center field painted green and almost every field in the major league circuits conforms with this custom. The green background enables a player to see the ball better.

If there is any color that is hard on the eye it is army gray. This color is worse than black and the fence at Fenway Park has been painted that color. Just why this was done is a mystery, but we have an idea that it is to make the great pitching staff of the world's champions even more effective.

With Speaker gone the Red Sox attack will not be nearly so strong as it was last year and if Carrigan's team is to win the American League pennant, the pitching staff must turn the trick. Pitching 77 games out of a schedule of 144 on a field which gives them a decided edge on opposing batters should make the famous staff twirlers doubly effective.

When the Red Sox become accustomed to batting against the gray background, visiting teams which play only 11 games at Fenway Park will not have much chance to star as heavy hitters.

Boston Has Speed-Ball Artists

Boston has a staff of fast ball pitchers, baring Foster, who is speedier than the average hurler, and visiting teams will find it hard to hit under any condition. On a dark day batters unaccustomed to this background will constantly be in danger of being hit if Ernie Shore or "Dutch" Leonard is on the mound for the Red Sox.

On opening day in Boston the Athletic players complained that the ball was upon them before they knew it. They believed that Ruth was faster than they had ever seen him or that their lack of practice caused them to swing late. But after a few innings of the second game with Shore pitching, the Mackmen discovered that he was keeping his fast ball high and that every pitch was coming out of the background.

Unless President Johnson forces the Boston club to paint the fence green or some color other than army gray, the Red Sox will have a great and unfair advantage over visiting teams. Not much of an offense will be needed for the Sox to win at home, as the defense will be wonderful if the pitchers have this advantage.

Red Sox Do Not Look Strong Without Speaker

Even with this great advantage—if they are permitted to get away with it—the Red Sox do not look strong enough to repeat in the American League. The season only has started and Clarence Walker may play such sensational ball that the other players may forget Speaker's loss. But at the present time, however, Boston does not look like the same team.

Speaker's absence from the Red Sox has impressed upon Bostonians that the famous outfielder means to the Red Sox what Cobb does to Detroit; Collins to Chicago; Alexander and Cravath to the Phillies; and Johnson to Washington. Often a team makes the player, but after seeing the Red Sox without Speaker, one must come to the conclusion that Speaker made the world's champions.

There is little ginger, despite the fact that the team has been playing the lowly Mackmen. Every one on the team is encouraging Clarence Walker and the fans are pulling for him, but it is evident that Speaker's departure has left a hole which cannot be filled.

Speaker Was An Important Factor

It is said that there was friction between Speaker and certain members of the team, but if such was the case, the bad feeling was never apparent on the ball field and the famous outfielder fit in perfectly with the machine-like play of the veteran aggregation and he was easily the most important cog in the machine.

As one Boston scribe puts it, the Red Sox will have to be favored with super-human pitching to win the pennant without Speaker. Last year Carrigan's young staff showed wonderful form and really carried the team through. It is possible that the additional experience will make this staff even more effective this season, but it is hard to imagine a corps doing better work than it did last year.

As said before, Bostonians are beginning to realize what Speaker meant to the team, and some of the Royal Rooters who have been fairly close to the big men of the game do not hesitate to blame President Ban Johnson for the deal which sent Speaker to Cleveland. They argue that President Lannin did not want to part with Speaker, but that it was done "for the good of the league."

A Nasty Rumor Being Circulated

Another rumor which is gaining headway in Boston is that President Johnson owns a great deal of the stock his former secretary, Robert McCoy, is said to own in the new Cleveland Club, and that Johnson was helping himself as well as "the league" in making the deal. Rumors of this sort naturally will be circulated where there is such general dissatisfaction prevailing, and some one is always ready to deny them.

President Lannin says he did not want Speaker and that he had outlived his usefulness with the Red Sox; but in the next breath he declares that Speaker is worth every cent the Indians spent to purchase him. If Speaker is worth \$50,000 to Cleveland, then he was worth triple that amount to a team which looked like a pennant winner with him, and whose players realize that they have been weakened 50 per cent. when he was taken away.

If the move was made "for the good of the league," it is likely to prove a boomerang. Boston is a better baseball city than Cleveland and the American League owes much of its success to the loyalty of the fans of that city. What is more, Speaker alone cannot make a pennant winner of the Indians.

It May Prove a Costly Deal to Sox

If the Red Sox should lose the American League pennant by six or seven games, it will prove a costly deal for Lannin, as the famous outfielder saves a greater number of contests with his fielding each season and is directly or indirectly responsible for the winning of twice that number. As the difference between a pennant winner, with the world's series spoils, and a second place team is something like \$100,000, to say nothing of the additional attendance throughout the season, it is hard to see how Lannin could make the deal at this time. It was not a case of saving him from the Reds, who no longer exist, and there may be quite a lot of truth to the opinion expressed by the Bostonians.

Detroit Pinning Faith in Coveleski

Detroit's chances for a pennant this season depend largely on the form and consistency shown by Harry Coveleski, the veteran left-hander, who let the White Sox down with a trio of singles in the opening game. Coveleski at present is in wonderful form and apparently has everything that he had when he pulled his famous Giant-killing stunt while a member of the Phillies' hurling staff.

When Coveleski is right, there is not a better pitcher in the game. He has all the speed, control and knack of crossing the batter that is possessed by the best hurlers in the country today. But Covey has always been erratic because of his varying physical condition. Apparently his arm never troubles him, but at times he gets in such bad shape that he cannot stand the pace. This was the reason why he was shut out of several times to the minors after making a really wonderful showing in the majors.

As long as Veach, Cobb and Crawford keep up their safe volleying, Jennings need not fear of losing many close games. But he must have good pitching to win, just as any other club must, and to have this during the present campaign it is essential that Coveleski keep in condition to take his turn in the box.

The Pennsylvania State League has decided to retain the salary limit of \$2500, which was adopted at the last meeting. This is an unusually high limit for a league of this sort, and if the clubs, in searching for the best available material, go the limit, the fans can rest assured that they will see high-class minor league ball. There are at least two cities in the circuit as composed now which never have been able to support teams with a larger salary limit than that carried by the old Tri-State League, but with greater interest being shown in the game everywhere, each may enjoy a prosperous season.

Manager McGraw is so well pleased with the work of his Federal Leaguers that he has signed another. The veteran Bill McKee, who managed Newark last season, is McGraw's latest addition. He has been signed because McGraw fears that Hans Lobert has played his last game. Lobert's legs have been in poor condition for two years, and the dislocation of the knee, which has troubled him for several seasons, probably will finish the former Philly player as a major league player. McKee must do a whole lot better than on his previous trials in the big show, or he will not strengthen McGraw's team any.

Charley Herzog has started overworking his pitchers already. Apparently there is no such thing as a relief twirler, whose special duty it is to stop rallies, as Herzog has two of his stars on the mound each afternoon. The Reds have a pitching staff which may make them mighty dangerous if Herzog does not lose sight of the fact that the race is of 154 games and not one month.

HINTS TO GOLF BEGINNERS

Referee Gets Walloped When He Gives Decision to Louisiana's Opponent

KANSAS CITY, April 15.—A series of free-for-all fighting followed Referee Charles Pierson's decision in favor of Carlos Fanning, of Oklahoma, over Louisiana at the end of their 12-round bout here last night.

Some one smote Pierson in the mouth and in a moment the ring was full of flying fists. The police finally quelled the trouble. Consensus of opinion was that Louisiana won seven of the 12 rounds.

HERMAN MEYER GETS AUTO Given Present by Friends of Northwestern Assembly

Herman Meyer, secretary of the Middle Atlantic Association of the Amateur Athletic Union, has been presented with an automobile by his friends in Northwestern Assembly of the Athletic Order of Mutual Protection.

Mr. Meyer has been secretary of the athletic teams of Northwestern since 1908 and has won every championship in the organization, including bowling, tug-of-war, baseball and track and field.
