\$2,500,000 SCHOOL LOAN EAGERLY TAKEN

General Prosperity Indicated by Bids That Trebly Oversubscribe Total Isque

General prosperity was evidenced this afternoon at a special meeting of the Finance Committee of the Board of Education, when a loan of \$2,500,000 floated to effect improvements in the public school system, was oversubscribed three times.

The loan was authorized to pay for the erection of school buildings and a public school office building and for the purchase of sites for buildings. The entire issue was awarded to the banking firm of Brown Brothers & Co., who offered a premlum of \$.78 on each \$100 of the \$2.-500,000. Their bid was almost equaled by that of Newberger, Henderson & Loeb, who offered to pay \$.75 for the issue.

A bid of \$100.1573 jointly by the three banking firms of Reilly, Brock & Co., E. W. Clark & Co. and Graham & Co. Relly, Brock & Co. floated a loan of \$2,000,000 last year for the Board of Education. The liberality with which of-\$2,000,000 fers on the loan were forthcoming was a pal Church, Atlantic City. sign of prosperity, according to Edwin Wolf, chairman of the Finance Committee.

"It shows that everybody has money, said. "It also shows that school bond are growing in popularity among invest-ors. The chief attraction of school bonds lica in the fact that they are exempt from the Federal income tax and all other forms of assessment."

The loan of \$2,500,000 was floated in the The loan of \$2,500,000 was floated in the form of registered bonds in denominations of \$500, \$1000 and \$5000. Interest will be paid on these bonds at a rate of 4 per cent, and the first payment of principal will occur in 1926. Interest as well as principal will be paid through the Farm-

ers and Mechanics' National Bank. The premium obtained on the loan this year was slightly less than that received last year, when a loan was floated by the

Board of Education. This was due to the fact that interest at the rate of 4% per cent, was paid on the previous loan. In proportion to this difference, the Board Education realized a greater sum than it did last year.

It is estimated that the premium which Brown Brothers & Co. must pay for the privilege of floating the loan will amount to \$15,500. Three bids were received on the entire issue, but there were many effers for fractions of the \$2,500,000. Some of these came from women in all parts of Pennsylvania; others from exsutors of estates and from private cor-

porations. All of the blds were filed with William Dick, secretary of the Board of Educa-tion, and opened promptly at noon in the presence of the Finance Committee as well as bidders. Intense interest was mani-

fested among spectators when the scaled offers were opened.

STEEL BOARD REDUCED

Directorate Cut From 18 to 15 Members

NEW YORK, April 17.-Edmund C. Converse, Alfred Clifford and Thomas Murray resigned as directors of the United States Steel Corporation at the annual meeting today in furtherance of the policy of cutting the directorate from 18 to 15 members. The following directors of the 1919 class were nominated: James A. Farrell, E. H. Gary, J. P. Morgan, George W. Perkins and George F. Baker.

Judge Clary told the directors that the Steel Corporation and its subsidiaries new np oy about 250,000 men, of whom 50,-30 are stockholders. At his request B. S mith an employe told the stockholders something about working conditions. Smith declared that the steel corpora-tion did not cut wages last year until two months after other corporations, and that the wages of common laborers were not

touched. Replying to Smith, Judge Gary said Replying to Smith, Judge Gary said that during the period of business de-pression the directors favored passing the dividend rather than reducing wages of onomon laborers. He said he considered it an honor to be connected with a cor-poration whose employes were willing to stand before the stockholders and express sear ago. This is an increase of \$79,001.-

FOREIGN EXCHANGE

FOREIGN EXCHANGE NEW YORK, April 17.—In the first hour of business today in the Foreign Exchange market the price feature was a recurrence of decided strength in French exchange. Quotations advanced to the highest figures of the rally last week, 5.98½ for cables and 5.99 for checks. Sterling ruled at the highest recent figures at 4.76½ for demand and 4.77 1-16 for cables. Reichmarks held firm at 73% and 73½.

Other quotations were: Lire cables, 6.43 ½; checks, 6.50; Swiss cables, 6.16; checks, 5.16 ½. Vienna, 12.65 and 12.70; Stockholm, 29.40 and 29.59, Pesetas,

Stockholm, 29.40 and 29.50. Pesetas, 19.40 and 19.42; guilders, 42% and 42%; roubles, 30% and 30%. The above-quoted figures for French exchange are nominal, as that class of exchange was very scarce early today, and it is difficult to obtain quotations ex-cept on actual business. The tendency is toward a higher level, in the opinion of female exchange experts.

toward a higher level, in the opinion of foreign exchange experts. Around midday was a further sharp ad-vance in French exchange to 5.95 for cables and 5.95 % for checks. This is an extreme recovery of 14 points from the extreme low level reached the middle of last week and reflects the expectation of the impending arrangement of large new credit in this country for the French Gov-ernment. Sterling Exchange also held ernment. Steriing Exchange also held firmly at 4.75 % for demand and 4.77 1-16 for cables.

COTTON MARKET OPENS WITH FREE LIQUIDATION OF MAY

Commission House, With German Business, Buys From Liverpool

NEW YORK, April 17 .- Free liquidation of May was the feature at the opening on the Cotton Exchange this morning.

A spot interest took up nearly all the offerings and held the market in check. The tone was steady with prices 1 point lower to 2 points higher.

Liverpool sold about 2000 bales of Janu-ary on the call, more than half of which was taken by a commission house, which at times does a large business for German account. Southern interests were good. The market was quiet during the middle of the morning and fluctuations rather marrow and irregular. After selling up to 12.02c. for instance, July eased off to 11.87c under a moderate selling order, and other months also sagged back to a shade under Saturday's clouing figures. There was no change in the grand back to be
